

# Achievers

*Foundation course for your success*

**Workbook - 7**

**Class 5**

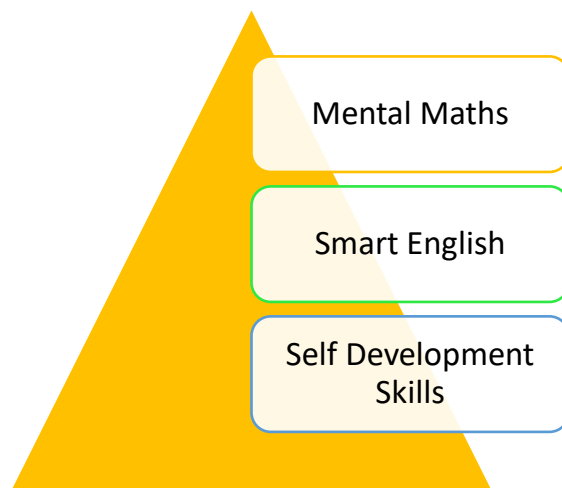

[www.mentorsbasket.com](http://www.mentorsbasket.com)

## ***Preface***

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring*." We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Enhance Self-Development Skills. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

***Strong Foundation Helps to Build Brighter Future***

## Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Self – Development** – Children who become invested in self-improvement at a young age will likely experience many advantages in life. But it can be a little tricky to figure out exactly how to go about teaching kids about self-improvement. We have developed strategies that can help children to be more confident and in becoming the best version of themselves.

### **GUIDELINES**

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

## Smart English worksheet 1

### 1. Read the passage given and answer the questions given below

#### A Donkey and a Hare

By Colleen Messina

I am a homonym that can be spelled two ways, and I have more than one meaning. Spelled one way, I can refer to a small donkey that is often used as a pack animal. One person actually called this member of the horse family "an animal all-terrain vehicle" because it can travel over rugged, mountainous terrain. In *Shrek*, a silly, slightly annoying donkey is not a practical pack animal, but that character is helpful in other ways. Spelled another way, I can refer to a hole in the ground made by a small animal such as a rabbit. As a verb, this word means to dig. See if you can fill in the blanks in the following sentences: A \_\_\_\_\_ ran down a wet street. The donkey had such muddy feet! In a \_\_\_\_\_, warm and dry, a rabbit watched him trotting by.

#### Questions

- \_\_\_\_\_ 1. Which small animal is mentioned in this paragraph?  
A. gopher  
B. kitten  
C. rabbit  
D. mole
- \_\_\_\_\_ 2. Which movie features a donkey character?  
A. *Shrek*  
B. *Superman*  
C. *Titanic*  
D. none of the above
- \_\_\_\_\_ 3. A donkey can never go over mountainous terrain.  
A. true  
B. false
- \_\_\_\_\_ 4. Which words fill in the blanks in the sentences in this paragraph?

---

---

## Smart English worksheet 2

### 1. Read the passage given and answer the questions given below

#### Todd the Arctic Fox

By Mary Lynn Bushong

Todd watched the polar bear on the slope below him. The fox knew the bear would not see him against the solid white background of snow.

The Inuit hunter hadn't seen Todd either as he had sighted down his rifle at the walrus on the ice. His kill had startled the other huge animals so they fled into the icy water.

The bloody streak in the snow was all that was left after the hunter had dragged the walrus away. The bear sniffed around it, looked out across the water, and then followed the hunter's trail.

Todd got up and stretched. He needed to hunt for himself. The thick hair on his paws acted like snow shoes. They allowed him to walk over the thin crust that formed on the snow.

From time to time he cocked his ears, listening for sounds of life beneath the snow. He stopped and listened more. Suddenly he reared up and came down on his front paws. They broke through the crust and he thrust his nose into the soft whiteness below. A quick poke, a bite, and he had his lemming--a mouse-like animal.

The lemming made a quick meal, but it would take many more than that to keep Todd in prime condition. He licked his lips and began listening for another one.

Todd didn't eat just lemmings. Like other foxes, he would not ignore arctic hares, ptarmigan, bird eggs, and leftovers from a polar bear meal. If the food was in season, and available, it became a meal for the fox.

The white fox kept alert to the sounds, sights, and smells around him. On the snow he was hard to see, but his scent carried on the wind, and animals like wolves and polar bears didn't mind eating foxes.

Winter melted into spring. Todd and his mate Vixen had a litter of kits to care for. Their large den held not only them, but also four of their daughters from the previous year.

All of them hunted to provide food for the kits. Sometimes one of the young foxes would stay behind and give her mother a chance to go out and hunt.

With the change of season came a change of coat for the fox family. They lost the dense white coat that kept them so warm through the frigid weather.

The new coat was in gray and brown colors and was shorter than the winter coat. It allowed the foxes to blend in with the snowless terrain.

It was a good year for lemmings. The little animals were everywhere. The baby foxes were well fed by their mother, and before long, their inquisitive faces were taking their first looks outside the den at the world around them.

By early summer, they were having a marvelous time rolling around in front of the den. At least one older sister or a parent was always around to watch for danger. A wolf wouldn't think twice about snatching one or more for an easy meal.

Even the snowy owl might consider taking one of the kits. It was just as well the lemmings were plentiful. They were much better prey to feed her clutch of babies.

At the end of the summer, Todd sat on a rise near the den. The Northern lights were starting to dance across the sky, and the first hint of winter's chill was in the air. Soon his coat would be as white as the snow. He couldn't complain. The kits were nearly grown, and they were all well fed. It had been a good year.

