

Achievers

Foundation course for your success

Workbook - 9

Class 3

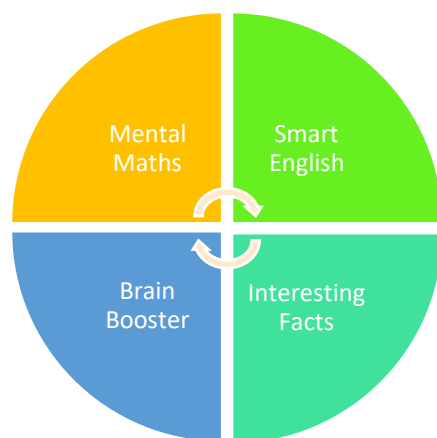

www.mentorsbasket.com

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Interesting Facts and Brain Boosters. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Brain Boosters** – The students need to be aware of what is happening Locally, Nationwide as well as Globally and what can be more challenging to the brains then answering some General Knowledge. We have designed worksheets that will give them an edge in competitive exams as they are more aware of the information.
- **Interesting Facts** - Academically we tend to focus more on the book knowledge, so now we want the child to be introduced to some interesting facts that can help them lead a discussion or lead in debates , competition and be a PRO kid. These interesting facts will increase their limited area of knowledge and make them more competitive and smarter.

Smart English Worksheet 3

1. Read the Short comprehension and answer the question asked. Re-read for clarity.

Finding Our Way

By Beth Beutler

"This map is hard to read," Carol said as she walked along a busy sidewalk with Patrick. "There are so many streets in this city!"

"Here, let me take a look at it," Patrick said.

Carol handed him the map of all the attractions in San Francisco. They had decided to take a self-guided walking tour of the city and had picked up this map in the visitor center.

Patrick also took Carol's hand and led her to a nearby bench. "Let's sit down and figure this out," he said.

They took a few moments to review the map. First, they figured out where they actually were. Patrick pointed to a red star on the map.

"That red star represents the art museum...didn't we just pass that?"

"Yes," Carol answered. "It's about a block down the street."

"Good. Let's go back there, and we can follow the map from there."

Carol agreed. "I guess it is easier to find your way when you know where you are starting from!"

Finding Our Way

Questions

- _____ 1. What city were Carol and Patrick in?
 - A. New York
 - B. San Francisco
 - C. Minneapolis
 - D. Los Angeles
- _____ 2. What landmark were they near?
 - A. art museum
 - B. aquarium
 - C. capitol
 - D. library
- _____ 3. About how far were Carol and Patrick from the art museum?
 - A. One mile
 - B. One block
 - C. One foot
 - D. None of the above
- _____ 4. What were Carol and Patrick doing?
 - A. taking a bus tour
 - B. taking a self-guided tour
 - C. showing friends around
 - D. going to a business meeting

Mental Maths Worksheet 2

1. Let's try something different than the routine sums. Solve the following flash card and quiz your brains.

Sara was with her mom in the parking lot at the mall. Guess what? They couldn't find their car!

"Hmm," Sara texted her friend. "The parking lot is full. There are 3 rows of cars and each row has 5 cars."

"How can you NOT find your car? That's not many cars," replied Jen.

"Yeah, but they are all the same type of car. AND they are all blue. Weird. This is like a bad dream," replied Sara.

"That's not possible," replied Jen. "I bet they all have four tires."

Jen was correct. All the cars had four tires. How many tires were in the parking lot? Bet you can't figure THAT out! Good luck!

Show your work.

Did you know these Interesting Facts! – **FOOD FACT**

- Junk food does not provide the required nutrients.
- Junk foods, fried foods contain only calories (carbohydrates) rather salt and oil they cause harm to our body.
- It is better to avoid them, than become fat by eating such foods.
- This problem is faced by people all over the world.

JUNK FOOD

PRESERVEED FOOD

There are measures that can be taken to prevent the growth of fungi and bacteria which cause the food to spoil. We generally see during different weather specially in monsoon the food gets spoiled easily.

Traditionally food was either preserved by natural method or by reheating the food. But today we have access to modern methods.

By refrigerating food -At low temperature bacteria and fungi do not grow. Today every household does have refrigerator to store food as well as other perishable items like vegetable, fruits, meat, and fish.

By preserving - Using of various preservation techniques prevent the growth of bacteria. Traditionally this method was used to store food, even today you see pickles, jam, juices preserved by our grandparents in this manner.

All fruits and vegetables are not available during all seasons.

- Fruits and vegetables will remain fresh for a longer period if preserved.
- Preserved food can be transported to distant places without spoilage.

Eating Preserved Food -Side effects

- Eating preserved food on a long term can be bad for health since the nutrient value of the same will be less as compared to fresh vegetables and fruits.
- Preserved food will be tasty but not healthy.

My Journal – Can you feel it – Think- feel-act

Something has happened

I need to...

STOP

then...

Name the feeling

And think...

What should I do?

then...

Choose the best thing to do
