Preface

IELTS (International English Language Testing System) is a worldwide recognized official English exam. The IELTS is administered by the British Council, IDP: IELTS Australia and Cambridge English Language Assessment. Its aim is to evaluate the English level of the people that take it. This is one of the most accepted English exams by higher education institutions to certify English language proficiency.

IELTS Reading: Academic Module – 3 long texts of an academic nature. General Training Module - Mixture of long and short texts of a more general nature, as well as texts related to work situation.

Reading Paper is Assessed on:

- Identifying the overall purpose
- Follow key arguments in a text
- Identify opinions and attitudes
- Locate specific information
- Distinguish main ideas from details.
- Extract information from a text
- complete a diagram, summary, table

Reading Types of Questions:

- Matching Heading Questions
- True/ False/Not Given or Yes / No/ Not Given.
- Matching Paragraph Information Question.
- Summary Completion Question
- Sentence Completion Question
- Multiple Choice Question
- List Selection
- Choosing a Title
- Categorization Question
- Matching Sentence Endings
- Table Completion
- Flow chart Completion Question
- Short Answer Question

The workbook consists of total of 45 short n long passages to enhance the speed and accuracy while answering the reading sections.

General Training Practise Reading 1

Read the information below and answer Questions 1-6.

CLASSIC TOURS -- COACH BREAK INFORMATION

Luggage: We ask you to keep luggage down to one medium-sized suitcase per person, but a small holdall can also be taken on board the coach.

Seat Allocation: Requests for particular seats can be made on most coach breaks when booking, but since allocations are made on a first come first served basis, early booking is advisable. When bookings are made with us you will be offered the best seats that are available on the coach at that time.

Travel Documents: When you have paid your deposit we will send to you all the necessary documents and labels, so that you receive them in good time before the coach break departure date. Certain documents, for example air or boat tickets, may have to be retained and your driver or courier will then issue them to you at the relevant point.

Special Diets: If you require a special diet you must inform us at the time of booking with a copy of the diet. This will be notified to the hotel or hotels on your coach break, but on certain coach breaks the hotels used are tourist class and whilst offering value for money within the price range, they may not have the full facilities to cope with special diets. Any extra costs incurred must be paid to the hotel by yourself before departure from the hotel.

Accommodation: Many of our coach breaks now include, within the price, accommodation with private facilities, and this will be indicated on the coach break page. Other coach breaks have a limited number of rooms with private facilities which, subject to availability, can be reserved and guaranteed at the time of booking -- the supplementary charge shown in the price panel will be added to your account. On any coach break there are only a limited number of single rooms. When a single room is available it may be subject to a supplementary charge and this will be shown on the brochure page.

Entertainment: Some of our hotels arrange additional entertainment which could include music, dancing, film shows, etc. The nature and frequency of the entertainment presented is at the discretion of the hotel and therefore not guaranteed and could be withdrawn if there is a lack of demand or insufficient numbers in the hotel.

Questions 1 -6

Choose the appropriate letters A-D and.

1. If you want to sit at the front of the coach

- A. Ask when you get on the coach.
- B. Arrive early on the departure date.
- C. Book your seat well in advance.
- D. Avoid travelling at peak times.

2. Your air tickets

- A. Will be sent to your departure point.
- B. Must be collected before leaving.
- C. Will be enclosed with other documents.
- D. May be held by your coach driver.

3. If you need a special diet you should

- A. Inform the hotel when you arrive.
- B. Pay extra with the booking.
- C. Tell the coach company.
- D. Book tourist class.

4. It may be necessary to pay extra for

- A. A bathroom.
- B. Boat tickets.
- C. Additional luggage.
- D. Entertainment.

5. Entertainment is available

- A. At all hotels.
- B. If there is the demand.
- C. Upon request.
- D. For an additional cost.

6. With every booking Classic Tours guarantee you will be able to

- A. Request high quality meals.
- B. Take hand luggage on the coach.
- C. Use your own personal bathroom.
- D. See a film if you want to.

General Training Practise Reading 2

INTERNATIONAL STUDENTS HOUSE

International Students House is a unique club and accommodation centre for British and overseas students in London. It is located in the heart of London's West End and is close to all public transport facilities

ACCOMMODATION

- comfortable accommodation for up to 450 people in single, twin, 3/4 bedded and multi-bedded rooms
- 44 self-contained flats for married students and families.
- long and short stays welcomed.

MEMBERSHIP

Club membership is open to all fulltime students, professional trainees, student nurses and au pairs. Membership costs are kept to an absolute minimum to enable the widest possible access. You can join for as little as one month and for up to one year at a time. Membership entitles you to use the various facilities of the House. It has:

- * restaurants
- * student bars and coffee shop
- * study rooms
- * clubs and societies
- * aerobics and fitness training
- * discos, dance, jazz and cinema
- * travel and excursions and muchmore!

The best way to check out all we have on offer is to drop in any Tuesday evening between 7.15 pm and 8.30 pm for Open House in the Club Room. This is an opportunity for you to meet the staff and other club members, enjoy a free cup of coffee and find out all about what's going on. You can take advantage of special membership offers. (Useful tip: bring along 3 passport size photographs if you wish to take out membership.)

ADVICE SERVICE

Thanks to the support of STA Travel and in association with LCOS (the London Conference on Overseas Students) International Students House now provides the service of an International Students Adviser. This new welfare service is open to all students at London's bona-fide academic institutions. It aims to provide welfare support to help students overcome any personal or practical difficulties they may be experiencing whilst studying in Britain. One of the key features of the

Advice Service is that the Adviser can be seen during the evenings until about 8 pm, Monday to Thursday.

CHRISTMAS & NEW YEAR

Unable to get home for Christmas? How about joining in the fun at International Students House! Check out our special programme of activity taking place over the Christmas period. Even come and stay - the House will be offering reduced accommodation rates for students wishing to spend a few days in London over Christmas. We'll also have an exciting New Year's Eve party so come and join us and ring in the new year in the spirit of internationalism.

