

Achievers

Foundation course for your success

Workbook - 3

Class 4

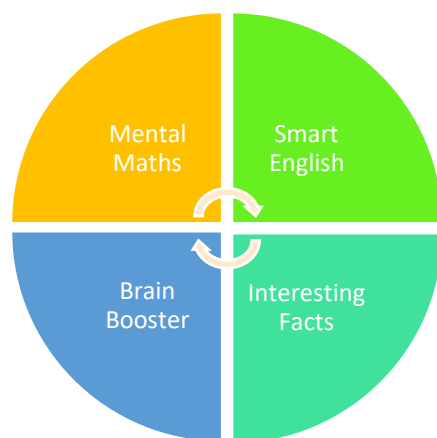

www.mentorsbasket.com

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORS BASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Interesting Facts and Brain Boosters. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Brain Boosters** – The students need to be aware of what is happening Locally, Nationwide as well as Globally and what can be more challenging to the brains then answering some General Knowledge. We have designed worksheets that will give them an edge in competitive exams as they are more aware of the information.
- **Interesting Facts** - Academically we tend to focus more on the book knowledge, so now we want the child to be introduced to some interesting facts that can help them lead a discussion or lead in debates , competition and be a PRO kid. These interesting facts will increase their limited area of knowledge and make them more competitive and smarter.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Fill in the blanks with the words given in the box below:

Tomorrow everybody addresses or important whole

Mr. McLellan told the _____ class that they had one important homework assignment that night. Each student needed to have his _____ or _____ her parent email _____ that evening. Mr. McLellan wanted to make sure that _____ understood how _____ it was to complete the task. He needed all the parent's email _____ by _____ morning.

2. Write the antonym for the given set of words. Antonyms are pairs of opposite words.

- A. Come
- B. Open
- C. Hello
- D. Flavor

3. Find the words that start with "TR" and let's see how many could you find out.

AVTRPTAERTRTPLT
GUCSWTTTTRASHRE

Smart English Worksheet 4

1. How fast can you read some piece of information and answer questions related to it. Try it with the given comprehension and solve the questions.

A White Christmas

By Colleen Messina

One well-known Christmas song is "White Christmas." The lyrics talk about dreaming of a white Christmas. It was written in 1942. Soldiers in World War II loved the song. Snow inspired that songwriter. Children dream of snowflakes, too. They want to have a day off from school!

Places that get cold in winter can enjoy a white holiday. Snowflakes cover the ground with a white blanket. They start in a cloud. They start when water vapor cools in the air. The water condenses. It changes from a gas to a liquid. Then the liquid freezes into an ice crystal. It starts out very small. Then the crystal grows. It gets more complex. It blows around inside the cloud. Then it falls to Earth.

Some people study snowflakes. They take photos of them. Snowflakes have six sides or arms. Each flake is different. Close up, they look like clear glass. Scientists learn about crystals from snow. Scientists use what they learn from snowflake crystals in other areas of science. Snowflakes are not magical, but they are amazing!

Snowflakes can create a magical white Christmas. Snow is fun to play in. One songwriter was inspired by snowflakes. Scientists like snowflakes, too. Snowflakes are a part of many dreams!

1. Soldiers in which war first enjoyed the song "White Christmas"?
A. World War II
B. the Iraq War
C. World War I
D. the Vietnam War
2. Where do snowflakes start to form?
A. in a rainbow
B. in a tree
C. in a snowflake factory
D. in a cloud
3. What does snow look like up close?
A. clear glass
B. solid white
C. multi-colored
D. none of the above
4. How many sides do snowflakes have?
A. four
B. eight
C. six
D. five

