

Achievers

Foundation course for your success

Workbook - 1

Class 5

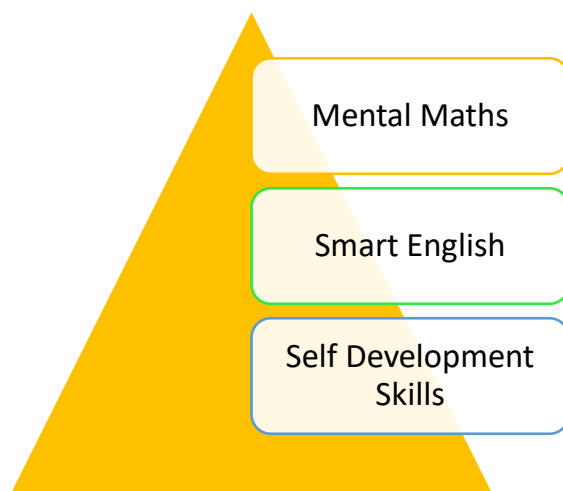

www.mentorsbasket.com

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Enhance Self-Development Skills. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Self – Development** – Children who become invested in self-improvement at a young age will likely experience many advantages in life. But it can be a little tricky to figure out exactly how to go about teaching kids about self-improvement. We have developed strategies that can help children to be more confident and in becoming the best version of themselves.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Read the Passage and answer the questions.

Stripes That Sticks Together?

By Erin Horner

Do you ever use teamwork? If you play sports then you probably do. One person can't win a soccer game all by themselves. It takes the whole team working together to accomplish that goal. That's teamwork. You may also use teamwork at school. When your teacher assigns a group project, each person has to do his or her part to complete the assigned task. This is also teamwork. Did you know that many animals use teamwork, too? Zebras, for example, use teamwork to protect their herds from predators. Lions, leopards, and cheetahs all like to prey on zebras. But these striped animals use teamwork to try to stay safe. Often in the wild, zebras will stand together in a large herd. When many zebras stand together, it looks like a sea of black and white stripes! All of these stripes confuse the predators. The predators can't tell where one zebra starts and where one ends. Sometimes, one zebra will stand right next to another one. They face opposite directions. This allows the zebras to look for predators that may be coming from any direction. Teamwork is a wonderful thing. It can help us accomplish goals. For zebras, teamwork is also a life skill. When they work together, these beautiful animals can help each other survive in the wild.

1. Why do zebras use teamwork?

2. The author probably wrote this passage to _____.

- A. demonstrate how to spot a zebra in the wild
- B. inform you about why you should use teamwork
- C. describe how zebras use teamwork
- D. persuade you to use teamwork

3. What does *teamwork* mean in this story?

4. Choose the best title.

- A. Zebras: Living Alone and Loving It
- B. Striped Animals That Stick Together
- C. Don't Mess With My Stripes
- D. Zebra Zzz's: How Do Zebras Sleep in the Wild?

Smart English Worksheet 2

1. Read the comprehension carefully and answer the questions.

Jack and Jackie Teach Shoe - Tying

By Beth Beuther

Jake and Jackie were playing catch outside Jake's house when Jake's four-year-old brother, Darren, ran by.

"Hey, buddy," Jake called, "your shoes are untied."

Darren stopped in his tracks and looked down. He looked up at Jake. "I don't know how to tie my shoes yet," he said.

"Well, come here then, and I'll tie them," Jake said.

Darren walked over to Jake, trying not to trip on the flopping laces. He sat on the porch step.

Jake squatted down and pulled Darren's right foot up onto his knee. He began to tie Darren's shoe when Jackie said, "Why don't we teach him how to tie his own shoe?"

Jake looked at Jackie and rolled his eyes. Jackie made a face and turned to Darren.

"Hey, Darren. Would you like to learn to tie your own shoes?"

"Yes!" Darren cried out.

"Okay, then. Let me sit by you, and we'll do it together."

Jake stood up, stretched, and crossed his arms. He watched Jackie help his brother. She sat next to Darren, facing the same direction he was.

"Start out by holding one side of your shoe strings in each hand. Pull the strings upward a bit until they are about even.

Jackie guided Darren's right hand and then continued. "Cross the left string over the right one and put the tip through the loop you have created. Now pull the two strings to tighten the loop."

Darren yanked on the strings. Jackie laughed. "You don't need to yank quite that hard, but it's okay. Now, make a loop out of the right string and hold it between your thumb and first finger, like this." Jackie took Darren's hand, and they made a loop together.

"Use your left hand to wrap the left string around the looped right string. Pinch the left string with your right thumb and forefinger. Yes, do that at the same time you are holding the right string's loop. Now bend your right forefinger and push the left string toward you. Do you see how it's making its own loop? Grab that loop and pull on it with your right hand while your left hand is pulling on the loop you first made out of the right string. Now, gently pull each loop away from each other to tighten."

Darren's left loop came undone, and they had to start over. He looked disappointed.

"That's okay, Darren," Jake said. "Just try again."

Jake stooped down to put his hands over Darren's, and they went through the process again. This time, it worked. Darren's face brightened. "I did it!" he said.

Jake and Jackie both said, "You sure did!"

Jackie untied the shoe, and Darren made a face. "Why did you do that?" Darren asked.

"Because you need to practice some more. You'll get faster and faster. Once you are used to it, you can double-tie your shoes by wrapping the left loop over the right and pulling it back through the opening," Jackie explained.

Darren looked a little confused. Jake rolled his eyes. "Don't worry, Darren. We can teach you that later."

Darren kept practicing until he had tied his shoes at least ten times. "Can I go now?" he asked.

Jackie and Jake laughed. "Sure, Darren. Good job!"

1. Who was Darren?

2. Who suggested teaching Darren to tie his own shoes?

- A. Jackie
- B. Jake

3. Jake did not help teach his brother at all.

- A. true
- B. false

4. Which of the following terms is NOT used in the story?

- A. shoestring
- B. double-tie
- C. leather
- D. loop

5. How many times did Darren practice?

6. How old is Darren?

- A. 3 years old
- B. 6 years old
- C. 4 years old
- D. 5 years old

7. When the first attempt to tie his shoes didn't work, Darren looked _____.