Questions 1-8

Read the article on International Students House and look at the statements below. Do the following statements agree with the information given in the text.

TRUE	if the statement is true
FALSE	if the statement is false
NOT GIVEN	if the information is not given in the passage

1. The club has long-term dormitory accommodation.
2. Membership must be renewed monthly.
3. The club provides subsidized restaurant meals.
4. The club is open to non-members on Tuesday evenings.
5. STA Travel help finance the Students Adviser.
6. The services of the Students Adviser are free to all club members.
7. You must make an appointment to see the Students Adviser.
8. There will be a surcharge for accommodation over the Christmas period.

General Training Practise Reading 3

THE TOTARA LANGUAGE INSTITUTE NEW ZEALAND

Study English in a national university with students from many countries.

4-week blocks

5 hours' tuition each day

Examination preparation

University entry (with appropriate academic and English requirements)

Choice of accommodation for all students - homestays with local families or in Halls of Residence with New Zealand students.

The Totara Language Institute is part of the University of Waikato in the city of Hamilton, in New Zealand's North Island. Intensive English classes are taught in four-week blocks throughout the year and students may enrol for as many blocks as they wish. Classes are for 5 hours each day, Monday to Friday, and include preparation for several international English language examinations. All the courses are taught by highly qualified teachers, many of whom also teach on Language Institute graduate programmes in second language teaching and applied linguistics. Classes are small, usually from 10-12 students with a maximum number of 15, and normally contain a mix of students from a wide range of countries. Students who study English at the Language Institute become international members of the Waikato Students' Union. The option is available to move on to university study if students meet the English language and academic entry levels for their choice of programme. The Language Institute provides student support, welfare and activities services. Students are met at Auckland airport on arrival and accommodation is provided with local families or in University Halls of Residence with New Zealand students.

Hamilton, one of New Zealand's fastest growing cities, is ideally located for a wide range of leisure and cultural activities. The Waikato river, the longest river in New Zealand, flows through the centre of the city, providing a picturesque and park-like setting of riverside walks and gardens. The Waikato region is a diverse agricultural area, rich in historic sites, arts and crafts, hot springs, native forests, mountains and rivers. Within easy reach is an unspoilt coastline; the wild and rugged west coast beaches famous for surfing, and the more peaceful east coast resorts are only a short drive from Hamilton. Further afield the mountains of the central North Island, 3 hours' drive away, provide superb ski facilities in winter, and hiking country in summer.

The Language Institute activities co-coordinator can assist students to arrange any sport and leisure activities.

Assistance is also available for ongoing travel arrangements for students. Students on a visitor visa or work permit may study for a maximum of 3 months. Courses of longer duration require a student permit which is issued for the length of study only.

Questions 1 - 5

Read the information on the Language Institute on the following page. Complete the summary of information below: Choose NO MORE THAN THREE WORDS AND/OR NUMBERS from the passage for each answer.

SUMMARY

with local students by applying for a room in the1... .. Places are available here even for students enrolled on the minimum length course of2..... Class sizes for each course range from3..... students and all the class teachers are well qualified; many of them teach on graduate programmes in areas such as applied linguistics. As a member of the Language Institute you will automatically be able to join the4..... . Hamilton can offer students a wide range of social activities. The city itself lies on either side of the ...5..... which results in some very6..... views and enjoyable walks in the gardens. The Institute employs an activities coordinator who can help you organise your free time and you may also wish to make use of this service for planning your7..... when you leave New Zealand. Remember that a student permit is not valid when you have finished your studies.

General Training Practise Reading 4

MEDICINE AND ITS INSTRUCTION

The Medicine

- This medicine must be taken as directed.
- Before using, shake the bottle.
- Dose: 50ml to be taken twice daily after the midday and evening meals.

Instructions:

- Do not take this medicine on an empty stomach or immediately before lying down.
- If any of the following occur, discontinue taking the medicine and contact your doctor: dizziness, vomiting, blurred vision.
- This medicine is not available without a prescription and is not suitable for children under 5 years.
- Once you have begun to take this medicine you must continue to take it until the bottle is empty, unless advised otherwise by your doctor.
- Only one course of this medicine should be taken in a period of six months.
- Expiry date: 16 February, 2004

Questions 1-4

Read the information on The Medicine in the passage below. Do the following statements agree with the information in the passage?

YES if the statement agrees with the information

NO if the statement contradicts the information

NOT GIVEN if there is no information about this in the passage

- 1 You should lie down after you have taken the medicine.
- 2 You must stop taking the medicine if your eyesight is affected.
- 3 You must stop taking the medicine when you feel better.
- 4 This medicine is suitable for a person of any age.

General Training Practise Reading 5

IMPORTANT NOTICE: PRODUCT RETURN

Fancy Foods wishes to inform the public that piece of metal have been found in some jars of FancyFoods Chicken Curry (Spicy). The batches of the Jars involved have numbers from J6617 to J6624. The batch number is printed on the bottom of each jar.

If you have any jars with these batch numbers, please return them (preferably unopened) to the supermarket where you purchased them. You can also return them to the factory (Fancy Foods Retailers, Blacktown). Fancy Foods will pay \$10 for each jar returned unopened and \$5 for each jar already opened.

No payment will be made for empty jars, which do not need to be returned. However, the company's Retailing Manager will be interested to hear from people who have consumed chicken curry from any of the above batch numbers. In particular, it will be helpful if they can give information about the place of purchase of the product.

Jars of Fancy Foods Chicken Curry (Coconut) and Fancy Foods Chicken Curry (Mango) have not been affected and do not need to be returned.

REWARD

Fancy Foods will pay a reward of \$10,000 to \$50,000 for information which leads to the conviction of any person found guilty of placing metal pieces in its products. If you have such information, please contact the Customer Relations Manager, Fancy Foods Retailers, Blacktown.

Questions 1 - 5

Look at the notice below. Using NO MORE THAN THREE WORDS AND/OR A NUMBER answer the following questions.