Mental Maths Worksheet 2

1. Solve the following word problems: Write the steps involved to get the solutions.

- A. “Are you getting anything for Mom’s birthday?” Arnold asked his dad. For some reason, Dad looked surprised. ‘Wait, I know why you are looking at me like that. You forgot about Mom’s birthday! Arnold’s dad knew what to do. He would order something from the Quick Delivery website. He found a book mom would like. The list price of the book was Rs. 24, but it was on sale for only Rs.9. A bargain! then he added some chocolate to the cart for Rs.18. he would eat it if mom didn’t! When he got to the checkout, they added Rs.2in sales tax, but he had to pick shipping speed. Same day was Rs.6, next day was Rs.3, and 2-3 days was free. When is mom’s birthday again? Asked dad. Tomorrow! Replied Arnold. How much will dad’s purchase cost him?
- B. Jackie was making necklaces for her mom’s jewellery shop. She found a package of 600 cube beads. “These are so cool”, she told her mom. ‘Each cube bead has a heart shape in four colours on each side of the cube”. “Are you sure? “interrupted mom. “A cube has six sides not four. Just like a die has the numbers 1 to 6 on it”. “For Sure”, replied Jackie. “the other two sides are the holes so I can out the string through it!” Jackie made four necklaces. She used 5 cubes for each necklace. How many hearts are there all together in the necklaces she made?
- C. Ava and Sara both started getting an allowance 12 weeks ago, and they haven’t spent a cent! They get Rs 1 for each year of their age. Sara is 8 and get Rs. 8per week. Ava has Rs.24 more than Sara. How old is Ava?

Did you know these Interesting Facts!

FOOD AND DIGESTION – TEETH

TEETH

- Teeth are very important part of our mouth.
- Teeth help to bite and chew the food.
- They also give shape to our face and help us speak clearly.

TWO SETS OF TEETH

- A baby is born with no teeth.
- When the baby is about six months old, his/her teeth begin to appear.
- By the time, the baby is three years old, he/she has a set of twenty teeth.
- These are temporary and are called milk teeth.

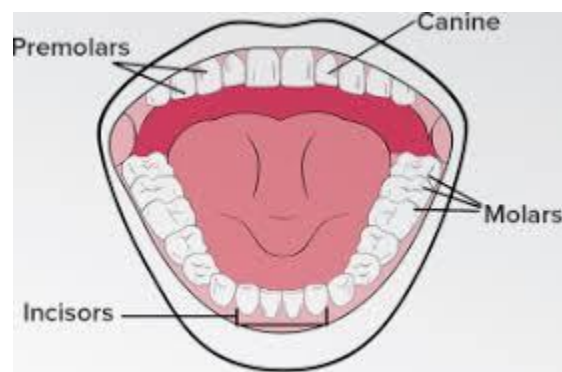

- Between the age of six and twelve years, the milk teeth fall out one by one and new ones grow in their place.
- These new teeth are called permanent teeth.
- They are thirty-two in number.

TYPES OF TEETH

FLAT TEETH: The teeth in the front of the mouth are flat and are used for biting and cutting the food. They are known as incisors. There are four incisors in the upper jaw and four incisors in the lower jaw.

POINTED TEETH: On either side of flat teeth is a sharply pointed tooth. They are used for tearing the food. They are known as canines. There are four canines in all.

BROAD AND GROOVED TEETH: The teeth present at the back of the mouth are broad and have grooves in them. They are used for chewing and grinding the food. They are known as premolars and molars. There are eight premolars in all i.e. four in the upper jaw and four in the lower jaw. They are next to canines.

HOW TO PROTECT YOUR TEETH

	Brush your teeth twice a day. Clean the tongue to remove germs.
	Rinse or wash your mouth after every meal.
	Avoid eating sweets or sugary snacks and taking soft drinks as much as possible.
	Visit a dentist for regular dental check-ups.
	Eat fruits and vegetables to give exercise to our gums. Eat calcium-rich food for strong teeth.

- If sugar and bacteria are left on the tooth, it can cause tooth decay.

My Journal – We can Show Respect – What's your style!

We can show respect!

we can show respect to our friends by:

sharing
taking turns
keeping our hands to ourselves

using teamwork
using kind words
being helpful

loving each other

we can show respect to our parents by:

loving them
listening to them
being honest

using words like please and thank you

we can show respect to our teachers by:

Raising our hands
using kind words

listening and following directions

being honest
being helpful
using words like please and thank you

we can show respect to our school by:

picking up trash (even when it's not ours!)
cleaning up our mess

treasuring books
not being wasteful

I can show respect to myself by:

being on time
being prepared
being neat and clean

always doing my best

How do you show respect to your Grandparents

How do you show respect to your Neighbors.

How do you show respect to your Relatives.

How do you show respect to your siblings.
