

Achievers

Foundation course for your success

Workbook - 5

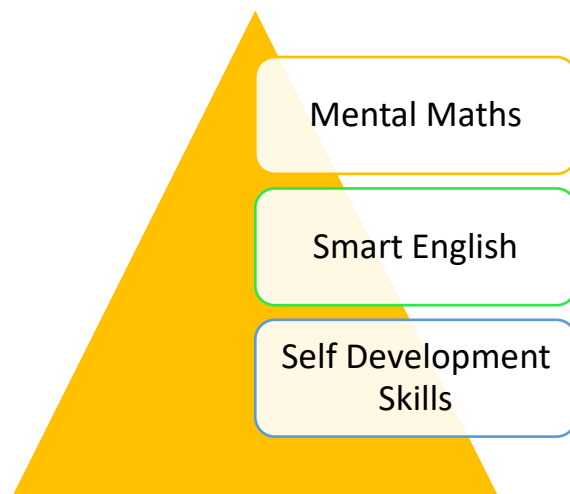

Class 5

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring*." We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Enhance Self-Development Skills. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Self – Development** – Children who become invested in self-improvement at a young age will likely experience many advantages in life. But it can be a little tricky to figure out exactly how to go about teaching kids about self-improvement. We have developed strategies that can help children to be more confident and in becoming the best version of themselves.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Read the passage and answer the questions below

When you look at a forest, what do you see? You probably see many tall trees. You might also see pine cones on the ground or animals scurrying about. There's a lot more to a forest than meets the eye. A forest is actually a food factory! The plants in the forest are very busy making their own food. They do this through a process known as photosynthesis. Photosynthesis is a chemical reaction. It takes place in chlorophyll found in the leaves. Plants absorb water and nutrients from the soil. The leaves of the plants also take in carbon dioxide from the air. Photosynthesis occurs when energy from the sun combines with the carbon dioxide and water. The result is glucose. Glucose is food for the plants. The process makes a waste product as well. The waste is oxygen. The plants must get rid of it. That's good news for people and animals! The plants might not need the oxygen, but we do! The next time you explore a forest, remember that the plants that surround you are not just a group of growing greenery. They are also a factory of hard workers, busily creating food for themselves and oxygen for you!

Questions

1. Why do you think the author calls the forest a "food factory"? Explain your answer.

2. "*The next time you explore a forest, remember that the plants that surround you are not just a group of growing greenery.*" Which figurative language technique is being used in this quote from the passage?

- A. personification
- B. alliteration
- C. simile
- D. onomatopoeia

3. Which of the following is an effect of photosynthesis?

- A. Oxygen is released.
- B. People have water to drink.
- C. Plants stop growing.
- D. A physical change takes place.

4. The writer's main purpose for writing this story was to _____ her readers.

- A. inform
- B. express personal feelings to
- C. persuade
- D. entertain

Smart English Worksheet 2

1. Read the following passage and answer the questions

The higher power of lucky

Susan Patron was very shy when she was a child. It wasn't that she didn't like being around people. It was finding words to say that caused her the most trouble. It was hard for her to find the right words to describe how she was feeling or what she was thinking. So, she just kept quiet.

Susan grew up as the middle child in a family with three girls. The fourth grade changed her life forever. Her teacher read *Charlotte's Web* aloud to the class. In the scene where Charlotte died, Susan felt like she was sharing a special moment with everyone involved. She felt connected to her teacher, to the author of the book, and to all of the kids in her class. Susan was impressed by the power of the words in the book. She wanted to be able to do that. That was the moment she decided to become a writer. Later, the librarian brought an armload of books to her class. Susan wasn't much of a reader at the time. The librarian's visit changed that. The librarian came into her classroom to talk about books. Susan was fascinated with her. The librarian held the books tightly, almost like she was hugging them. She smoothed the jackets of the books. She stroked them and ran her fingers over their pages. Susan had never seen anyone treat a book in such a loving manner. She went to the library after school that day and fell in love with reading almost instantly.

As she grew up, Susan started writing. Susan learned that it was easy for her to say the things going through her mind when she was writing. She had time to choose the right words. She could try them out and move them around until she was saying exactly what she wanted to say. As a teenager, she wrote poetry and essays about nature. She dreamed of running away to Paris to become a writer.

Susan grew up, went to college, and became a librarian. She worked with children and shared her love of books with them. She decided that she wanted to write her own books, too. She spent her weekends and vacation time writing. It took her some time to learn how to tell stories on paper, but she kept at it. She must have figured it out because her books have gotten rave reviews. Her 2006 book *The Higher Power of Lucky* even won the Newbery Medal! The Newbery Medal is an award given to the best children's book written each year. After the success of the book, Susan Patron retired from her job as a librarian. Now she is a full-time writer. She has come a long way from the shy young girl who had trouble finding the right words.