1. Where can you find the batch number on the jars?
2. How much will you receive for an opened jar of contaminated Chicken Curry?
3. If you have eaten Chicken Curry from a jar with one of the batch numbers listed, whom should you contact?
4. What information do they ask you to provide about the jar of Chicken Curry you ate?
5. What is the maximum reward Fancy Foods is offering for information about who contaminated their product?

General Training Practise Reading 6

FABULOUS FURNITURE

Section A

Have you ever wanted to buy a small bedside table? Or a dinner table for 20 people? If you want it, we've got it! Fabulous Furniture has Australia's widest choice of furniture.

Section B

If you visit a Fabulous Furniture store, you can have your furniture - right now - using our Fabulous Furniture Credit Card. When you see something you really want, you can have it straight away, and pay later.

Section C

Unlike most cards, the Fabulous Furniture Credit Card offers a full 60-day interest-free period on every Fabulous purchase - no matter when you make your purchase. This leaves you with more money to spend on other things.

Section D

- You may choose to pay the full amount within 60 days. In this case, you pay no interest.
- You may spread your payments over a longer period. In this case, interest will be charged after the initial 60-day interest-free period.

Section E

Application is absolutely free! Nor are there any annual fees or administration fees. Just fill in the application form and bring it to your nearest Fabulous Furniture store. Your application will be processed promptly and you can begin making purchases immediately after your application is approved.

Section F

We have stores in every major city, so you're never far away from a Fabulous Furniture store. For our addresses, just check in your local telephone directory.

Questions 1 - 4

Look at the extract from a brochure on the following page. From the list of headings below, choose the most suitable headings for Sections C-F.

1. Section C
2. Section D
3. Section E
4. Section F

List of Headings

- I. Payment options
- II. Save money by not paying interest
- III. Choosing your style of furniture
- IV. Free advice on furnishing your home
- V. Location of stores
- VI. Applying for a card
- VII. Ordering furniture from home
- VIII. A wide range of furniture

General Training Practise Reading 7

STUDENT CLUBS AND SOCIETIES

Desperate to find friends with common interests?
Urgently in need of student contacts around college?
Looking for different cultural and religious experiences?
Wanting some good discussion?
Don't look any further!

JOIN A CLUB OR SOCIETY AND HAVE FUN!

A.....

This club was first started by a group of friends who enjoyed going to the cinema. When our trips became more frequent we realised that there must be others who also shared our love of movies. This club is for those people. Membership gives wide access to other activities like basketball and football as well as barbecues and other social functions. We don't just enjoy movies.

B.....

The association has many opportunities to debate and we are a non-political unbiased international organisation which aims to promote international awareness on campus. We establish links and access to the organisation's agencies and other internationalist organisations and their resources. Our plans this year include discussion groups, guest speakers and to build a model of the UN General Assembly.

C.....

Whether for fun or debating experience, we discuss everything from personal experience, future society or feminism. This year we plan an internal competition, weekly debates and beginners' lessons as well as chances to compete nationally. Whether it be to improve your verbal or social skills the society provides both!

D.....

Want to be a movie star? Then go somewhere else! On the other hand, want to work really hard for great rewards? Then come and join the club where interesting theatre is created. We usually put on three productions each year. So if you like to write, paint, act, direct or do anything in the theatre, come and put your name down with us.

If you are interested in joining any of these clubs, you can leave a message for the President at the CAS Office in the Student Union Building.

And don't forget the CAS Ball is an annual event!

This year it's being held on 22 December!

Questions 1 - 4

Read the notice on the following page about Student Clubs and Societies. The notice has four main paragraphs A-D. Choose the most suitable heading for each paragraph from the list of headings below.

List of Headings

- I. English Society
- II. Education Club
- III. Film Appreciation Society
- IV. Drama Society
- V. Music Club
- VI. Games Society
- VII. Women's Club
- VIII. Debating Club
- IX. United Nations Student Club
- X. Technical Students' Club

1. Paragraph A
2. Paragraph B
3. Paragraph C
4. Paragraph D

Questions 5 and 6

Using NO MORE THAN THREE WORDS, answer the following questions.

5. How do you let the CAS President know you are interested in joining a club?
6. How often is the CAS Ball held?

General Training Practise Reading 8

DINING OUT

Questions 1—7

Look at the three restaurant advertisements on the following page. Answer the questions below by writing the letters of the appropriate restaurants (A—C) in boxes 1-7 on your answer sheet.

1. It is open for breakfast.
2. It is open every night for dinner.
3. It is only open for lunch on weekdays.
4. It has recently returned to its previous location.
5. It welcomes families.
6. It caters for large groups.
7. It only opens at weekends.

Questions 8-13

Read the information given in 'New Electricity Account Payment Facilities' on the following page and look at the statements below (Questions 8-13).

TRUE if the statement is true

FALSE if the statement is false

NOT GIVEN if the information is not given in the passage

8. If you want a receipt, you should send your payment to the Southport address.
9. You may pay your account at branches of the Federal Bank.
10. You must pay the full amount, instalments are not permitted.
11. The Coastside Power Office is open on Saturday mornings.
12. You may pay your account by phone using your credit card.
13. There is a reduction for prompt payment.

NEW ELECTRICITY ACCOUNT PAYMENT FACILITIES

AVAILABLE FROM' JULY 1998

After 1 July 1998, you may pay your electricity account in any of the following ways:

1. Payments via mail:

(A) No receipt required:

Mail payments to: Coastside Power
Locked Bag 2760
Southport NSW 3479

(B) Receipt required:

Mail payments to: Coastside Power
PO Box 560
Northbridge NSW 3472

2. **Agency payments (payments directly to the bank):** Payments can be made at any branch of the Federal Bank by completing the deposit slip attached to your account notice.

NB: This facility is no longer available at South Pacific Bank branches.

3. **Payments directly to Coastside Power Office:** Payments can be made directly to Coastside Power Office at 78-80 Third Avenue, Northbridge. Office hours are Monday to Friday, 8.30 am to 4.30 pm.

