

Achievers

Foundation course for your success

Workbook - 3

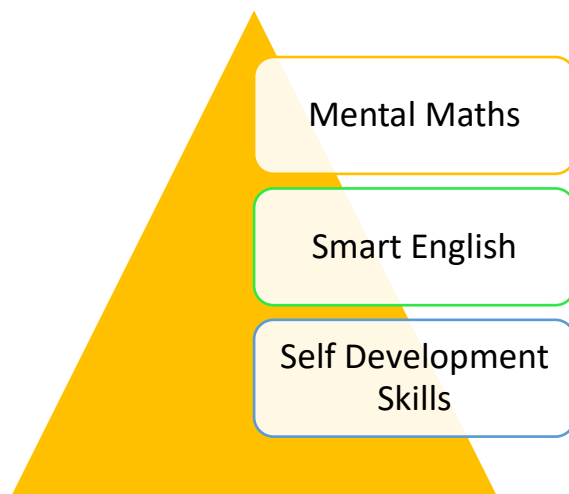

Class 5

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Enhance Self-Development Skills. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Self – Development** – Children who become invested in self-improvement at a young age will likely experience many advantages in life. But it can be a little tricky to figure out exactly how to go about teaching kids about self-improvement. We have developed strategies that can help children to be more confident and in becoming the best version of themselves.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Read the Passage and answer the questions.

Don't Worry About That Dorsal Fin!

I love to swim in the ocean. I think that it is fun to feel the wet sand squish between my toes. I also think that it is fun to ride over the gentle waves. Once when I was swimming, I saw a huge dorsal fin coming right towards me! That was not fun. That was scary! I was afraid that I was swimming with a shark. I ran to the shore as fast as I could. Luckily, that eerie back fin did not belong to a shark. It belonged to a dolphin.

Dolphins are beautiful aquatic animals. There are almost forty different kinds of dolphins. These awesome animals easily swim through the water. They use the flippers on their sides to help them steer. Most dolphins have dorsal fins. This is used for more than just scaring swimming tourists. It is designed to help a dolphin keep its balance.

Dolphins are mammals. They are warm blooded just like us. Like humans, they also have a backbone and give birth to live young called calves. Mother dolphins feed their calves milk from their bodies. Dolphins have soft skin that feels a lot like rubber. Some people even say that their skin kind of feels like a hot dog!

A group of dolphins is called a pod. Dolphins can be found in different water habitats. There are many saltwater dolphins that live in the world's oceans and seas. There are also many different kinds of freshwater dolphins. They live in South American and Asian rivers. Dolphins all hold their breath to swim deep underwater. Some can hold their breath for more than fifteen minutes! Eventually, they must return to the surface for more air. Special blowholes on top of the dolphins' heads allow them to do this. Many dolphins will jump and dance on top of the water before diving back down. It is a beautiful sight to see.

The next time I go swimming in the ocean, I am definitely going to peek for a pod before diving in. It might be really fun to swim with a dorsal-finned animal, but only if that dorsal fin belongs to a dolphin!

Don't Worry About That Dorsal Fin!

1. Where could you find a pod of freshwater dolphins?

2. The author probably wrote this passage to _____.

- A. inform you about dolphins
- B. describe how to spot a shark in the ocean
- C. demonstrate how to escape from a dangerous ocean animal
- D. persuade you to swim with dolphins

3. In this passage the word *calves* means _____.

- A. pieces of ice no longer attached to a glacier
- B. lower leg muscles
- C. baby cows
- D. baby dolphins

4. What can the reader conclude after reading this passage?

- A. Swimming in the ocean is always dangerous.
- B. There is only one type of dolphin.
- C. It would be possible to see a type of dolphin in varying water habitats.
- D. Dolphins and sharks are related.

Smart English Worksheet 2

1. Read the passage and answer the questions

BACKYARD

Your backyard is a busy place. Grass grows there. Grass uses sunlight, water, and carbon dioxide to make its own food. Like all plants, grass is a primary producer in the food chain. The grass grows. It makes more food energy than it needs. Some of the food energy is stored in the plant as grass seed.

A mouse comes to eat the grass seed. It is an herbivore. Herbivores are animals that eat only plants as food. The mouse is a consumer. It can't make its own food; it must eat or consume food from plants. The mouse is a first-level consumer. It is first in line getting food from the plant producers.

A snake sneaks into your yard. It is looking for food. It sees the mouse! It eats the mouse. The snake is a carnivore. It is an animal that eats other animals. What is its place in the food chain? It is a second-level consumer.

There is a sudden, silent swoop in the darkness. An owl glides down and snatches the snake. The owl eats the snake. The owl is also a carnivore. It eats other carnivores. It is called a third-level (or tertiary) consumer.

Animals must eat to get energy. They need energy from food to breathe. They need food energy to keep their hearts beating. They need food energy to move around. They need food energy to get more food. When one animal eats another, it gets the energy that was stored in the dead animal's body. Energy is passed through the food chain.

1. Put these in order from the first food to the last food eaten.

- A. mouse
- B. grass
- C. snake

2. Plants are _____.

- A. consumers
- B. producers
- C. carnivores

3. A _____ is an animal that eats other animals.

- A. producer
- B. carnivore
- C. consumer

4. How does grass get food?

5. Animals must _____ to get energy.

- A. eat
- B. kill
- C. make their own food
- D. hunt

6. Some animals eat _____ as food; some animals eat other animals.

- A. only sunlight
- B. only water
- C. rocks
- D. only plants

1.Fill in the blanks with appropriate word.

1. Don't waste your time trying to _____ her that she is wrong.
☐ A convine
☐ B canvince
☐ C convince
☐ D convinc
☐ E conviince
2. Steph will _____ her dance routine on Friday night.
☐ A perorm
☐ B pirform
☐ C perfarm
☐ D perform
☐ E parferm
3. I went to the doctor because my _____ was hurting.
☐ A tthroat
☐ B thoat
☐ C thaot
☐ D traot
☐ E throat
4. I like one _____ of sugar in my coffee.
☐ A lomp
☐ B lemp
☐ C lup
☐ D luump
☐ E lump
5. The biggest _____ of the local Health Department is the shortage of flu vaccine.
☐ A concirn
☐ B cancern
☐ C concern
☐ D concer
☐ E cencorn
6. It is impolite to _____ about serious matters.
☐ A jest
☐ B jeest
☐ C jes
☐ D jast
☐ E jost

7. When Maria took piano lessons, she had to _____ an hour each day.
 - ☐ A pactice
 - ☐ B prectice
 - ☐ C practici
 - ☐ D practice
 - ☐ E practicu
8. Tokyo stocks opened lower Tuesday following Wall Street's Monday _____.
 - ☐ A decline
 - ☐ B doclane
 - ☐ C declinne
 - ☐ D declie
 - ☐ E dicline
9. Our teacher said she would _____ on our deadline if we all worked harder than usual.
 - ☐ A rilent
 - ☐ B relent
 - ☐ C relint
 - ☐ D rlent
 - ☐ E ralent
10. As a _____ of the terrorist attacks, no international flights were allowed to land at American airports for several days.
 - ☐ A risult
 - ☐ B result
 - ☐ C resut
 - ☐ D ruselt
 - ☐ E ressult
