

Achievers

Foundation course for your success

Workbook - 1

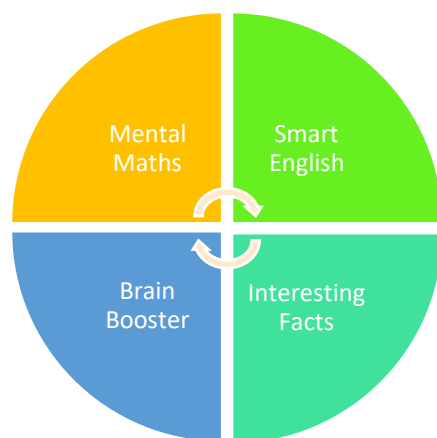

Class 4

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Interesting Facts and Brain Boosters. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Brain Boosters** – The students need to be aware of what is happening Locally, Nationwide as well as Globally and what can be more challenging to the brains then answering some General Knowledge. We have designed worksheets that will give them an edge in competitive exams as they are more aware of the information.
- **Interesting Facts** - Academically we tend to focus more on the book knowledge, so now we want the child to be introduced to some interesting facts that can help them lead a discussion or lead in debates , competition and be a PRO kid. These interesting facts will increase their limited area of knowledge and make them more competitive and smarter.

GUIDELINES

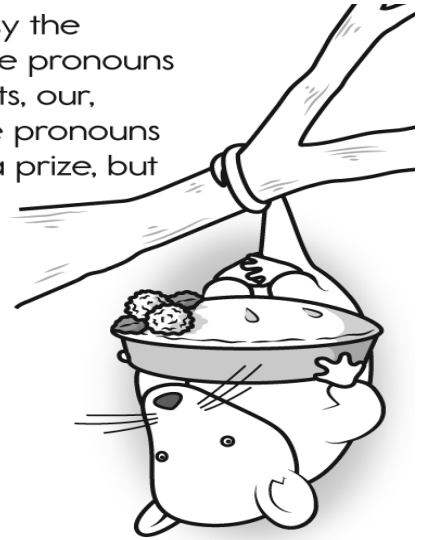

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Learn about possessive nouns and solve the given exercises.

It's that time again for animal games. It's time for Patsy the opossum to play possessive pronouns bingo! Possessive pronouns are words that show ownership, like my, your, his, her, its, our, your, and their. Draw a line connecting the possessive pronouns in the block, and win the prize! (Well, there isn't really a prize, but you are very smart if you get them all right!)

CAKE	YOUR	TRUCK	PIZZA
CUP	MY	YUMMY	DRY
DOG	HIS	RED	FISH
CAT	ITS	HORSE	FLUFFY
GREEN	OUR	STICKY	HOUSE

Circle the possessive pronoun in each sentence:

Patsy the opossum made her famous dandelion pie for the party.

All the animals that tried it were surprised at its zesty flavor.

Sam the skunk also brought his famous stink mud cupcakes to the party.

The animals held their noses and ate the cupcakes.

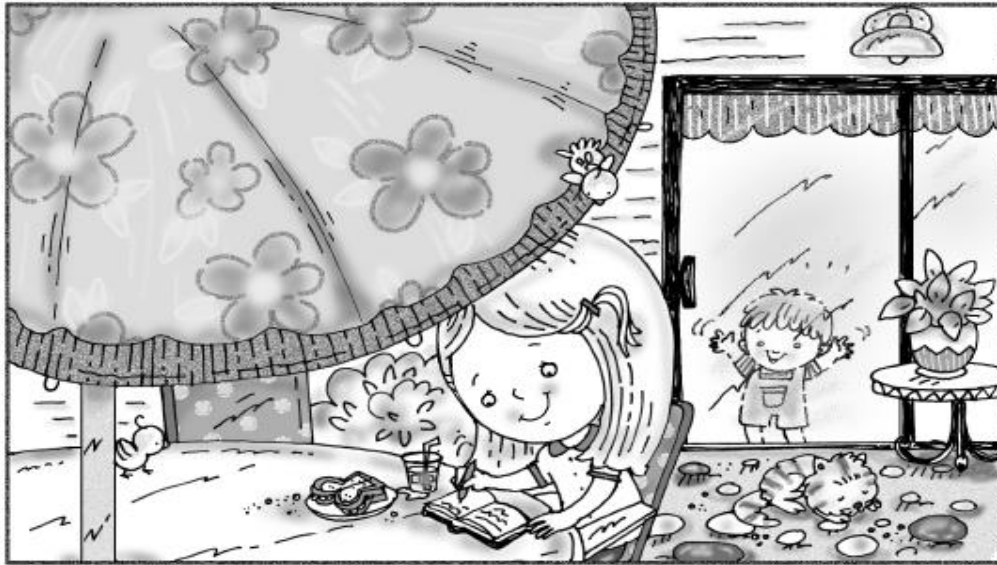

Draw a picture of a mud cupcake if you like:

1. Oops! This story contains many errors. Find them and fix the errors in the story before answering the questions.

These Old Planets

Sing to the tune of "This Old Man".