Payment may be by personal cheque, bank cheque or cash.

Note: Payments cannot be made by phone.

General Training Practise Reading 9

ROBOTS AT WORK

Questions 1 - 6

The Reading Passage on the following pages has seven paragraphs (A-G). Choose the most suitable headings for paragraphs A-B and D-G from the list of headings below.

NB There are more headings than paragraphs: so you will not use all of them.

List of Headings:

- i Robots working together
- ii Preparing LGVs for take-over
- iii Looking ahead
- iv The LGVs' main functions
- v Split location for newspaper production
- vi Newspapers superseded by technology
- vii Getting the newspaper to the printing centre
- viii Controlling the robots
- ix Beware of robots!

- 1. Paragraph A
- 2. Paragraph B
- 3. Paragraph D
- 4. Paragraph E
- 5. Paragraph F
- 6. Paragraph G

ROBOTS AT WORK

A

The newspaper production process has come a long way from the old days when the paper was written, edited, typeset and ultimately printed in one building with the journalists working on the upper floors and the printing presses going on the ground floor. These days the editor, subeditors and journalists who put the paper together are likely to find themselves in a totally different building or maybe even in a different city. This is the situation which now prevails in Sydney. The daily paper is compiled at the editorial headquarters, known as the prepress centre, in the heart of the city, but printed far away in the suburbs at the printing centre. Here human beings are in the minority as much of the work is done by automated machines controlled by computers.

B

Once the finished newspaper has been created for the next morning's edition, all the pages are transmitted electronically from the prepress centre to the printing centre. The system of transmission is an update on the sophisticated page facsimile system already in use on many other newspapers. An imagesetter at the printing centre delivers the pages as film. Each page takes less than a minute to produce, although for colour pages four versions, once each for black, cyan, magenta and yellow are sent. The pages are then processed into photographic negatives and the film is used to produce aluminium printing plates ready for the presses.

C

A procession of automated vehicles is busy at the new printing centre where the Sydney Morning Herald is printed each day. With lights flashing and warning horns honking, the robots (to give them their correct name, the LGVs or laser guided vehicles) look for all the world like enthusiastic machines from a science fiction movie, as they follow their own random paths around the plant busily getting on with their jobs. Automation of this kind is now standard in all modern newspaper plants. The robots can detect unauthorised personnel and alert security staff immediately if they find an "intruder"; not surprisingly, tall tales are already being told about the machines starting to take on personalities of their own.

D

The robots' principal job, however, is to shift the newsprint (the printing paper) that arrives at the plant in huge reels and emerges at the other end some time later as newspapers. Once the size of the day's paper and the publishing order are determined at head office, the information is punched into the computer and the LGVs are programmed to go about their work. The LGVs collect the appropriate size paper reels and take them where they have to go. When the press needs another reel its computer alerts the LGV system. The Sydney LGVs move busily around the press room fulfilling their two key functions to collect reels of newsprint either from the reel stripping stations, or from the racked supplies in the newsprint storage area. At the stripping station the tough wrapping that helps to protect a reel of paper from rough handling is removed. Any damaged paper is peeled off and the reel is then weighed.

E

Then one of the four paster robots moves in. Specifically designed for the job, it trims the paper neatly and prepares the reel for the press. If required the reel can be loaded directly onto the press; if not needed immediately, an LGV takes it to the storage area. When the press computer calls for a reel, an LGV takes it to the reel loading area of the presses. It lifts the reel into the loading position and places it in the correct spot with complete accuracy. As each reel is used up, the press drops the heavy cardboard core into a waste bin. When the bin is full, another LGV collects it and deposits the cores into a shredder for recycling.

F

The LGVs move at walking speed. Should anyone step in front of one or get too close, sensors stop the vehicle until the path is clear. The company has chosen a laserguide function system for the vehicles because, as the project development manager says "The beauty of it is that if you want to change the routes, you can work out a new route on your computer and lay it down for them to follow". When an LGV's batteries run low, it will take itself off line and go to the nearest battery maintenance point for replacement batteries. And all this is achieved with absolute

minimum human input and a much reduced risk of injury to people working in the printing centres.

G

The question newspaper workers must now ask, however is, “how long will it be before the robots are writing the newspapers as well as running the printing centre, churning out the latest edition every morning?”

Questions 7 – 14

Complete the flow-chart below. Choose **NO MORE THAN THREE WORDS** from the text for each answer.

THE PRODUCTION PROCESS

General Training Practise Reading 10

YOUR MOULEX IRON

A Filling the reservoir

Your iron is designed to function using tap water. However, it will last longer if you use distilled water.

- Always unplug the iron before filling the reservoir.
- Always empty the reservoir after use.

B Temperature and steam control

Your Moulex iron has two buttons which control the intensity of heat produced by the iron. You can, therefore, adjust the temperature of the iron and the amount of steam being given off depending upon the type of fabric being ironed.

- Turn the steam control to the desired intensity.
- Turn the thermostat control to the desired temperature.

Important: If your iron produces droplets of water instead of giving off steam, your temperature control is set too low.

C Spray button

This button activates a jet of cold water which allows you to iron out any unintentional creases. Press the button for one second.

D Pressing button

This button activates a super shot of steam which momentarily gives you an additional 40g of steam when needed.

Important: Do not use this more than five successive times.

E Suits etc.

It is possible to use this iron in a vertical position so that you can remove creases from clothes on coat hangers or from curtains. Turning the thermostat control and the steam button to maximum, hold the iron in a vertical position close to the fabric but without touching it. Hold down the pressing button for a maximum of one second. The steam produced is not always visible but is still able to remove creases.

Important: Hold the iron at a sufficient distance from silk and wool to avoid all risk of scorching. Do not attempt to remove creases from an item of clothing that is being worn, always use a coathanger.

F Auto-clean

In order that your iron does not become furred up, Moulex have integrated an auto-clean system and we advise you to use it very regularly (1-2 times per month).

