

Achievers

Foundation course for your success

Workbook - 6

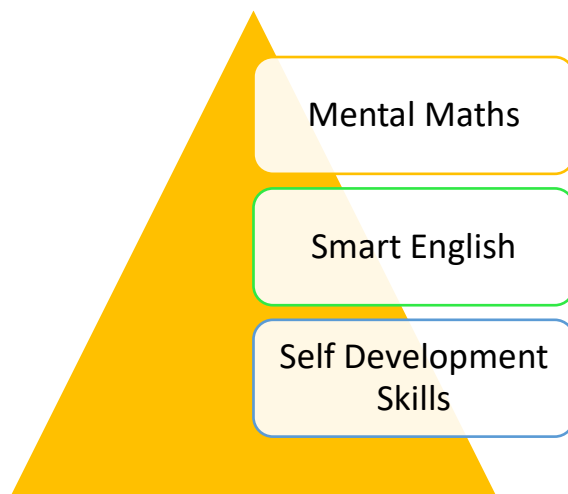

Class 5

Preface.

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring*." We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Enhance Self-Development Skills. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Self – Development** – Children who become invested in self-improvement at a young age will likely experience many advantages in life. But it can be a little tricky to figure out exactly how to go about teaching kids about self-improvement. We have developed strategies that can help children to be more confident and in becoming the best version of themselves.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Read the passage and answer the questions given below

The students were getting restless. School would be out in seven days. The teachers could hardly wait to be done, too. They were reaching a point of not having much more material to teach. Final exams were next week, so they spent class periods reviewing material that would be on the exams.

"Are your students acting like they are stir crazy?" Jessica asked her fellow teacher friend, Marian.

"They sure are!" Marian said. "I can't say much though. I'm feeling a little stir crazy myself."

"I know what you mean. Our beach vacation is coming up, and I can't wait to just sit on the deck and watch the ocean waves roll in."

"The best part about vacation is that things are not so scheduled," Marian said. "I still work on school-related things, but I do it without some of the deadlines and pressures of the school year."

"Yes," Jessica agreed. "This year I am taking a class, but it will last only one week. That week will be hectic, but the rest of the time will go easier. I plan to do a lot of reading -- some school-related and some for fun!"

"Sounds like a great idea to me. I think I'll suggest that to my students, too!"

Questions

1. How many more days will pass until school is over?

- A. five
- B. two
- C. three
- D. seven

2. What does "stir crazy" mean in the story?

3. Where will Jessica be taking her vacation?

- A. mountains
- B. city
- C. beach
- D. ranch

4. In Marian's opinion, the best thing about vacation is the freedom to sleep as long as you wish.

- A. false
- B. true

5. How long will Jessica's summer class last?

Smart English Worksheet 2

ATRIP TO THE LIBRARY

Katie called her friend Allison. "What are you up to?" she asked.

"I'm going to the library," Allison said, "do you want to go with me?"

"The library," Katie said, "what are you going there for? It's so boring!"

"I love to go to the library!" Allison exclaimed. "There's so much to do there. Come with me; I'll show you."

Katie couldn't think of anything better to do right then. She told Allison she would go with her.

When they got to the library Katie said, "OK, we're here. Show me what's so exciting. It looks like a bunch of old, boring books to me. And you have to be so quiet."

"You have to be quiet so you don't bother people who are trying to work. But you can still whisper," Allison told her.

"I didn't know there were computers at the library!" Katie said eagerly. "I can look for the CD I want on the Internet."

"Or you could look up information for the report that's due next week," Allison reminded her.

"Oh, yeah. Um, let's see what else there is to do," Katie said. She didn't feel like working on her report right now.

Katie spied a rack of magazines. "Glamour, my favorite!" Katie whispered. She picked up the magazine. "I'll read this while you work," she told Allison.

"Why don't you wait?" Allison told her, "I'll show you what else is here."

They walked to the back corner. They saw people with headphones on. They were listening to music.

"Can I listen to that CD I've been saving to buy?" Katie wondered.

"I'm sure they have it. They have lots of them. If you listen to it here, you'll know if you really want to buy it," Allison told her.

"Cool," said Katie, "what else is here?"

"There are all kinds of newspapers. There are movies you can check out and watch. And, of course, there are books. Lots and lots of books!" Allison said. "You just have to remember to bring back what you check out. If you don't bring it back when it's due, you'll have to pay a fine."

Katie found the section with all the movies. "Gone With the Wind!" she exclaimed in a whisper. "I've never watched the whole thing. How do I take it out?" she asked Allison.

"Let's go to the front desk," Allison said. "We'll get you signed up to borrow materials."

"Wow!" said Katie. "Libraries aren't just a bunch of books!"

"That's why they are sometimes called media centers," Allison told her. "I told you it wouldn't be boring!"

QUESTIONS

1. Why do you have to be quiet at the library?

2. What were people doing on the computers?

- A. listening to music
- B. typing and searching the Internet

3. Why did some people have headphones on?

- A. They were listening to music.
- B. They didn't want to hear all the noise in the library.

4. What happens if you don't bring back the things you borrowed when they are due?

- A. You will never be able to borrow anything else.
- B. You will have to pay a fine.

5. What is another name for a library?
