

Achievers

Foundation course for your success

Workbook - 4

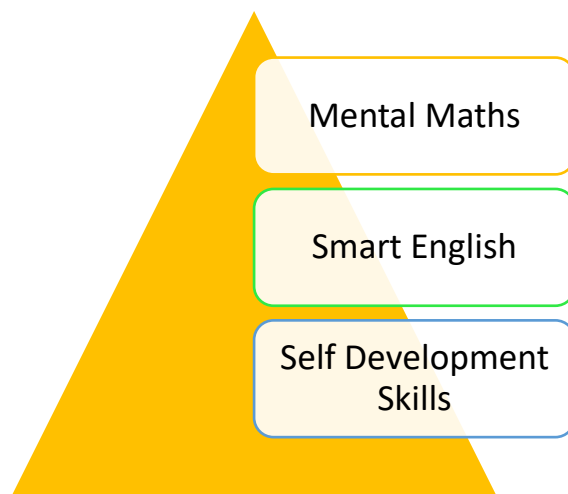

Class 5

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Enhance Self-Development Skills. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Self – Development** – Children who become invested in self-improvement at a young age will likely experience many advantages in life. But it can be a little tricky to figure out exactly how to go about teaching kids about self-improvement. We have developed strategies that can help children to be more confident and in becoming the best version of themselves.

Smart English Worksheet 1

1. Read the Passage and answer the questions.

A ball with a funny shape

I am a ball, but I am not round. I am about eleven inches long and look like an egg with pointy ends. I am usually brown. A long time ago, I was made out of an inflated pig bladder. Maybe that is why my nickname is "pigskin". In America, the championship game of my sport is called the Super Bowl. The trophy for the winner is called the Vince Lombardi Trophy. Many people watch this game every year, even if they are not regular fans of this sport. They have parties with their friends, eat a lot of food, watch funny television commercials, and cheer for (perhaps) their just-picked favorite team!

A Ball with a Funny Shape

Questions

- _____ 1. What is the name of the trophy that goes to the winner of the Super Bowl?

1. Read the passage and answer the questions

A cool web

"Mom, I found a cool website!" said Warren.

Warren's mom was busy in the kitchen. She thought Warren was in the family room next to the kitchen playing with blocks. But it sounded like he was on the computer instead.

"Warren, are you on the computer? I do not want you on the computer because it is a beautiful, sunny day. Why don't you go play outside?" said Mom.

"But I am outside!" said Warren.

"How did you find a website outside?" said Mom. She went to the kitchen's sliding glass door. She opened it and looked out into the yard. Then she saw Warren. He was next to the house.

"See, Mom, look at my outdoor website. It is not on the Internet," said Warren.

Mom stepped outside and looked where Warren was pointing. He had found a "website" that was also an amazing work of art. It was delicate. It was made out of fine strands. Can you guess what Warren found?

"That is a good way to put it," said Mom as she looked more closely at the spider web.

Mom and Warren looked at the web together. It was beautiful indeed.

"You know, spiders are helpful," said Mom.

"A lot of people are scared of spiders," said Warren, "but I like them!"

"I like them, too," said Mom. "Spiders can be helpful because many of them eat pests like flies. We should be kind to them. I am really glad you found a 'website' outside."

"Me, too," said Warren. "This is the coolest website I have ever seen!"

Questions

- _____ 1. Where did Warren's mom think he was at first?
- A. the kitchen
 - B. the living room
 - C. the family room
 - D. none of the above
- _____ 2. What was the weather like outside in this story?
- A. rainy
 - B. cloudy
 - C. snowy
 - D. sunny
- _____ 3. How did Warren feel about spiders?
- A. He did not like them.
 - B. He liked them.
 - C. He was scared of them.
 - D. none of the above
4. What is one type of insect that many spiders eat?