- Turn the steam control to the off position.
- Fill the reservoir and turn the thermostat control to maximum.
- As soon as the indicator light goes out, unplug the iron and, holding it over the sink, turn the steam control to auto-clean. Any calcium deposits will be washed out by the steam. Continue the procedure until the reservoir is empty.

Questions 1-4

Match the pictures below to the appropriate section in the instructions.

Write the correct letter A-F in boxes 1-4 on your answer sheet.

Questions 5-8

Answer the following questions on the Moulex iron using **NO MORE THAN THREE WORDS**. Write your answers in boxes 5-8 on your answer sheet.

5. What sort of water are you advised to use?
6. What factor makes you decide on the quantity of steam to use?
7. What should you do if your iron starts to drip water?
8. What could damage your iron if you do not clean it?

General Training Practise Reading 11

STUDENT LOANS

The Government has been funding a loans scheme for students in Higher Education since September 1990.

These loans are available as a ‘top up’ to the standard grant. Although the loan is intended to supplement the grant for living costs, eligibility for a student loan is not restricted to those who receive a maintenance grant. The decision whether or not to take the loan is yours.

Eligibility

You are eligible for a student loan if you are a UK resident and are attending a full-time Higher Education course, below postgraduate level, or a Postgraduate Certificate in Education course, provided you start your course before your 50th birthday. Full time courses last at least one academic year and include sandwich courses which combine time at college with time spent in a workplace.

Eligible courses are offered by colleges, universities, the Scottish grant-aided colleges and other publicly funded institutions providing Higher Education courses.

In general, eligible courses include first degree courses or their equivalents and any other courses for which your Local Authority will pay your tuition fees.

Your financial circumstances

Students who want loans are not ‘means tested’ or ‘credit vetted’ - all those eligible will obtain a loan. This means that:

- The amount of your maintenance grant or tuition fees does not matter.
- Other income, if any, is not taken into account.
- Any previous student loans are not taken into account.
- The income of your parents, spouse, partner or other relatives is not taken into account.
- Your previous financial record is not a consideration.

When to apply for a loan

If you would like more information on how to apply for a student loan in readiness for your entry to Higher Education in Autumn 2003, then you should contact The Student Loans Company from June 2003 onwards. Once in Higher Education, you can apply for a loan at any time in the academic year.

Questions 1 - 8

It is possible for some students in Higher Education in Britain to borrow money through a government scheme. These loans are called ‘student loans’ and are described in the passage above.

Read the passage and answer Questions 1 – 8 below.

YES if the answer to the question is ‘yes’

NO if the answer to the questions is ‘no’

NOT GIVEN if the information is not given in the passage

1. I’m taking a month’s cookery course at a local college. It’s a private catering college. I’m going a couple of evenings a week, after work. I get a diploma at the end of it. Can I get some help with a student loan?
2. I’m starting a foundation course in September. It’s full time and after a year I hope to get on to a degree course. The fees for the actual course are being paid for by my Local Authority. Am I eligible for a student loan?
3. I finish my first degree in July. I’ve got a place on a Postgraduate Certificate in Education course to start in September. Will the Local Authority pay the tuition fees for this course?
4. Now all her children are grown up my mother says she’d like to finish the studies she was forced to give up earlier in life. She’s 48 now and her course is full-time for a year. Is she too old to get a student loan?
5. I’ve already been given a small scholarship to cover some of my tuition fees. Can I still get a student loan?
6. I’m actually staying with my aunt while I’m at college. Will the Student Loans Company want to know how much she earns?
7. I owed the bank rather a lot of money a few years ago. It’s all paid back now but they won’t lend me any more. Will this disqualify me from getting a student loan?
8. I took a course a couple of years ago, got a student loan, but had to withdraw half-way through. I’ve kept up all my payments on my loan. Am I eligible for a second loan?

General Training Practise Reading 12

CLUBS FOR STUDENTS

There are a variety of Clubs which provide social and cultural activities for those wishing to meet others with similar interests from the same or from different national backgrounds.

A

Commonwealth Trust Organised discussion meetings, learned talks, cultural events excursions to places of interest and invitations to major British diary events Open to overseas visitors and students.

B

Charles Peguy Centre . French youth centre providing advice, support and information to young Europeans aged between 18-30. Facilities include an information and advice service regarding education, work placement and general welfare rights. Moreover the centre holds a database of jobs, accommodation and au pair placements specifically in London. Members may use a fax machine a copier and computers for CVs.

Hours Monday: 14.00-17.00

Tuesday-Friday: 10.00-17.00

Membership: £35 per year, plus £5 per month.

C

Kensington Committee of Friendship for Overseas Students KCOF is the society for young people from all countries. Each month there are some 40 parties, discos, visits to theatres, concerts, walks and other gatherings where you will be able to meet lots of people. A new programme is sent each month directly to members (£5 to join in October, less later in the year). Events are free or at low often reduced prices. Office open 10.30-17.30 weekdays only.

D

Royal Overseas League .Open 365 days per year, this is a club with facilities in London and Edinburgh with restaurants, bars and accommodation. There are branches around the world and 57 reciprocal clubs world-wide. Quarterly magazine, literary lectures, annual music and art competitions, and summer and winter programme of events for members. Membership fees overseas students aged 17- 24 £47 per year + initial joining fee £23.50; others £70 per year + initial joining fee £35 (half price after July). Further information from the Membership Secretary.

E

YMCA London Central.Facilities include photography art drama, pottery, language courses, badminton, squash, exercise to music, circuit training, sports clinic, fitness testing and other activities. Hours weekdays 07.00-22.30, weekends 10.00-21.00. Membership fees: aged 16-17 £25 per year plus attendance charge of £1 30 per visit; aged 18-19 £213 per year; aged 20- 25 £366 per year

F

London Inter-Varsity Club (IVC)

IVC is an activities and social club with a varied range of events, from cycling and drama to windsurfing and yoga. Most members are young English professionals, but overseas visitors are welcome. The club arranges restaurant meals, dancing and parties, weekends away around Britain,

plus a weekly club night in a Covent Garden bar. There are usually over 25 different events every week run by IVG members for IVC members. To find out more, telephone the club or write (Freepost) to the office.

