

# Achievers

*Foundation course for your success*

## Workbook - 2

### Class 4

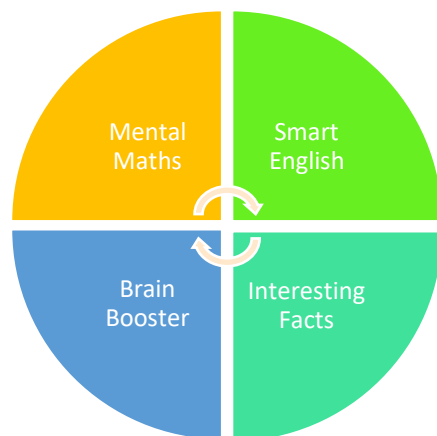

[www.mentorsbasket.com](http://www.mentorsbasket.com)

## ***Preface***

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Interesting Facts and Brain Boosters. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

***Strong Foundation Helps to Build Brighter Future***

## Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Brain Boosters** – The students need to be aware of what is happening Locally, Nationwide as well as Globally and what can be more challenging to the brains then answering some General Knowledge. We have designed worksheets that will give them an edge in competitive exams as they are more aware of the information.
- **Interesting Facts** - Academically we tend to focus more on the book knowledge, so now we want the child to be introduced to some interesting facts that can help them lead a discussion or lead in debates , competition and be a PRO kid. These interesting facts will increase their limited area of knowledge and make them more competitive and smarter.

### **GUIDELINES**

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

## Smart English Worksheet 1

### 1. Let's learn about compound and complex sentences and frame some sentences.

Roberta Robot has been having some static with her antenna, and it is interfering with her ability to figure out simple and compound sentences. Simple sentences contain one complete thought. Compound sentences have the words "and," "or," or "but" in them. Write S for simple or C for compound on the blank to indicate what kinds of sentences these are.

- \_\_\_\_\_ Roberta keeps her antenna tuned, but sometimes she still has static.
- \_\_\_\_\_ Roberta Robot has only one antenna.
- \_\_\_\_\_ Roberta is made out of metal.
- \_\_\_\_\_ Roberta is made out of steel, but her antenna is made out of aluminum.
- \_\_\_\_\_ Andrew, Roberta's robot friend, is made out of copper.
- \_\_\_\_\_ Many robots have blue electronic eyes, and some of them even have purple electronic eyes.
- \_\_\_\_\_ Andrew has blue electronic eyes, and Roberta has purple electronic eyes.

Write your own simple sentence about robots here:

Draw a picture of a robot at a buffet. Remember robots might eat strange metal things!

|-----------------|----------------|--------------|-------------------------|
| 10              |                |              |                         |

## Smart English Worksheet 2

- Did you know that you don't have to always use the word **happy** in your writing? Try to use different words for an overused word like **happy**. It will make your work more fun for other to read.

Circle words to the RIGHT or DOWN. Every letter is used exactly ONCE.

```

L I G H T H E A R T E D C B
  G                               M O L
    R C                           E N I J
B A H       J O Y F U L R T S O
L T E       E L A T E D R E S Y
E I E J U B I L A N T Y N F O
S F R O V E R J O Y E D T U U
S I F       E C S T A T I C L S
E E U       D E L I G H T E D
D D L       C O N T E N T E D
  
```

Write the words found.

|                  |                  |  |
|------------------|------------------|--|
| <u>CONTENTED</u> | <u>DELIGHTED</u> |  |
|                  |                  |  |
|                  |                  |  |
|                  |                  |  |
|                  |                  |  |

Now rewrite this without using the word **happy**. Add one or two of your own sentences using some of the words you found in the word search.

Dan was happy today. He was happy about going to school. He was happy about picking pumpkins. He was even happy about taking a nap. Then he could stay up late for the Halloween party, and that made him really happy!

---

---

My favorite two words to use instead of **happy** are:

\_\_\_\_\_ and \_\_\_\_\_

## Smart English Worksheet 4

1. How fast can you **read some piece of information** and **answer questions related** to it.  
Try it with the given comprehension and solve the questions.

### Puppets of Oz

By Jody Williams

Why do people like puppets? Some people like the way they look. Other people like the voices that they are given. There are puppet shows. Puppets are on TV. Puppets are in movies. Puppets are brought to life by people. A puppeteer is a person who makes puppets perform for others.

