

Achievers

Foundation course for your success

Workbook - 6

Class 4

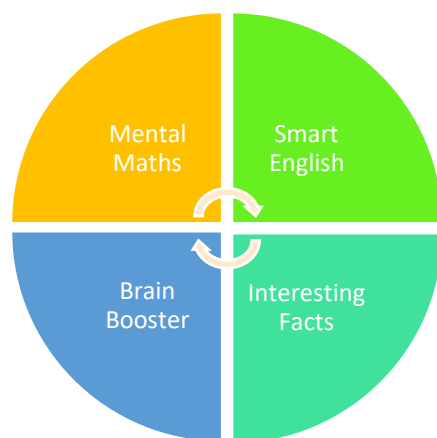

www.mentorsbasket.com

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORSBASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Interesting Facts and Brain Boosters. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Brain Boosters** – The students need to be aware of what is happening Locally, Nationwide as well as Globally and what can be more challenging to the brains then answering some General Knowledge. We have designed worksheets that will give them an edge in competitive exams as they are more aware of the information.
- **Interesting Facts** - Academically we tend to focus more on the book knowledge, so now we want the child to be introduced to some interesting facts that can help them lead a discussion or lead in debates , competition and be a PRO kid. These interesting facts will increase their limited area of knowledge and make them more competitive and smarter.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Learn about pronouns and solve the given exercises.

Definition

Pronouns have things called antecedents. An antecedent is the word(s) to which a pronoun refers. In a sentence, the pronoun and the antecedent have to agree with each other. A single pronoun should have a singular antecedent. A plural pronoun needs a plural antecedent.

Example

Claire ate her pizza. Notice "Claire" is singular, and so the pronoun "her" is also singular. Claire and Sarah ate their pizza. In this latest sentence the pronoun "their" is plural because "Claire and Sarah" are plural.

Practice

Fill in either the missing pronoun or the missing antecedent, making sure that they agree with each other.

1. My grandma gave me _____ old bike.
2. _____ ate their lunch together every day.
3. My old dog would bury _____ bone at night and dig it up every morning.

Smart English Worksheet 3

Why do we shed tears when we cry? How are these tears produced in our body? Come let's read a small write up on it and answer the given questions.

Tears – By Cidny Grigg

People may cry in pain, but we also shed tears of emotion. We cry when we're sad. We cry when we're very happy. We cry when we're mad. We cry when we're afraid. We cry when we feel deep emotions. Tears are made by the body's lacrimal glands, also known as tear glands. Tear glands are under our eyelids. Tears pass through small ducts to the eyes. Tears are 98 percent water. Did you know that there are three kinds of tears?

There are basal tears. These are always flowing to bathe our eyes and keep them moist and healthy. Our body makes these even when we are asleep. These tears are a blend of oils, mucous, proteins, and water. These tears keep our vision clear. They clean our eyes by washing away dust. They make our eyes comfortable so it doesn't hurt to blink. Blinking moves the tears around the eyeball. On average, we blink twelve times every minute!

Reflex tears are a response to irritants. Things that irritate our eyes can be pieces of dust, an eyelash, or fumes from onions. Reflex tears have less oils, proteins, and mucous. They have more water to wash away the irritants. This is why our eyes "water" in cold weather. Cold air and wind are irritants. They can dry out our eyes. So our bodies make more reflex tears to moisten our eyes.

Then there are the tears we cry because of our emotions. They are called psychogenic (SI-co-jen-ick) tears. These tears contain more proteins. When we are upset about something, most of us feel better after we've cried. Doctors aren't sure why. They think that crying might be a way to get rid of some kinds of chemicals our bodies make when we are upset or stressed. Many people say they feel better after "a good cry." Crying is a way to release emotions.

1. Tears are made by the body's _____ glands.

2. How often do people blink on average? A. Every twelve minutes B. Every five minutes C. Five times a minute D. Twelve times every year	3. When do we make reflex tears? A. When things irritate tears? B. When we feel deep emotions C. All the time.
4. Which kind of tears contain more proteins? A. Psychogenic tears B. Basal Tears C. Reflex Tears	5. Which of these do tears NOT do? A. Keep our eyes moist and comfortable B. Release emotions C. Keep our eyes cool D. Clean our eyes

Smart English Worksheet 4

- 1. Did you know you don't have to use the word reason in your writing? Try to use different words for an overused word like reason. It will make your work more fun for others to read.**

Circle words to the RIGHT or DOWN. Every letter is used exactly ONCE.

I R P R E T E X T
 N A B A S I S
 C T L C
 E I O A
 N O A R G U M E N T I S
 T N I N T E N T I O N C E
 I A S E N S E
 V L J U S T I F I C A T I O N
 E E E X P L A N A T I O N

Write the words found.

EXPLANATION

JUSTIFICATION

Write something using the word reason at least two times.

Now rewrite your boring writing without using the word reason.