G

Central Club

Provides accommodation and club facilities. No membership fee. Coffee shop open for all meals swimming pool (open 06.00), multigym, hairdressing salon.

Questions 1-7

Look at the article Clubs for Students. Which club would you contact for each of the requirements below? Write the appropriate letter A-G for the questions below.

You may use each letter more than once.

1. You would like to take Spanish classes.
2. You want to join a club that has international branches.
3. You would like an opportunity to speak in public.
4. You would like to take part in amateur theatrical productions.
5. You want to visit some famous sites with a group of other students.
6. You are interested in finding out about part-time work.
7. You want to meet some English people who have started their careers.

General Training Practise Reading 13

GOING DIGITAL

[Electronic libraries will make today's Internet pale by comparison. But building them will not be easy.]

All over the world, libraries have begun the Herculean task of making faithful digital copies of the books, images and recordings that preserve the intellectual effort of humankind. For armchair scholars, the work promises to bring such a wealth of information to the desktop that the present Internet may seem amateurish in retrospect....

Librarians see three clear benefits to going digital. First, it helps them preserve rare and fragile objects without denying access to those who wish to study them. The British Library, for example, holds the only medieval manuscript of Beowulf in London. Only qualified scholars were allowed to see it until Kevin S. Kiernan of the University of Kentucky scanned the manuscript with three different light sources (revealing details not normally apparent to the naked eye) and put the images up on the Internet for anyone to peruse. Tokyo's National Diet Library is similarly creating highly detailed digital photographs of 1,236 woodblock prints, scrolls and other materials it considers national treasures so that researchers can scrutinise them without handling the originals.

A second benefit is convenience. Once books are converted to digital form, patrons can retrieve them in seconds rather than minutes. Several people can simultaneously read the same book or view the same picture. Clerks are spared the chore of reshelving. And libraries could conceivably use the Internet to lend their virtual collections to those who are unable to visit in person. The third advantage of electronic copies is that they occupy millimeters of space on a magnetic disk rather than meters on a shelf. Expanding library buildings is increasingly costly. The University of California at Berkeley recently spent \$46 million on an underground addition to house 1.5 million books - an average cost of \$30 per volume. The price of disk storage, in contrast, has fallen to about \$2 per 300-page publication and continues to drop.

Questions 1 - 3

Which THREE of the following are mentioned in the text as benefits of going digital?

- A. More people can see precious documents.
- B. Old manuscripts can be moved more easily.
- C. Material can be examined without being touched.
- D. Fewer staff will be required in libraries.
- E. Borrowers need not go to the library building.
- F. Libraries will be able to move underground.

General Training Practise Reading 14

FIRST IMPRESSIONS COUNT

A Traditionally uniforms were — and for some industries still are — manufactured to protect the worker. When they were first designed, it is also likely that all uniforms made symbolic sense - those for the military, for example, were originally intended to impress and even terrify the enemy; other uniforms denoted a hierarchy - chefs wore white because they worked with flour, but the main chef wore a black hat to show he supervised.

B The last 30 years, however, have seen an increasing emphasis on their role in projecting the image of an organisation and in uniting the workforce into a homogeneous unit — particularly in ‘customer facing’ industries, and especially in financial services and retailing. From uniforms and workwear has emerged ‘corporate clothing’. “The people you employ are your ambassadors,” says Peter Griffin, managing director of a major retailer in the UK. “What they say, how they look, and how they behave is terribly important.” The result is a new way of looking at corporate workwear. From being a simple means of identifying who is a member of staff, the uniform is emerging as a new channel of marketing communication.

C Truly effective marketing through visual cues such as uniforms is a subtle art, however. Wittingly or unwittingly, how we look sends all sorts of powerful subliminal messages to other people. Dark colours give an aura of authority while lighter pastel shades suggest approachability. Certain dress style creates a sense of conservatism, others a sense of openness to new ideas. Neatness can suggest efficiency but, if it is overdone, it can spill over and indicate an obsession with power. “If the company is selling quality, then it must have quality uniforms. If it is selling style, its uniforms must be stylish. If it wants to appear innovative, everybody can’t look exactly the same. Subliminally we see all these things,” says Lynn Elvy, a director of image consultants House of Colour.

D But translating corporate philosophies into the right mix of colour, style, degree of branding and uniformity can be a fraught process. And it is not always successful. According to Company Clothing magazine, there are 1000 companies supplying the workwear and corporate clothing market. Of these, 22 account for 85% of total sales - £380 million in 1994.

E A successful uniform needs to balance two key sets of needs. On the one hand, no uniform will work if staff feel uncomfortable or ugly. Giving the wearers a choice has become a key element in the way corporate clothing is introduced and managed. On the other, it is pointless if the look doesn’t express the business’s marketing strategy. The greatest challenge in this respect is time. When it comes to human perceptions, first impressions count. Customers will size up the way staff look in just a few seconds, and that few seconds will colour their attitudes from then on. Those few seconds can be so important that big companies are prepared to invest years, and millions of pounds, getting them right.

F In addition, some uniform companies also offer rental services. “There will be an increasing specialisation in the marketplace,” predicts Mr Blyth, Customer Services Manager of a large UK

bank. The past two or three years have seen consolidation. Increasingly, the big suppliers are becoming ‘managing agents’, which means they offer a total service to put together the whole complex operation of a company’s corporate clothing package - which includes reliable sourcing, managing the inventory, budget control and distribution to either central locations or to each staff member individually. Huge investments have been made in new systems, information technology and amassing quality assurance accreditations.

G Corporate clothing does have potential for further growth. Some banks have yet to introduce a full corporate look; police forces are researching a complete new look for the 21st century. And many employees now welcome a company wardrobe. A recent survey of staff found that 90 per cent welcomed having clothing which reflected the corporate identity.