There are many famous puppeteers. One is Frank Oz. Frank Oz was born on May 25, 1944. He was born in England. England is a country in Europe. He lived with two parents. They had a hobby. They were puppeteers. Frank and his family moved to the U.S. when he was five years old.

Frank became interested in puppets at a young age. He became a puppeteer when he was 11 years old. When Frank was in high school, he went to a puppet convention. Jim Henson saw him perform. Jim Henson was a famous puppeteer. He created many *Sesame Street* characters. He created the Muppets. Frank worked for Jim during the summers. Frank finished high school. He went to college. He kept working for Jim Henson.

In 1963, Frank started working for Jim Henson full time. He began working with Muppets. A Muppet is a puppet. It is also a marionette. Frank is most famous for bringing Miss Piggy to life. Miss Piggy is a Muppet. She is a pig. She wants to be a star. She lets nothing stand in her way.

Frank also created Fozzie Bear. Fozzie is a Muppet bear. He is orange. He tells jokes. Most of the time, the jokes are not funny. He ends each joke saying, "Wocka, wocka, wocka." Fozzie is very kind. He loves his friends. Frank's first Fozzie Bear puppet is in a museum in England.

In 1969, Frank became part of *Sesame Street*. Cookie Monster was his puppet. Grover was his puppet. Bert was his puppet. Frank worked on the show for many years. He loved entertaining children.

Frank also worked in movies. *Star Wars* was a famous film. Frank created a character for the movie series. He was Yoda. Yoda was 26 inches tall. He was 900 years old. He was a Jedi master. A Jedi helped to keep peace. Yoda was the wisest Jedi. He was the most powerful. He trained other Jedi. Yoda was funny at times.

Frank was also an actor. He has directed movies. He has won four awards for his TV work. He retired from doing the Muppets in 2000.

Puppets of Oz

| 5. Which of the following disease is caused by bacteria? |            |          |                |
| a. Rabies                                                | b. Cholera | c. Mumps | d. Chicken pox |

|                                                          |            |                 |         |
|----------------------------------------------------------|------------|-----------------|---------|
| 6. The disease Pneumonia affects which part of our body? |            |                 |         |
| a. Lungs                                                 | b. Archery | c. Table Tennis | d. Judo |

|                                                          |         |              |          |
|----------------------------------------------------------|---------|--------------|----------|
| 7. The disease Arthritis affects which part of our body? |         |              |          |
| a. Eye                                                   | b. Skin | c. Intestine | d. Bones |

|                                                               |               |                   |           |
|---------------------------------------------------------------|---------------|-------------------|-----------|
| 8. Increase in sugar level in the blood causes which disease? |               |                   |           |
| a. Diabetes                                                   | b. Bronchitis | c. Conjunctivitis | d. Eczema |

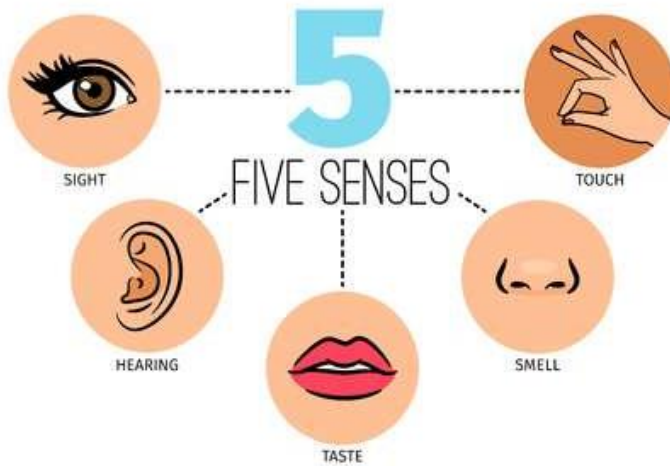

|                                                       |         |           |           |
|-------------------------------------------------------|---------|-----------|-----------|
| 9. The disease Eczema affects which part of our body? |         |           |           |
| a. Tongue                                             | b. Skin | c. Kidney | d. Nerves |

|                                                                          |              |              |              |
|--------------------------------------------------------------------------|--------------|--------------|--------------|
| 10. The disease Scurvy is caused due to the deficiency of which vitamin? |              |              |              |
| a. Vitamin C                                                             | b. Vitamin B | c. Vitamin A | d. Vitamin D |