## QUESTIONS

1. What color is an arctic fox in winter?
  - A. White
  - B. Gray
  - C. Red
  - D. Black
2. Todd watched a hunter kill a walrus.
  - A. True
  - B. False
3. Todd's big feet helped him to walk on the snow.
  - A. False
  - B. True
4. Todd was hunting \_\_\_\_\_.
  - A. Lemmings
  - B. Hares
  - C. Insects
  - D. Mice
5. Todd found prey by:
  - A. Listening for it
  - B. Smelling it
  - C. Tasting the air
  - D. Looking for it
6. What animals would eat the baby foxes?
  - A. Polar bear
  - B. Wolf
  - C. Snowy owl
  - D. All of the above
7. Arctic foxes change from white to gray and brown coats in the summer.
  - A. False
  - B. True
8. Northern lights are only seen in the winter.
  - A. False
  - B. True

## Smart English Worksheet 4

Did you know that you don't always have to use the word **good** in your writing? Try to use different words for an overused word like **good**. It will make your work more fun for others to read.

Circle words to the RIGHT or DOWN. Every letter is used exactly ONCE.

```

      P   P L E A S A N T W
      R                               N O
    G O       S U P E R B O N
    L D F A B U L O U S T D
    O I                               F A E
    R G                               I B R
    I I                               N L F
    O O                               E E U
    U U B E A U T I F U L L
    S S                               N O B L E
  
```

Write the words found.

NOBLE                      WONDERFUL                      \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Now rewrite this without using the word **good**. Add one or two of your own sentences using some of the words you found in the word search.

The movie was so good that it brought in millions of dollars at the box office on its opening weekend. Everyone thought the actors were very good in it. People thought the special effects were really good, too.

## Mental Math Worksheet 2

Guess the number in your head. Keep guessing until your numbers are correct. Then write the correct number.

$$\begin{aligned} \text{☺} + \text{☺} + \text{☺} + \text{☺} &= 76 \\ \text{☺} + \text{☹} &= 32 \\ \text{☺} + \text{☹} + 1 &= 33 \\ \text{☺} - \text{☹} &= \underline{\hspace{2cm}} \end{aligned}$$

$$\text{☺} = \underline{\hspace{2cm}} \quad \text{☹} = \underline{\hspace{2cm}}$$

## Mental Math Worksheet 4

### 1. Understand the questions in each box and find the correct answer

Mr. Robinson needs 93 tortilla chips to prepare a nacho salad. A small bag has 19 chips in it. It costs \$1.23. A large bag has 110 chips in it and costs \$4.40. How much will he save if he buys the large bag?

The ugly old witch wanted a new mirror. Her old mirror was too small. After all, she thought she was so pretty. She wanted a mirror that was at least 6.4 feet long and 5 feet wide! What will the area of the new mirror be?

Adam's favorite player is number 53 - 16. "What's your favorite player?" Adam asks Jason. "My favorite player's jersey has a number that is 9 less than your favorite player," Jason replies.

What number is on the jersey of Adam and Jason's favorite players?

The only way that Robot R knows to do something is if you tell R, like this: "Robot R. In 8 minutes it will be a quarter to 7:00 a.m. Please clean the floor at that time."

Any idea what time R will start cleaning the floor?

Sarah invited her friends over to celebrate her birthday. She has 43 boxes of strawberry sour mints to give her friends. In their goodie bags she gave them each 3 boxes of strawberry sour mints. She has 19 boxes left. How many goodie bags did she make?

### Your Score

| 5 * 5 Marks     |                |              |                         |

## Mental Math Worksheet 5

### 1. Solve the following questions in each box

How many times greater is

50 than 5? \_\_\_\_\_

108 than 9? \_\_\_\_\_

870,000 than 870? \_\_\_\_\_

96 than 8? \_\_\_\_\_

93,000 than 9,300? \_\_\_\_\_

Find the product of 6 and 2.

double 20 =

$(12 - 1) + 11$

$4 \times \underline{\quad} = \underline{\quad} = 12 \times 2$

$10 \times 4 = \underline{\quad} = 2 \times \underline{\quad}$

$5 \times \underline{\quad} = 50 = \underline{\quad} \times 25$

$4 \times \underline{\quad} = 12 = \underline{\quad} \times 6$

$6 \times 4 = \underline{\quad} = 8 \times \underline{\quad}$

Circle the six numbers  
whose sum equals 51.

10    12    8    11

8    2    12    8

5    9    11    9

Maria bought a stuffed animal at the school store. She paid with a \$20 bill. She was given back 5 dimes and 3 quarters for change. How much was the stuffed animal?

### My Journal - My Friendship Skills

|                                                                                      | This is really hard for me | Sometimes I am good at this but sometimes I am not | I'm really good at this |
|--------------------------------------------------------------------------------------|----------------------------|----------------------------------------------------|-------------------------|
| I am a good listener. I don't interrupt many times my friend when he/she is speaking |                            |                                                    |                         |
| I can cheer up my friend when they are sad                                           |                            |                                                    |                         |
| I can ask my friend to play with me during recess or free time                       |                            |                                                    |                         |
| I include everyone who wants to play                                                 |                            |                                                    |                         |
| I ask my friends about their interest even if they are different from mine           |                            |                                                    |                         |
| I can give compliments to make people smile                                          |                            |                                                    |                         |
| I say 'I am sorry' if I hurt my friend's feelings                                    |                            |                                                    |                         |