Questions 1 - 6

The passage "First Impressions" Count has seven paragraphs A—G.

Which paragraphs discuss the following points?

Write the appropriate letters A-G next to the question.

1. Different types of purchasing agreement
2. The original purposes of uniforms
3. The popularity rating of staff uniforms
4. Involving employees in the selection of a uniform
5. The changing significance of company uniforms
6. Perceptions of different types of dress

Questions 34-40

Do the following statements agree with the views of the writer of the passage?

YES if the statement agrees with the writer’s views
NO if the statement contradicts the writer’s views
NOT GIVEN if it is impossible to say what the writer thinks about this

7. Uniforms were more carefully made in the past than they are today.
8. Uniforms make employees feel part of a team.
9. Using uniforms as a marketing tool requires great care.
10. Being too smart could have a negative impact on customers.
11. Most businesses that supply company clothing are successful.
12. Uniforms are best selected by marketing consultants.
13. Clothing companies are planning to offer financial services in the future.

General Training Practise Reading 15

MAIL ORDER BROCHURE

Want some great clothing ideas for your family?

Our key for clothing specials in July:

M for men W for women C for children

For under \$10

Cotton socks C - made of pure cotton for long wearing

Woollen socks C - to keep young feet warm in winter

Sports socks M - to go with jeans and other casual clothes

Patterned belts W - to go with jeans and other casual clothes

For under \$25

Cotton shirts W - for day and evening wear

Silk shirts M - five sizes, in designer colours, for that special social occasion

T shirts C - hard-wearing, white with a variety of animal motifs

Colour T-shirts M W - cotton and polyester blend, plain colours, no ironing

For under \$50

Blue jeans M W - non-shrink, colourfast, small sizes only

Silk shirts M W - plain and patterned, all sizes

Hooded jacket C - protects from the wind, 4 sizes, large strong pockets

Jacket W - waterproof with zipper front, all sizes

• Or you can buy a gift voucher so that someone else can choose. These come in \$10, \$20 and \$50 amounts.

Additional monthly specials for July to September

July - \$10 voucher with any purchase over \$60

August - Travel alarm clock worth \$19.95 free with purchases of \$80 or more!

September - Children's backpacks. Free with any credit card purchase over \$75!

Note: Postage and packing charges

These are applied to each order as follows:

Within Australia:

\$7.95 per address, regular post

\$17.95 for Express Delivery Service (overnight)

Overseas:

Surface Mail (allow a minimum of two months for delivery)

Airmail (allow around two weeks delivery to most destinations)

Questions 1-7

Do the following statements agree with the information given in the text.

TRUE if the statement agrees with the information

FALSE if the statement contradicts the information

NOT GIVEN if there is no information on this

1. Women's cotton socks cost less than men's.
2. Men's silk shirts are available in more than five colours.
3. Children's 7-shirts come in a variety of colours.
4. The child's jacket has four pockets.
5. If you buy clothes worth \$80 in August, you will receive a free alarm clock.
6. The charge for special next-day delivery in Australia is \$7.95.
7. All clothing is guaranteed to arrive within two months.

New Book Releases

A This book describes the creativity of Aboriginal people living in the driest parts of Australia. Stunning reproductions of paintings, beautiful photography and informative text.

B Pocket-sized maps and illustrations with detailed information on the nesting sites and migration patterns of Australia. This is a classic booklet suitable for both beginner and expert.

C Packed full of information for the avid hiker, this book is a must. Photographs, maps and practical advice will guide your journeys on foot through the forests of the southern continent.

D More than-an atlas - this book contains maps, photographs and an abundance of information on the land and climate of countries from around the globe.

E Australia's premier mountain biking guidebook - taking you through a host of national parks and state forests.

F Here's the A-Z of Australian native animals - take an in-depth look at their lives and characteristics, through fantastic photographs and informative text.

G Graphic artists have worked with researchers and scientists to illustrate how these prehistoric animals lived and died on the Australian continent.

H A definitive handbook on outdoor safety - with a specific focus on equipment, nutrition, first aid, special clothing and bush skills.

I Detailed guides to 15 scenic car tours that will take you onto fascinating wilderness tracks and along routes that you could otherwise have missed.

Questions 1 - 7

The list of New Book Releases on the following page has nine book descriptions A-I.

Choose the correct title for each book from the list of book titles below

1. Book A
2. Book B
3. Book C
4. Book E
5. Book F
6. Book G
7. Book H

List of Book Titles

- i.** Field Guide to Native Birds of Australia
- ii.** The Bush on Two Wheels: 100 Top Rides
- iii.** Bush Foods of Australian Aborigines
- iv.** A Pictorial History of the Dinosaur in Australia
- v.** Bush walking in Australia
- vi.** World Geographica
- vii.** Driving Adventures for 4-wheel-drive Vehicles
- viii.** Survival Techniques in the Wild
- ix.** Encyclopaedia of Australian Wildlife
- x.** Guide to the Art of the Australian Desert
- xi.** Field Guide to Animals of the World

WORK & TRAVEL USA

Do you want to have the best summer holiday ever?

Have you just graduated and want to escape for a unique experience abroad?

Only \$1950 will make It all happen!

This unbeatable program fee includes:

- return flight from Sydney to Los Angeles (onward travel in USA not included)
- 3 months' insurance cover
- 2 nights' accommodation on arrival plus meet and greet and airport transfer
- arrival orientation by experienced InterExchange staff
- visa application fees

You also have:

- access to a J1 visa enabling you to work in the USA
- an extensive directory of employers
- InterExchange support throughout the program
- 24-hour emergency support throughout the length of the program

Call toll-free 1800 678 738

InterExchange has 50 years' experience in international student exchange programs. 18,000 students from around the world travel yearly to the USA on this very program. InterExchange can also offer you work opportunities in other countries.

WHAT IS INTEREXCHANGE?