## Did you know these Interesting Facts! **FOOD AND DIGESTION**

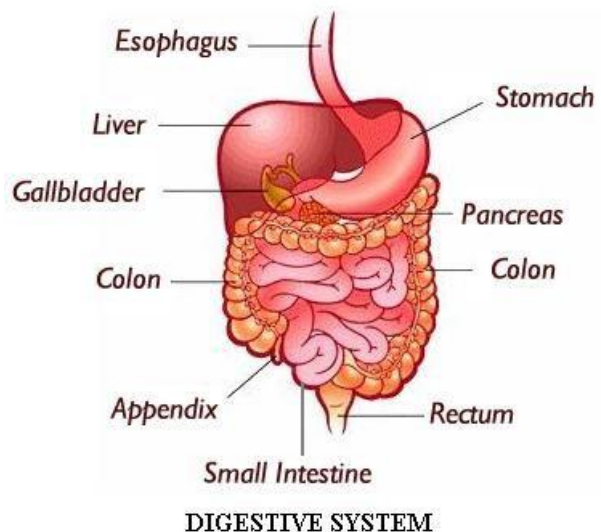

We have different sense organs of our body such as tongue, ears, nose, skin and eyes.

All these parts can be seen from outside and are known as **external organs**.

**There are several body parts which are present inside our body and cannot be seen from outside.**

- These organs are called **internal organs**.
  - Our body is a complex system.
  - It works like a machine with the help of various organs present in it, the organs from different systems.
  - One such system is the digestive system.
  - The digestive system is made up of the different organs such as mouth, food pipe, stomach and intestines.

### **DIGESTIVE SYSTEM**

- The food that we eat contains carbohydrates, proteins, fats, and other nutrients.
- These are complex materials and are broken into simpler forms in our digestive systems.
- This process is known as digestion.

## HOW DOES THE INTERNAL ORGANS HELP IN THE PROCESS OF DIGETION?

### **MOUTH:**

- If you open your mouth and look carefully, you will be able to see different types of teeth and a tongue in the mouth.

### **TEETH:**

- Teeth are important part of our mouth that help to bite and chew the food.
- They also give shape to our face and help us speak clearly.

### **TONGUE:**

- The tongue is a soft, movable part inside our mouth.
- It is used for tasting, licking and speaking. It also pushes the food into the food pipe at the time of swallowing.

### **SALIVARY GLANDS:**

- Along with the teeth and tongue, there are three pairs of salivary glands present in the mouth. These glands secrete saliva.
- Digestion of food begins when we put the food in our mouth.
- Teeth help in breaking the food into smaller pieces and chewing it.
- Here the saliva gets mixed up with the food and makes it soft.
- Saliva converts insoluble starch into soluble sugar.
- It is important to chew the food properly for proper digestion of the food.

### **STOMACH:**

- From the mouth, the food goes into the food pipe and enters the stomach.
- The stomach is a muscular bag-like organ in which food can be stored for a few hours.
- During this time the food mixes with the digestive juices secreted by the walls of the stomach.
- The food is partially digested here.

### **SMALL INTESTINE:**

- From the stomach, the food is passed into a long-coiled structure called small intestine.
- The small intestine, the liver and the pancreas produce some more digestive juices.
- Liver and pancreas pour their juices into the small intestine.
- These juices then get mixed with the food and completely digest it in the small intestine.
- The walls of the small intestine absorb the digested food and pass it to blood.
- Blood carries the digested food to all parts of the body.

**Liver is the hardest gland in our body.**

### **LARGE INTESTINE:**

- The undigested food passes into the large intestine.
  - The walls of the large intestine absorb water from it and then pass it to blood.
  - The undigested semi-solid waste is collected in the rectum and is eliminated through the anus.
- The length of the small intestine is approximately 7 meters whereas large intestine is 1.5 meters.**

## My Journal – Myself

### My Journal – Character Traits – What's your SuperPower!

Choose some of the super power you have from the list.