Mental Maths Worksheet 2**1. Solve the following word problems:**

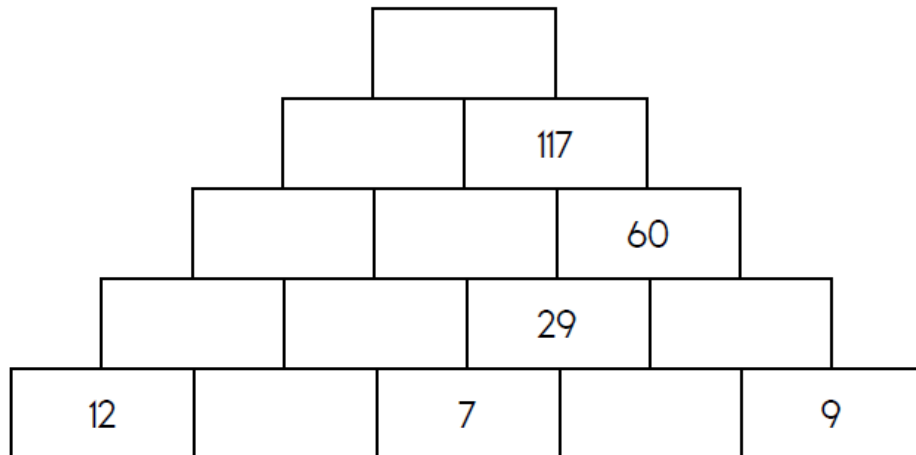

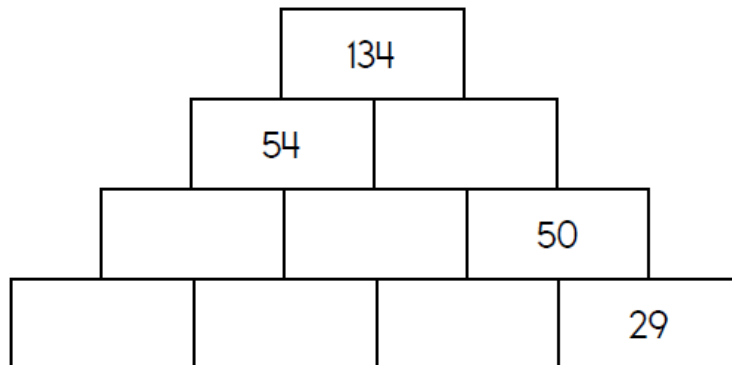

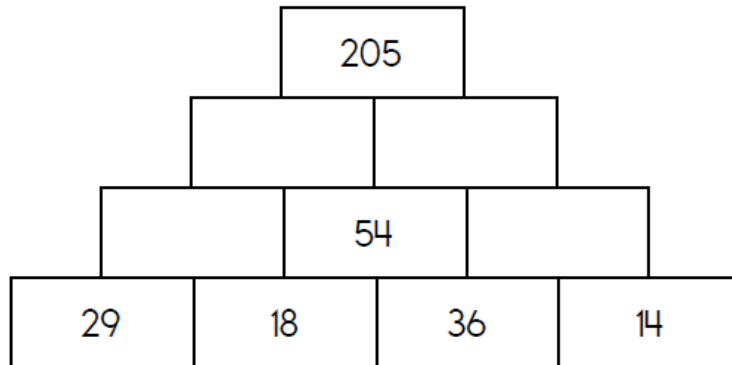

- 1) Wendy, Jenna, and Eric are the judges for the class yo-yo contest. They will each give a score from 0 to 10 for each performance. Jack was the first to go. After the performance Mrs. Jones adds up the score. Wow!!! Jack got the same score from all the three judges for a total of 18. What score did each judge give him.
- 2) Mr. Rodriguez likes to make his own barbeque sauce. He uses 2 tablespoons of sugar to make 2.5 cups of sauce. How many tablespoons of sugar will he need to make 10 cups of sauce.
- 3) Mrs. Allen needs to buy 33 cupcakes. At the mall, 2 stores sell cupcakes for the same price. Both stores have very tasty cupcakes. She has a coupon for the first store, Cupcakes are good. The coupon is \$3 off every 3 cupcakes you buy. Would you believe she also has a coupon for the second store, Buy Here? Her coupon for Buy Here says \$4 off for every 2 cupcakes you buy. So BUY HERE. Hmmm. Which store is better buy?

Mental Maths Worksheet 4

Fill in the missing numbers. How? The sum of the four surrounding numbers is in the centre of each square.

- Exactly one of the four numbers has to be one of these numbers: 3 ones, 1 one or 7 ones.
The other three numbers have to all be different and must be from these: 8 tens, 7 tens, 5 tens or 6 tens.

- Ready to make equations? There is a missing equation in each box. Circle the numbers once you find it.

A

79	12	35
56	17	42
52	61	11

Find an addition fact.

B

50	61	57
12	38	53
78	56	67

Find an addition fact.

C

43	66	89
83	25	63
92	50	75

Find an addition fact.