Our planets
eight
Now are ate.

Name them in order and you'll be great!

With a knick-knack, paddy-whack,

Floating in space,

Around the sun the planet race.

Mercury

Is number one,

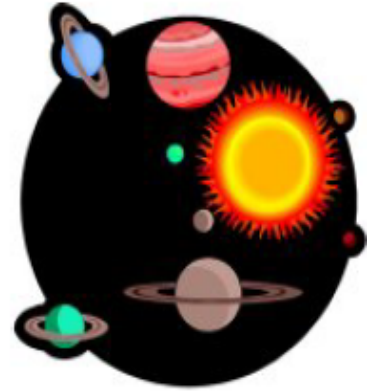

It's small and fast and closely to the sun.

With a knick-knack, paddy-whack,

Floating in space,

Mercury is in first place.

Venus

Is number two.

It's about as big as Earth but has no moon.

With a knick-knack, paddy-whack,

Floating in space,

Venus is in second place.

Planet Earth

Is number three.

It has air that we may breathe.

With a knick-knack, paddy-whack,

The only living things in space,

Planet Earth is in third place.

Planet Mars

Is red and dry.

Someday we might live there if we try.

With a knick-knack, paddy-whack,

Floating in space,

Planet Mars is in forth place.

Jupiter

Is number five,

Its the more big; tha'ts no jive.

With a knick-knack, paddy-whack,

Floating in spaci,

Jupiter is in fifth place.

Number six,

Saturn look nice

With its bright Rings made of ice.

With a knick-knack, paddy-whack,

Floating in space,

Planet Saturns' in sixth place.

Uranus is

Seventh in line.

Its cold and dark and spin on it side.

With a knick-knack, Paddy-whack,

Floating in space,

Uranus are in seventh places.

Now number eight

Is Neptune.

It hus a Grate Dark Spot and fourteen moons.

With a knick-knack paddy-whack

Floating in space

Neptune now is in eighth place.

Mercury, Venus,

Earth, and Mars,

Jupiter, saturn, uranus, and Neptune.

With a knick-knack, paddy-whack,

Floating in space,

Our eight planets win thi race!

Did you make at least 21 corrections? If not, take another look.

I was able to make _____ corrections.

2. Now that you have read the information on planets, read the question below carefully and write the correct letter.

- | | |
|---|--|
| <p>_____ 1. How many planets do we have?</p> <p style="margin-left: 40px;">A. nine
B. five
C. eight
D. seven</p> <p>_____ 2. What do the planets "race" around?</p> <p style="margin-left: 40px;">A. the sun
B. the Earth
C. other planets</p> <p>_____ 3. Which planet is closest to the sun?</p> <p style="margin-left: 40px;">A. Venus
B. Mercury
C. Mars
D. Earth</p> <p>_____ 4. Which planet is about as big as Earth?</p> <p style="margin-left: 40px;">A. Mercury
B. Earth
C. Venus
D. Mars</p> | <p>_____ 5. What two things are special about Earth?</p> <p style="margin-left: 40px;">A. mountains and volcanoes
B. air we can breathe; has living things
C. a "Great Dark Spot" and a gas surface</p> <p>_____ 6. Which planet is the biggest?</p> <p style="margin-left: 40px;">A. Jupiter
B. Earth
C. Saturn
D. Uranus</p> <p>_____ 7. What is the last planet called?</p> <p style="margin-left: 40px;">A. Pluto
B. Neptune
C. Uranus
D. Earth</p> <p>_____ 8. All the planets have only one moon.</p> <p style="margin-left: 40px;">A. false

Mental Maths Worksheet 1

1. What relation do the following set of numbers share? Observe, understand, and answer.

Find the missing numbers. These both have the same rule. What is the rule?

If

$$1, 7 = 8$$

$$2, 12 = 14$$

$$3, 16 = 19$$

$$4, 20 = 24$$

Then

$$5, 23 = ?$$

If

$$8, 12 = 20$$

$$9, 14 = 23$$

$$10, 19 = 29$$

$$11, 22 = 33$$

Then

$$12, 24 = ?$$

Find the missing numbers. These both have the same rule. What is the rule?

