

Achievers

Foundation course for your success

Workbook - 7

Class 3

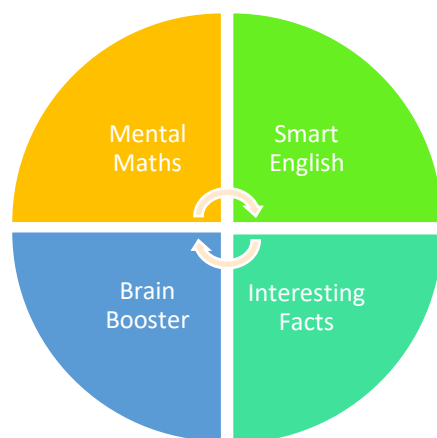

www.mentorsbasket.com

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Interesting Facts and Brain Boosters. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Brain Boosters** – The students need to be aware of what is happening Locally, Nationwide as well as Globally and what can be more challenging to the brains then answering some General Knowledge. We have designed worksheets that will give them an edge in competitive exams as they are more aware of the information.
- **Interesting Facts** - Academically we tend to focus more on the book knowledge, so now we want the child to be introduced to some interesting facts that can help them lead a discussion or lead in debates , competition and be a PRO kid. These interesting facts will increase their limited area of knowledge and make them more competitive and smarter.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Identifying verbs

Circle the verbs in the sentences.

1. The man was late; his wife waited for him by the door.

*Verbs are doing words.
A verb can express
a physical action (e.g. to climb),
a mental action (e.g. to remember)
or a state of being (e.g. to be).*

2. James remembered to make his bed this morning.
3. Last night, mom baked a cake and a dozen cookies.
4. Jenna picked up the ball and threw it to Sophia.
5. The students ran outside when the bell rang.
6. After recess, everyone returned to class.
7. Melissa and her brother played at the park until supper.
8. First you measure the flour, then you pour it in a bowl.
9. Saturday, we vacuumed the living room and washed the kitchen floor.
10. Matthew folded his sweater and put it in his closet.
11. The grandmother rocked the baby until she fell asleep.
12. When I am sad, I sing a happy song.

Smart English Worksheet 3

1. Read the Short comprehension and answer the question asked. Re-read for clarity.

On the Map: Five Things That All Maps Have in Common

By Brandi Waters

Maps are important tools. They can help us learn about a place. They can help us get from one place to another. They can also be used to find the distance between two places. There are many things that a map can tell you, but there are only five things that all maps have in common. All maps have a title. The title helps you to know what you can learn from the map. A map must always show its orientation. This means that it must always show which way is north. This helps the reader understand how to relate the map to his or her surroundings. The third thing that all maps have in common is a scale. A scale is useful for understanding real-life distances. For example, one inch on a map might represent ten miles in the real world. A map also must have a legend. A legend explains all of the symbols, lines, and colors used on the map. Finally, all maps use a grid. A grid is helpful for finding specific points on a map. A grid can help you find the Jefferson Memorial on a map of Washington, D.C. It can also help you find the city of Hope on a map of Arkansas.

On the Map: Five Things That All Maps Have in Common

Questions

- _____ 1. A map is a _____.
A. title
B. scale
C. tool
D. distance
- _____ 2. All maps have _____ things in common.
A. five
B. three
C. four
D. six
3. A map must show its _____, an indication of which way is north.

- _____ 4. The _____ on a map helps you determine true distances.
A. legend
B. scale
C. title
D. grid
5. Why is it important for a map to have a title?

Mental Maths Worksheet 3

1. Solve the following flash card and quiz your brains.

Billy was having the coolest birthday party. "Thanks for inviting me," said Jen to Billy. "Wait, wait!" yelled Billy to Jen who was leaving. "Before you leave, you have to play the crane game for your goodie bag."

Jen loved the crane. Before she knew it, Jason and Rachel were behind her waiting to play.

"I won! I won!" said Jen as she went to count her candy. She won 9 pieces of candy.

"I won! I won!" said Jason. He won 5 pieces.

"I won! I won!" said Rachel. She only won 4 pieces of candy.

Jen could see a tear almost start to come out of Rachel's eyes. Before even thinking, she said, "Hey Rachel and Jason, want to share our candy evenly?"

Everyone agreed! Rachel was so happy. How many pieces of candy did Rachel end up with?