Equations:

Write the equation facts you found.

A	35	+	17	=	52
B		+		=	50
C		+	25	=

Did you know these Interesting Facts! – EARTH AND UNIVERSE

MOON

It is the Earth's only satellite.

Like everything else in the solar system, the Moon also does not have its own light. It gets its light due to Sun's light.

There is no water on its surface.

The moon has no atmosphere, therefore there is a huge difference between day and night temperature.

Its diameter is 1/4th of the Earth.

It appears bigger to us as it is very close to Earth.

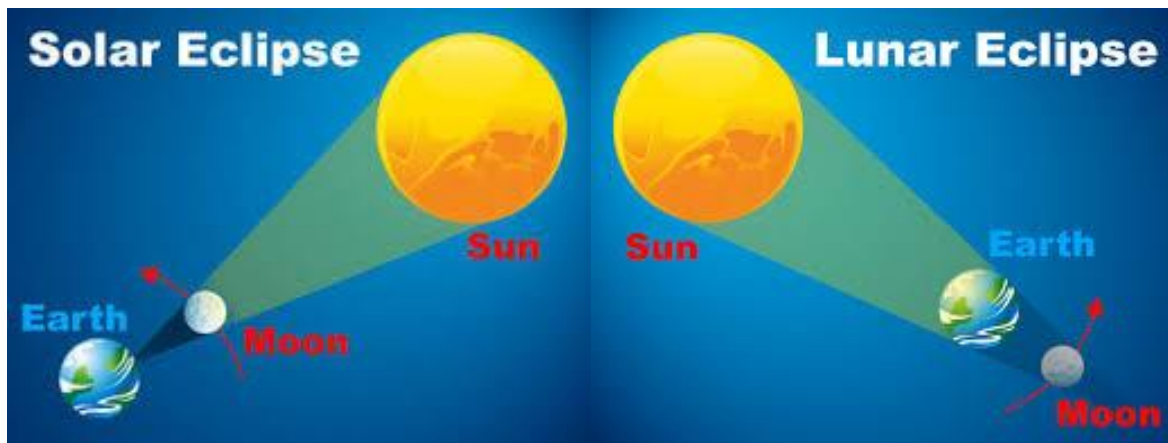

PHASES OF MOON

- The Moon shows 4 different phases:
- **New moon:** We cannot see the moon.
- **First Quarter:** We can see the right side illuminated.
- **Full Moon:** We can see the full Moon illuminated.
- **Last Quarter:** We can see the left side illuminated.

WHAT ARE ECLIPSES?

- An eclipse occurs when a celestial body hides another temporarily. It can be partly or completely.
- **Lunar Eclipse:** It occurs when Earth blocks the Sun's rays from the Moon.
- **Solar Eclipse:** It occurs at New Moon when the Moon passes between Earth and Sun.

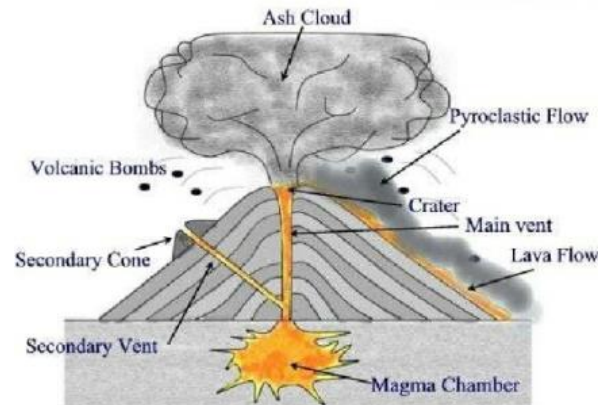

WHAT ARE TIDES?

- The tides are periodic movements of the level of the seas due to the attraction of the Moon and the Sun.
- When the water level rises is called high tide.
- When the water level goes down is called low tide.

WHAT ARE VOLCANOES

- The molten metals and gases lying in the centre of the earth expand due to the great heat and they exert great pressure from inside to force themselves out of the earth's crust.
- The molten material thrown out is called Lava
- The hole in the volcano is called a Crater.

METEORS, METEORITES AND METEOROIDS

A meteoroid is a small rock or particle of debris in our solar system. The size and shape has various range which can be from dust to around 10 meters.

A meteoroid that burns up as it passes through the earth's atmosphere is known as a meteor. When you see a shooting star, it is actually a meteor.

A meteoroid that survives falling through the earth's atmosphere colliding with the earth's surface is known as a meteorite.

ASTEROIDS

An asteroid is a large rock in the outer space.

26 very large asteroids have been discovered, which are mostly the big ones.

But there are still millions of smaller ones that we are yet to see because they are too tiny.

COMETS

Comets are the celestial body moving about the Sun, consisting of a central mass surrounded by an envelope of dust and gas that may form a tail that streams away from the sun. When comets are close enough to the sun, they display a visible coma (a fuzzy outline or atmosphere due to solar radiation) and sometimes a tail.