If

$$1, 8 = 9$$

$$2, 10 = 12$$

$$3, 12 = 15$$

$$4, 17 = 21$$

Then

$$5, 20 = ?$$

If

$$3, 12 = 15$$

$$4, 16 = 20$$

$$5, 20 = 25$$

$$6, 22 = 28$$

Then

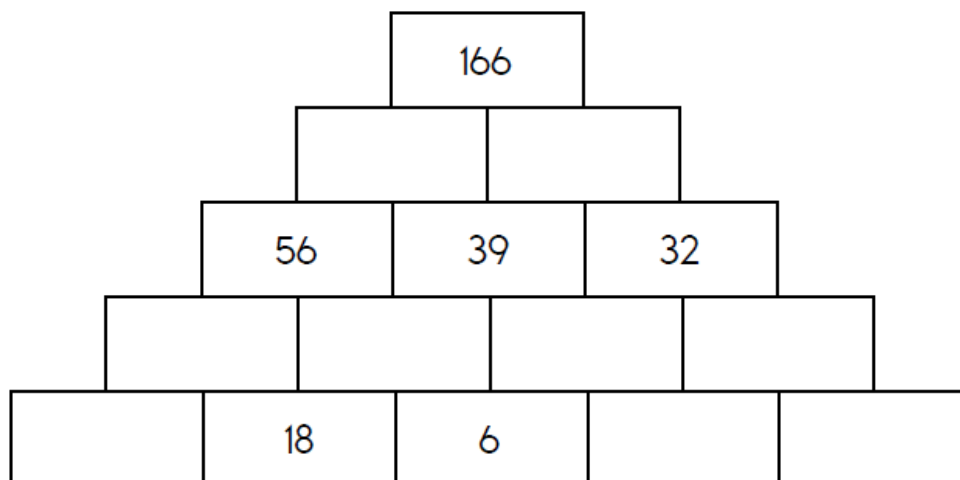

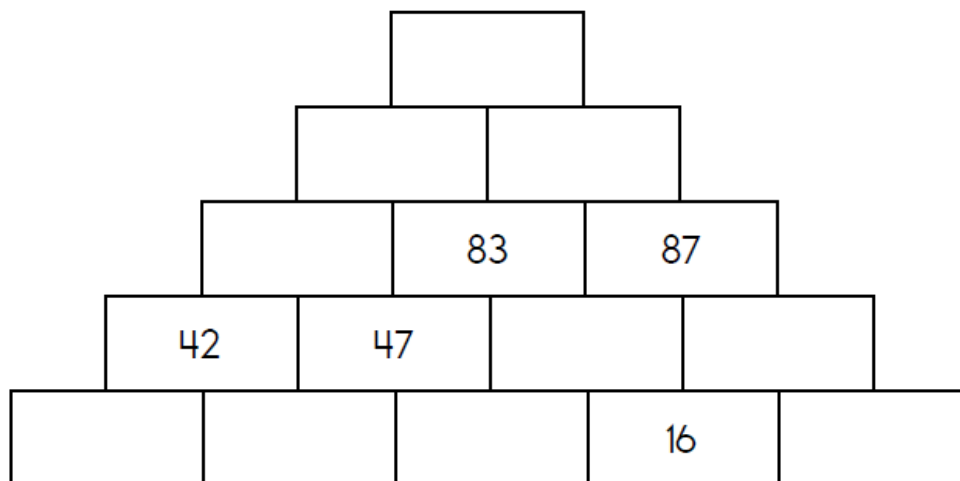

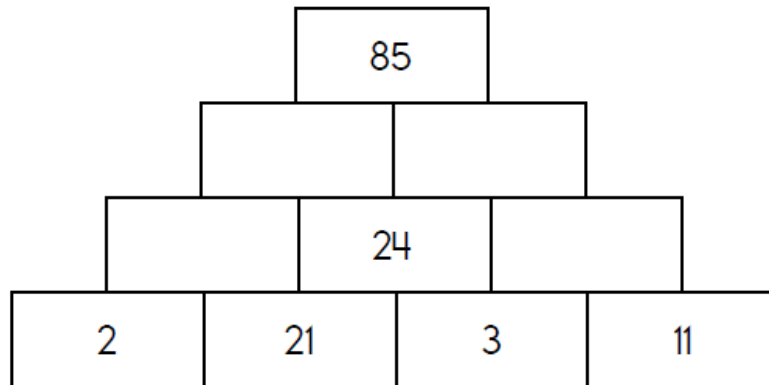

$$7, 26 = ?$$
