

Achievers

Foundation course for your success

Workbook - 8

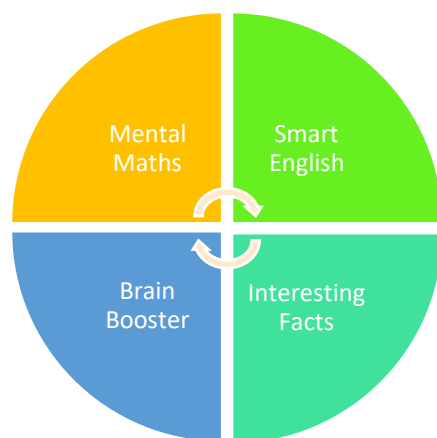

Class 4

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring.*" We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORSBASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Interesting Facts and Brain Boosters. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** - We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** - The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Brain Boosters** – The students need to be aware of what is happening Locally, Nationwide as well as Globally and what can be more challenging to the brains then answering some General Knowledge. We have designed worksheets that will give them an edge in competitive exams as they are more aware of the information.
- **Interesting Facts** - Academically we tend to focus more on the book knowledge, so now we want the child to be introduced to some interesting facts that can help them lead a discussion or lead in debates , competition and be a PRO kid. These interesting facts will increase their limited area of knowledge and make them more competitive and smarter.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Lets study about coordinating conjunctions and answer the questions given below.

Coordinating

Definition

A conjunction is a word that connects words, phrases, or sentences. The three types are coordinating, subordinating, and correlative. You will learn about the first two types this year. Coordinating conjunctions are easy to remember with the acronym FANBOYS. They are *for*, *and*, *nor*, *but*, *or*, *yet*, and *so*. These conjunctions are used to join two clauses of equal importance.

Example

I must wear sunscreen, or I will get a sunburn. Notice how "or" connects these phrases. Also notice how a comma is necessary before this coordinating conjunction.

Practice

Circle the conjunction in this sentence.

1. Will planned to get up early, but his alarm never went off.

Fill in the blank with a coordinating conjunction.

1. I wanted to eat the ice cream, _____ I was allergic to dairy.

2. I passed English this semester, _____ I also passed math.

Turkey - Geography

Turkey is a country in the Middle East. It is a big country right between the
European and Asian continents. The capital of Turkey is a big city called Ankara.

Turkey is a very interesting country. It has lots of history and lots of very interesting
land.

Turkey is surrounded on three sides by water. To the north is the Black Sea. To the south and west is the
Mediterranean Sea. If you look at a map of Turkey, it looks like there's lots of water inside Turkey, too. Rivers
and lakes can be found on any map of Turkey. But many times, Turkey's lakes and rivers disappear. That's
Thats' because the weather changes very much in Turkey. The weather can cause Turkey's rivers and lakes to complete
dry up!

The land is very important to today's Turks. Many Turks are farmers. Some raise plants. others raise animals,
like goats. For many thousands of years, Turkey's goats have been used to make rugs. How do they do that? The
goats' hair is cut off, dyed into different colors, And tied together in pretty patterns to make rugs. Turkey is very
famous for its rugs.

Many Turks live in big cities, just like people in other countries. Ankara is one of Turkey's big cities. Another
is a city called Istanbul. Many years ago, Istanbul was named Constantinople. Many of Turkey's cities have lots

of very old buildings. Some of them are hundreds of years old.

There is something about Turkey's land that is very scary. Have you ever heard of earthquakes. There have been very bad earthquake in Turkey. What is an earthquake? It is when huge pieces of the earth move. This happens deep underground. The pieces-- called plates--slide against each other. The place where the plates meet is called a fault. In Turkey, there is a big fault deep underground.

When the plates move, the ground shakes. Sometime, the ground shakes very little. Sometimes, the ground shakes so hard, Houses, buildings, and bridges fall. During a very bad earthquake, sometimes people get hurt and sometimes people die. This is what makes earthquakes very scary. Just a few years ago--in 1999--there were two very big earthquakes. These earthquakes caused a lot of damage and took thousands of lives. Since then people in Turkey have been very scared of more earthquakes.

But Turkey's land isn't scary all the time. There are many beautiful forests in Turkey. In some forests, you can find a strange Turkish animal called a Van cat. This big cat is solid white--very pretty!--and has two different colored eyes. One is blue and the other is green.

Did you make at least 5 corrections? If not, take another look.

I took a few looks and was able to make _____ corrections.

Turkey - Geography

Questions

- _____ 1. What is the capital of Turkey?
- A. Constantinople
 - B. Istanbul
 - C. Ankara
 - D. Troy

- _____ 2. Some of Turkey's lakes and rivers disappear.
A. true
B. false
- _____ 3. The place where plates meet underground is called a _____.
A. fault
B. rock
C. split
D. crack
- _____ 4. Istanbul used to be called _____.
A. Constantinople
B. Ankara
C. Troy
D. Galatia
- _____ 5. Many Turks are farmers.
A. true
B. false

Did you know these Interesting Facts! - ANIMALS

SPECIAL ORGANS IN ANIMAL

EARS

- The ears of the animals can be either large or small.
- Some do not have ears at all.
- If present then their ears can be of different size and shapes.
- Some animals use vibrations and respond according to the vibrations.
- Animals like fishes have inner ears but whale being a mammal also have inner ears.

SKIN

- Skin acts as a protective layer.
- Animals may have hair, scales, fur or feathers on their skin.
- Mammals have hair or fur on skin.
- Reptiles have scales.
- Birds have feathers.

HOW DO BIRDS FLY?

The lightweight and special shape of the feathers help the birds fly.

Birds have hollow skeletal bones that make them light and enable them to fly.

USEFULNESS OF ANIMALS

FOOD

- Animals like cow, goat, buffalo and camels are domesticated for milk and milk products like curd, cheese, butter and ghee.
- Animals such as hens and ducks give us eggs and meat.
- We commonly get meat from animals like sheep, goat, fish and hen which are rich in protein.
- Honeybees provide us with honey.

MATERIAL

- We get wool from sheep used for making blanket, sweaters, clothes and carpet.
- The leather is obtained from the skin of animals like buffalo and camel.
- We get silk from silkworms for making clothes.
- Shells, feathers and teeth of animals are also used for making jewelry and decorative items.

SERVICES

- Animals are used for lifting and carrying heavy loads.
- Horses and camels are used for transportation in hills and deserts.
- Dogs are kept as pets and for guarding the house.

MOVEMENTS OF ANIMALS

- Every living being needs company.
- Mostly all the animals and human beings live with their family or groups what we call a society.
- Animals like sheep, horses, fishes, etc. like to live in groups to protect themselves from predators, a division of labour and food collection but there are few animals that live alone like tigers, spider, panda, foxes, etc.
- These animals live alone to avoid competition for limited food.
