

Achievers

Foundation course for your success

Workbook - 9

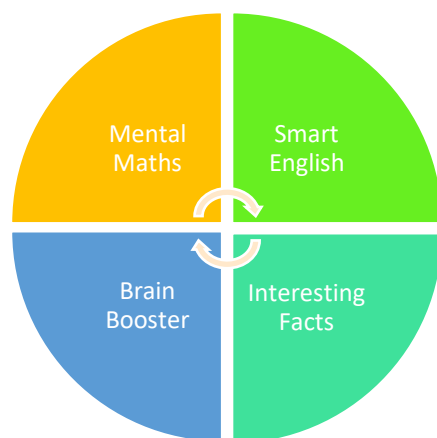

Class 4

Preface

Most students and teachers think that the word "**Worksheet**" is a synonym for the word "*Boring*." We envision hours of sitting still at a desk-silent busy working for them and hours of grading for us. But worksheets still have a place in your classroom? In an age of open inquiry and problem-based learning, your child can still find power in a simple paper and pencil activity by practicing MENTORSBASKET WEEKLY worksheets.

Achievers Model bring to your child an opportunity to develop academically as well as for the competitive World. The Learning Process of every child is dependent on One's Ability to think logically and reason Quickly and effectively. These two factors are hence very crucial to a child's progress in education.

Mentors Basket Achievers weekly workbook covers Mental Math, Smart English, Interesting Facts and Brain Boosters. These Powerful worksheets can help in building number sense, computational thinking, and problem-solving skills in your child at beginning of the foundational years. **Every Month we would be providing 3 Workbook and 1 Challenge Workbook, each of these are designed at different levels and standard wise. We would be providing upgraded workbooks, that makes the child to look forward to challenges. Weekly Workbook would be consisting of the following content:**

It is a unique way to provide differentiated brain-building work for different learners.

Strong Foundation Helps to Build Brighter Future

Design Framework

The Sample Workbook Consist of the topics as under:

- **Mental Maths** -We want our students to be able to understand content and concepts. We also want to stretch them to think and approach problems in new ways. This editable graphic organizer can help them do that! Challenge the students to solve a math problem more than one way. Have them explain how and why they solved it with their given strategy. Over time, we can see how mathematics can be transformed into a subject that is not only fun but also challenges students' creativity and independent thinking.
- **Smart English** -The study of English Language Arts, or speaking, listening, reading, and writing, is critical both to academic success and to life beyond school. Without the skills learned in language arts, students cannot achieve any kind of mastery in any of their coursework. Good communication skills are necessary for every career field, so these on-demand workbooks give your students the mixed review of grammar, spelling, and writing skills that will enable them to practice their language arts skills in a fun and diverting manner, ensuring that the skills they have learned will Supplement their language.
- **Brain Boosters** – The students need to be aware of what is happening Locally, Nationwide as well as Globally and what can be more challenging to the brains then answering some General Knowledge. We have designed worksheets that will give them an edge in competitive exams as they are more aware of the information.
- **Interesting Facts** - Academically we tend to focus more on the book knowledge, so now we want the child to be introduced to some interesting facts that can help them lead a discussion or lead in debates , competition and be a PRO kid. These interesting facts will increase their limited area of knowledge and make them more competitive and smarter.

GUIDELINES

1. Look at Problems with Different Perspectives Through Observation, Exploration and Critical Thinking.
2. Integrate the Application of Math to Problem Solving.
3. Integrate the Reading Skill in English To Solve Vocabulary or Spelling Questions.
4. Think Critically and Reason Logically
5. Practise, Investigate, Evaluate and Learn with Understanding
6. Develop Positive Attitude Towards Finding Solution
7. If Your No Able to Solve or Find Solution Seek for Help.
8. Take A Break and Revisit the Question with Fresh Thought
9. Ask Yourself How Many Questions You Could Answer in First Attempt.
10. Focus and Concentration Is the Only Key to Success

Smart English Worksheet 1

1. Lets study about subordinating conjunctions and answer the questions given below.

Definition

Subordinating conjunctions serve the same basic function as coordinating conjunctions (they join two clauses), but they are used when one clause is more

important than another. Some subordinating conjunctions are *after, although, as, because, before, even if, even though, if, in order that, once, provided that, rather than, since, so that, than, that, though, unless, until, when, whenever, where, whereas, whenever, whether, while, and why*. Remember that the subordinating clause is the less important one.

Example

Although I've known Seth since kindergarten, we have never been good friends. Notice how "Although" joins the two clauses and starts the first and least important part of the sentence.

Practice

Circle the conjunction in each sentence.

1. Even though I love French toast, I only get it for breakfast on my birthday.

2. Since my birthday is on Christmas, I usually don't get as many birthday presents as my friends do.

3. While my mother stayed in bed on Mother's Day, I made her breakfast in bed.

- 1. Oops! This story contains lots of errors. Find them and fix the errors in this story before answering the questions.**

Liberty Rings

Molly and her family took a trip. They traveled to Pennsylvania. Their first stop was Philadelphia. Molly could not wait to see the Liberty Bell. She had read about it in a book. Molly knew that the bell was a part of history.

In 1751, it was decided that the Pennsylvania State House needed a bell. The men in charge wrote a letter. It was sent to a bell maker in London, England. It said that a bell was needed. There were instructions in the letter. The men wanted words carved into the bell. The words were from the Bible.

