

Achievers

Foundation course for your success

Workbook - 1

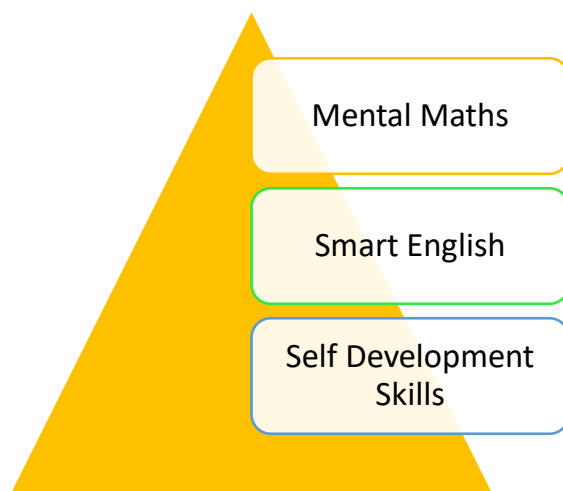

Class 7

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Enhance Self-Development Skills. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Self – Development** – Children who become invested in self-improvement at a young age will likely experience many advantages in life. But it can be a little tricky to figure out exactly how to go about teaching kids about self-improvement. We have developed strategies that can help children to be more confident and in becoming the best version of themselves.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Read the Passage and answer the questions.

What is a Prosthesis?

By Colleen Messina

The fictional character Captain Hook had a shiny hook in place of one hand. Artificial limbs today are better than that. An artificial hand is called a prosthesis. One definition of prosthesis is "an artificial device used to replace a missing body part." Many people think of artificial limbs when they hear this term. However, a prosthesis may replace many body parts - for instance, there are artificial valves for the heart. Some people may have prosthetic eyes. And there are many more kinds of devices available to replace a missing or ineffective body part. Biomedical engineers develop these devices. These scientists understand anatomy and know about medicine. They also know about engineering. If Captain Hook needed to replace his hand today, he might be thrilled. He could select a hand with working joints. His hand could look almost lifelike. It could have fingerprints! Captain Hook might have liked plucking gold coins out of a treasure chest with a hand like that!

- Which branch of science would be least likely to help a biomedical engineer create a prosthesis?
 - anatomy
 - medicine
 - engineering
 - geology
- Which fictional character has a prosthesis?
 - Captain Hook
 - Cinderella
 - the seven dwarfs
 - none of the above
- A biomedical engineer can design an artificial limb.
 - false
 - true
- Name one other prosthetic device that was mentioned in the paragraph.

Smart English Worksheet 2

1. Read the comprehension carefully and answer the questions.

William Lloyd Garrison

By Jane Runyon

William Lloyd Garrison lived his adult life speaking out against injustice. He vowed that nothing would keep him from speaking his mind. He was not an easy man to argue with. He made up his mind about what was right. He let no person sway him from his beliefs.

William Lloyd Garrison had a very humble beginning. He was the son of a sailor. He was born in 1805. He called Newburyport, Massachusetts, home. Garrison's father deserted his family when William was only three years old. He and his mother had to find food wherever they could. They went through the trash of rich people. He sold firewood and homemade candy door to door.

Garrison became an apprentice at age thirteen to help the family. He worked for a newspaper in his hometown. It was here that Garrison learned the skills he would need as an adult.

In his early twenties, Garrison had seen enough slavery to know he didn't like the idea. He took a job on an anti-slavery newspaper. The newspaper was owned by a Quaker. Quakers did not believe in fighting or slavery. Garrison used his writing skills to attack slave owners in the area.

One such article landed him in jail. The merchant he had written about took him to court. The merchant charged Garrison with libel. He felt that Garrison had made untrue statements about him that ruined the merchant's reputation. The court agreed.

Jail time did not silence Garrison. When he was released in 1830, he joined groups that wanted to abolish, or do away with, slavery. He started his own newspaper. He called his paper the *Liberator*. Only 400 people subscribed to the *Liberator* by its second year. But Garrison's words spread.

Garrison believed that slaves should be immediately and completely freed from their masters. It was his belief that all people, black or white, were the citizens of this country. As citizens, each person should have the right to life and liberty. Slave owners in both the north and south disagreed with him.

Garrison wanted to be heard. He used his newspaper as his voice. He didn't feel that the Constitution was being followed. He tried to prove his point by burning a copy of the Constitution in 1854. He did not, however, believe that the use of violence would change what was wrong. He proposed that changes be made in a peaceful manner.

Garrison put his support behind President Abraham Lincoln. He knew that war was inevitable. He realized that peaceful tactics would not change the life of slaves.

In 1865, after the Civil War was over, Garrison shut down his *Liberator*. That does not mean that Garrison kept quiet. He picked up other causes he wanted to support. In his last years, he made stands for women's rights, a ban against alcohol, and peaceful means of settling disagreements. The only thing that stilled his voice was his death on May 24, 1879.

1. William Lloyd Garrison was the son of wealthy parents.
 - A. True
 - B. False
2. How did William Lloyd Garrison get his message to the people?
 - A. Singing songs
 - B. Appearing on a television talk show
 - C. Giving speeches
 - D. Writing newspaper stories
3. What kind of groups did Garrison join?
 - A. Anti-slavery
 - B. Religious
 - C. Lobbyists
 - D. Collectors
4. Why do you think Garrison burned a copy of the Constitution?

5. How did Garrison believe freedom for slaves should be achieved?

6. In whose rights was Garrison also interested?
 - A. Native Americans
 - B. Children
 - C. Women
 - D. Gun owners
7. What was the name of Garrison's newspaper?
 - A. Liberator
 - B. The Constitution
 - C. Freedom Fighter
 - D. Libertarian
8. Which president changed Garrison's mind about war?
 - A. George Bush
 - B. John F. Kennedy
 - C. George Washington
 - D. Abraham Lincoln
