

Achievers

Foundation course for your success

Workbook - 8

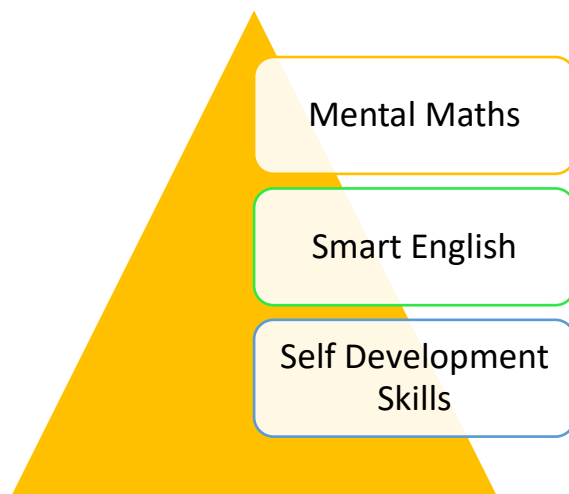

Class 5

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Enhance Self-Development Skills. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Self – Development** – Children who become invested in self-improvement at a young age will likely experience many advantages in life. But it can be a little tricky to figure out exactly how to go about teaching kids about self-improvement. We have developed strategies that can help children to be more confident and in becoming the best version of themselves.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Read the following passage and answer the questions

A Honey of a Bee!

Do you like to eat honey? Do you like to eat apples? How about watermelon? If you do, you should thank honeybees. Honeybees make honey. Honey is sweet. Many people like to eat honey on bread. Bees also help plants and trees. Bees help new plants to grow. Bees help plants make fruit.

A bee lands on a flower. It wants pollen from the flower. It wants nectar, too. Bees make honey as food for themselves and for baby bees. Nectar is a sweet liquid made by flowers. Bees use the nectar to make honey.

Young bees quickly learn which flowers have nectar. The pollen gets on the bee's body. It flies to another flower. It leaves some pollen from the last flower on the new one. This helps plants make fruit and seeds. A bee might visit about two hundred flowers in one day. Now the flower can make fruit. It makes seeds to grow more plants.

Farmers need honeybees. Apples, watermelons, and many other fruits need honeybees. Almonds, sunflowers, and other nuts and seeds need honeybees, too. In fact, about one-third of the foods from plants that we eat depend on honeybees. We need honeybees. Honeybees are very important!

A Honey of a Bee!

Questions

1. How do honeybees help people?
 - A. They make honey.
 - B. They help plants grow fruit.
 - C. Honeybees help plants make seeds.
 - D. all of the above
2. Why do bees make honey?
 - A. They make it so they can eat nectar.
 - B. They make it for their own food.
 - C. They like to help people.
3. Bees like flowers because _____.
 - A. Flowers have nectar, and bees need the nectar to make honey
 - B. Flowers are pretty
 - C. Flowers smell good

4. Which of these crops does NOT need honeybees?

- A. apples
- B. watermelon
- C. almonds
- D. tomatoes

5. A bee might visit _____ flowers in one day.

- A. two hundred
- B. fifty
- C. one hundred
- D. five hundred

6. The story says that _____ of the foods from plants that we eat depend on honeybees.

Smart English Worksheet 2

1. Read the following passage and answer the questions

A Mistake That Worked

Richard James was an engineer in the Navy in the early 1940s. He was working in his home lab. He was trying to create a new spring for a ship. The spring would keep special instruments safe while at sea. A spring fell to the floor. Richard James watched as it went end over end. That was the beginning of the Slinky.

Richard James shared his discovery with his wife. Her name was Betty James. They worked together to fine-tune the toy. Betty searched the dictionary until she found the perfect name for the toy. Slinky means sleek and graceful. She thought it was the perfect name.

At first, Betty was not sure the toy would be a success. They showed it to children in their neighborhood. The children were interested in it. Richard and Betty got a loan. They formed James Industries. Four hundred Slinky toys were made. Each toy was wrapped in yellow paper. Each was to be sold for one dollar. The couple tried to sell their toy to toy companies. Not many were interested. In 1945, they decided to show the toy to the public. The Jameses set up a demonstration in a popular department store in Philadelphia, Pennsylvania. They set up an inclined plane in the toy section. The toy was a hit. All of the toys were sold in ninety minutes.

Richard James developed a machine to make the toys quickly. The toy was put in red boxes. It was advertised all over the country. Many were sold. The simple toy that began as a mistake was a hit.

Years later, Betty took over the company. She moved it to Hollidaysburg, Pennsylvania. The company was a success. In 1998, she sold the company to Poof Products. In 2001, Betty became a part of the Toy Industry Hall of Fame. Today, Richard and Betty are not alive. The Slinky is still being made. The simple toy is still sold for a low price.

A Mistake That Worked

Questions

1. What mistake did Richard James make that worked out well for him in the end?

2. Who was Richard James's partner?

- A. his best friend
- B. his father
- C. his wife
- D. his son

3. Why did Betty choose Slinky as the name for their new toy?

4. How did the public learn about the Slinky?

5. Who was in charge of James Industries before it was sold in 1998?

- A. Jimmy James
- B. Jane James
- C. Jesse James
- D. Betty James

6. Betty James became a part of the Toy Industry Hall of Fame in 2001.

- A. true
- B. false

1. Let us understand new words. Look and learn How many words can you use instead of 'Sad'

Sad. Sad. Sad. Sad. Sad is making me dizzy. Can we use a different word?

disconsolate • languishing • somber • wistful • mournful • despondent
inconsolable • bereaved • crestfallen • melancholy • brokenhearted
morose

"Don't be **sad**. It's just a movie," Cassidy said.

"But it was a **sad** movie," Tyler cried.

"The movie wasn't real, silly. How can you be **sad** about something that is fake?"

"I'm **sad** you brought me to see a **sad** movie about a fake lost dog. And we didn't even get popcorn! I'm **sad** about fake things and real things!" Tyler replied.

What words do you think could best replace sad in the above text? Write your best choices:

1. _____ 2. _____ 3. _____
4. _____ 5. _____ 6. _____

Now rewrite the text without using the word sad. Think you can?