The bell arrived about a year later. It was hung. After it was rung, a crack was noticed. The men in charge did not like the crack. They sent the bell to be repaired. Two men in Pennsylvania fixed the bell. Their names were John Pass and John Stow. They melted the bell down. They remade the bell. They put their names on it. This time more copper was added. The copper was supposed to make the bell stronger.

In 1753, the second bell was hung. It did not sound right. Pass and Stow remade the bell again. The new bell was attached to the clock at the State House. It rang each hour. The Liberty Bell was rung when there was a special announcement. It called people to gather. People came to the State House. (Today the State House is called Independence Hall.) The bell rang many times. It rang for special events. On July 8, 1776, it rang. The Declaration of Independence was first read in public.

In 1777, the British took over Philadelphia. A few weeks earlier, all bells were removed from the city. It was thought that the bells would be melted down. The melted bells would be used to make cannon balls. The Liberty Bell was removed. It was hidden under a church.

The Old State House bell was put back in 1785. It was rung for many reasons. It rang on the Fourth of July. It rang on George Washington's birthday.

In the 1830s, a group trying to stop slavery named it the Liberty Bell. They used it as a symbol for freedom for slaves.

In 1846, it rang for George Washington's birthday. A thin crack was seen in the bell. The bell did not sound the same. The bell has not been rung since 1846.

Today, the bell sits in the Liberty Bell Center. The center is like a museum. People can learn about the bell's history. The bell sits in a glass room. Independence Hall can be seen from the window. On each July 4 the bell is tapped. Family members of the signers of the Declaration of Independence come together. Each person taps the

bell thirteen times.

The Liberty Bell has become a symbol. A symbol represents something. The Liberty Bell has become a symbol for the United States. Liberty means freedom. "Let freedom ring!"

Questions

_____ 1. A _____ was needed for the Pennsylvania State House.

- A. sculpture
- B. bell
- C. painting
- D. tree

_____ 2. In what country was the first bell made?

- A. Mexico
- B. Japan
- C. England
- D. United States

3. What special instructions were included in the letter to the bell maker?

4. Why was the first bell taken down?

_____ 5. What was added to the second bell to make it stronger?

- A. gold
- B. silver
- C. copper
- D. diamonds

6. The new bell was attached to _____. It rang _____.

_____ 7. The bell was used as a symbol for freedom for slaves in the 1830s.

- A. true
- B. false

_____ 8. When was the Liberty Bell rung?

- A. for announcements
- B. for George Washington's birthday
- C. on the Fourth of July
- D. all of the above

9. Why was the Liberty Bell rung on July 8, 1776?

10. Why was the Liberty Bell hidden in 1777?

_____ 11. Today, the bell sits in the Liberty Bell Center.

- A. true
- B. false

_____ 12. Liberty means _____.

- A. to ring
- B. to fight
- C. to hold
- D. freedom

1. Find solutions for the given word problems.

1. There are 68 students in the third grade. There are 18 students in Miss Bell's class. There are 20 students in Mr. Edison's class. The rest of the students are in Ms. Lovell's class. How many more students are there in Ms. Lovell's class than Miss Bell's class?
2. The students in Ms. Walker's class were planning to decorate white T- shirts with fabric paint on white T-shirt day. Wendy's mother went to the store and bought a new white t-shirt for her. The t-shirt cost \$4.11. she gave the clerk \$9. How much change did she get?
3. Sarah took home pictures she drew at school. She found tape to put the pictures on the wall in her room. Each picture needed forces of tape. She used 32 inches of tape. Wow! That's a lot of tape. How many pictures did she put up. Oh, wait. You don't have enough information. Each piece of tape was 4 inches.

Mental Maths Worksheet 4

1. Find the missing numbers. These both have the same rule. What is the rule?

If

$1, 10 = 11$

$2, 15 = 17$

$3, 20 = 23$

$4, 23 = 27$

Then

$5, 28 = ?$

If

$4, 7 = 11$

$5, 9 = 14$

$6, 13 = 19$

$7, 18 = 25$

Then

$8, 23 = ?$

2. What is the rule for each pattern?

20, 20, _____, _____, 28, 38, 32, 47, 36, 56, 40, 65

47, _____, _____, 54, 53, 61, 56, 68, 59, 75, 62, 82, 65

8, 8, 16, _____, 24, 36, 32, 50, 40, 64, 48, 78, 56, 92

3. Solve the following.

$8 \times 5 = \quad 3 \times 7 = \quad 4 \times 0 = \quad 2 \times 10 = \quad 2 \times 4 =$

$4 \times 2 = \quad 2 \times 9 = \quad 5 \times 1 = \quad 3 \times 4 = \quad 8 \times 10 =$

$0 \times 12 = \quad 1 \times 6 = \quad 5 \times 4 = \quad 2 \times 10 = \quad 10 \times 2 =$

$12 \times 5 = \quad 11 \times 4 = \quad 6 \times 8 = \quad 3 \times 9 = \quad 3 \times 7 =$

Did you know these Interesting Facts! - ANIMALS

Let's learn about few animals and what their groups in which they live are called-

NAME OF ANIMAL	AMINAL GROUP
Ant	Colony 
Camel	Flock 
Elephant	Herd/Parade 
Horses	Team 

Lion	Pride 
Fish	Shoal 

ADAPTATION OF ANIMALS

- Some animals go into their burrows and sleep for a long time when the weather is too cold and the food is in short supply. This is called hibernation.
- When the summers are hot and animals are left with very little water and food, they go for a long summer sleep. This summer sleep is called aestivation.
