

Achievers

Foundation course for your success

Workbook - 10

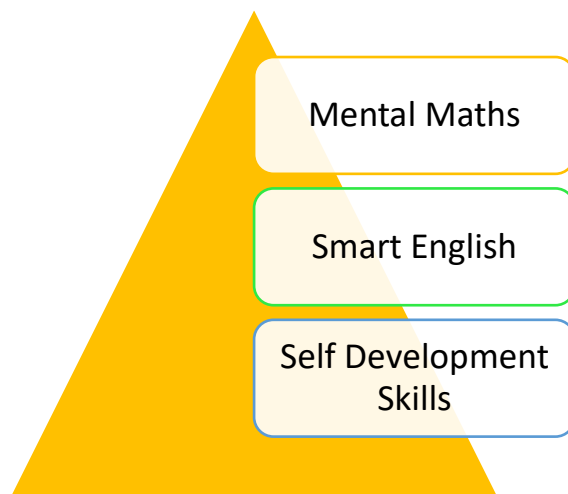

Class 5

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Enhance Self-Development Skills. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Self – Development** – Children who become invested in self-improvement at a young age will likely experience many advantages in life. But it can be a little tricky to figure out exactly how to go about teaching kids about self-improvement. We have developed strategies that can help children to be more confident and in becoming the best version of themselves.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Read the following passage and answer the questions below

A Natural Decoration

Cindy always loved putting up decorations during the holidays. She really liked the sparkly ones. She loved the shiny, jewel-colored balls on their Christmas tree. She liked draping gold tinsel on the tree's prickly branches. Since she loved sparkly objects so much, Cindy soon saw a shining natural decoration. It was outside. It was long and clear. It hung off the roof of the house. It had a point on the end. It sparkled in the sun. Sometimes, it dropped to the ground and broke. The pieces looked like glass in the cold snow. After Christmas, Cindy's family took the shiny balls off the tree. They took the tinsel down. These decorations were packed away. But the natural decoration stayed on the house. But on one spring day, the weather got warmer. Drip, drip, drip! The natural decoration went away. Cindy did not mind. It would be back again next winter!

Questions

- Where was the natural decoration?
 - outside
 - in the living room
 - in the kitchen
 - none of the above
- What happened to the family's holiday decorations after Christmas?
 - They were packed away.
 - The family ate them.
 - The dog ate them.
 - They stayed up.
- The natural decoration went away in the spring.
 - false
 - true

Smart English Worksheet 2

1. Read the following passage and answer the questions below.

Air Pollution

Air pollution affects the air we breathe. It is made up of harmful gases, droplets, and particles. These make the air quality poor. Air pollution can make it hard for some people to breathe. People with heart or lung diseases can have trouble breathing when there is a lot of pollution. Many things can cause air pollution. Some air pollution is caused by burning fossil fuels. Oil is used to make gasoline for cars. Cars and trucks produce a lot of air pollution. Coal can give off harmful gases when it's burned. Coal is burned to make electricity. Renewable resources are not as harmful to the air. Biomass fuels, such as wood, can cause a little air pollution. It does not produce as much as fossil fuels. Some renewable resources do not produce any air pollution. Solar energy, wind energy, and hydropower do not harm the air. Scientists continue to look for cleaner fuels. They hope to lower the amount of pollution in the air.

Questions

- Which of the following does NOT make up air pollution?
 - harmful droplets
 - harmful particles
 - rain
 - harmful gases
- According to the article, what are some causes of air pollution?
 - dirty water
 - garbage
 - burning coal and oil
 - dead animals
- Which of the following renewable resources can produce some air pollution?
 - solar energy
 - biomass fuels
 - hydropower
 - wind energy
- How are scientists trying to fix the problem of air pollution?
 - They are looking for ways to clean the air.
 - They are looking for cleaner fuels.
 - They are looking for ways to get rid of all fossil fuels.
 - They are looking for ways to get rid of energy.
- What are some problems caused by air pollution?

1. Solve the following

Is 3388 closer to 2660 or 3660?

$$\begin{array}{r} 3388 \\ - 2660 \\ \hline \end{array}$$

3388 is _____ away from 2660.

3388 is _____ away from 3660.

3388 is closest to _____.

Is 325 closer to 300 or 400?

$$\begin{array}{r} 325 \\ - 300 \\ \hline \end{array}$$

325 is _____ away from 300.

325 is _____ away from 400.

325 is closest to _____.

Round to the nearest ten.
40 to 44 rounds down to 40.

45 to 50 rounds up to 50.

50 → _____ 50

46 → _____

44 → _____

42 → _____

47 → _____

49 → _____

2. Solve the following

How much greater is 185 than 47?

$$696 + 8 =$$

$$\text{double } 13 =$$

Write the least possible 5-digit number using only 2 different numbers.

Name the shape with five sides and five angles.

$$___ \div 12 = 12$$

Is 15 a composite or a prime number?

Write the number that is one hundred more than 6,142.

In the parking lot there are 12 vehicles. There are 2 SUVs. What fraction of the vehicles are not SUVs?