Questions

1. Why was Susan Patron so shy as a child?
 - A. She didn't like being around people she didn't know.
 - B. She was afraid people would find out that she didn't know how to read.
 - C. She had trouble finding the right words to express what she wanted to say.
 - D. all of the above
2. Susan Patron has an older sister and _____.
 - A. three younger brothers
 - B. two younger sisters
 - C. an older brother
 - D. a younger sister

3. What happened to Susan Patron in the fourth grade?

- A. She decided to become a writer.
- B. She heard *Charlotte's Web* read aloud to her for the first time.
- C. She learned that words can be very powerful.
- D. all of the above

4. What was it about the librarian who visited her classroom that Susan Patron found to be so interesting?

5. Susan Patron's book *The Higher Power of Lucky* won the Newbery Medal, an award given to _____.

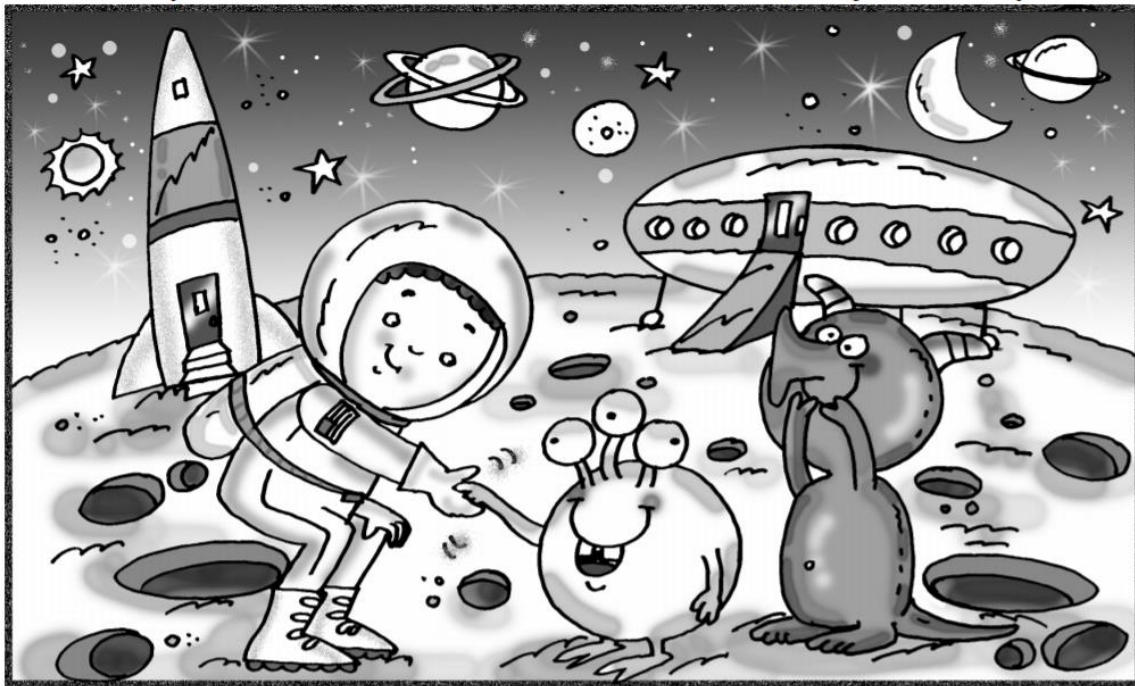

- A. the best-loved main character in a book
- B. the best children's book written each year
- C. the best new writer each year
- D. the best selling children's book each year

1. Find synonyms for the word “sad” Given in the box below. Replace the word ”sad” with the synonyms you found

Sad. Sad. Sad. Sad. Sad is making me dizzy. Can we use a different word?

disconsolate • languishing • somber • wistful • mournful • despondent
inconsolable • bereaved • crestfallen • melancholy • brokenhearted
morose

"Don't be **sad**. It's just a movie," Cassidy said.

"But it was a **sad** movie," Tyler cried.

"The movie wasn't real, silly. How can you be **sad** about something that is fake?"

"I'm **sad** you brought me to see a **sad** movie about a fake lost dog. And we didn't even get popcorn! I'm **sad** about fake things and real things!" Tyler replied.

What words do you think could best replace sad in the above text? Write your best choices:

1. _____ 2. _____ 3. _____

4. _____ 5. _____ 6. _____

Now rewrite the text without using the word sad. Think you can?