InterExchange, one of the world's leading operators of international exchange programs and related services:

- is a non-profit, non-governmental organisation
- has 700 professional staff in 30 countries worldwide
- was founded in 1947

InterExchange operates these programs for students all around the world. It offers you trained and travelled staff, plus full support during the application process. You can choose any job that interests you anywhere in the USA, whether that is working in a law firm in Boston, a famous ski resort in Colorado or serving coffee and doughnuts in the buzzing streets of New York. You can

select the period you work and the period you travel; you may want to work for 1 month and travel for 3, or work the entire duration of your stay. The choice is yours.

YOU CAN TAKE UP THIS OPPORTUNITY IF YOU ARE:

- a full-time student at an Australian university or TAFE college
- presently enrolled, or finishing this year, or you have deferred a year of study
- over 18 years old by November in the academic year in which you apply to InterExchange
- enthusiastic about the experience of a lifetime ...

Sign up now!!

Questions 1-6

Do the following statements agree with the information given in the advertisement.

In boxes 15-20 on your answer sheet, write

TRUE if the statement agrees with the information

FALSE if the statement contradicts the information

NOT GIVEN if there is no information on this

1. The program cost includes internal flights within the USA.
2. Emergency assistance offered in the program includes legal advice.
3. InterExchange offers similar programs in countries other than the USA.
4. InterExchange is part of a government program.
5. There are no restrictions on the type of job you can do.
6. There is an upper age limit for applicants.

CONTENTS: ARTHUR PHILLIP COLLEGE

A about Arthur Phillip College	B entry requirements
C orientation for new students	D academic counselling service
E credit courses to university	F assistance for international students
G learning methods	H course fees
I study commitment	J assessment and results
K social activities and clubs	L what's new

Questions 7 - 13

Each of the short paragraphs below (21-27) gives information about Arthur Phillip College. Read each paragraph and choose which of the linked sections of the website, A-L, would contain this information.

- All students receive a transcript of results and relevant award documentation when they end their studies with the College.
- On enrolment, all students receive automatic membership to the Social Club and Public Speaking Club. Students may choose to participate in any arranged activities. The College encourages and promotes interaction between students and teaching and non-teaching staff.
- Successful completion and the achievement of an A or B result in some courses will enable students to achieve advanced standing in these subjects if they proceed to university study. For a list of the courses acceptable to a particular university, a-mail us your request with the name of the university and the course you are interested in.
- Arthur Phillip College is one of the top business colleges in Sydney, Australia. The College offers a wide range of educational and training programs in business and related areas. Its accredited vocational training courses are designed to meet the needs of individual students and industry.
- At Arthur Phillip College you will learn from lectures, seminars, case studies, group projects, individual assignments and class workshops. Lectures and seminars present concepts and ideas and provide for question-and-answer sessions. Students are expected to take an active role in the learning process through class participation, presentations and projects.
- Courses at Arthur Phillip College involve an average of 25 hours per week of tuition time, with supervised group study accounting for a further 5 hours per week. At least 10 hours per week of individual study is also recommended for most courses.
- During this program you will meet the Director of Studies, teachers and key administrative staff such as the Accommodation Officer and Student Counsellor so that, right from your first day, you will know how each of them can help you during your time at the College.

General Training Reading Sample 18

THE LACK OF SLEEP

Section A

It is estimated that the average man or woman needs between seven-and-a-half and eight hours' sleep a night. Some can manage on a lot less. Baroness Thatcher, for example, was reported to be able to get by on four hours' sleep a night when she was Prime Minister of Britain. Dr Jill Wilkinson, senior lecturer in psychology at Surrey University and co-author of 'Psychology in Counselling and Therapeutic Practice', states that healthy individuals sleeping less than five hours or even as little as two hours in every 24 hours are rare, but represent a sizeable minority.

Section B

The latest beliefs are that the main purposes of sleep are to enable the body to rest and replenish, allowing time for repairs to take place and for tissue to be regenerated. One supporting piece of evidence for this rest-and-repair theory is that production of the growth hormone somatotropin, which helps tissue to regenerate, peaks while we are asleep. Lack of sleep, however, can compromise the immune system, muddle thinking, cause depression, promote anxiety and encourage irritability.

Section C

Researchers in San Diego deprived a group of men of sleep between 8pm and 6am on just one night, and found that levels of their bodies' natural defences against viral infections had fallen significantly when measured the following morning. 'Sleep is essential for our physical and emotional well-being and there are few aspects of daily living that are not disrupted by the lack of it', says Professor William Regelson of Virginia University, a specialist in insomnia. 'Because it can seriously undermine the functioning of the immune system, sufferers are vulnerable to infection.'

Section D

For many people, lack of sleep is rarely a matter of choice. Some have problems getting to sleep, others with staying asleep until the morning. Despite popular belief that sleep is one long event, research shows that, in an average night, there are five stages of sleep and four cycles, during which the sequence of stages is repeated.

In the first light phase, the heart rate and blood pressure go down and the muscles relax. In the next two stages, sleep gets progressively deeper. In stage four, usually reached after an hour, the slumber is so deep that, if awoken, the sleeper would be confused and disorientated. It is in this phase that sleep-walking can occur, with an average episode lasting no more than 15 minutes. In the fifth stage, the rapid eye movement (REM) stage, the heartbeat quickly gets back to normal levels, brain activity accelerates to daytime heights and above and the eyes move constantly beneath closed lids as if the sleeper is looking at something. During this stage, the body is almost paralysed. This REM phase is also the time when we dream.

Section E

Sleeping patterns change with age, which is why many people over 60 develop insomnia. In America, that age group consumes almost half the sleep medication on the market. One theory for the age-related change is that it is due to hormonal changes. The temperature General Training: Reading and Writing rise occurs at daybreak in the young, but at three or four in the morning in the elderly. Age aside, it is estimated that roughly one in three people suffer some kind of sleep disturbance. Causes can be anything from pregnancy and stress to alcohol and heart disease. Smoking is a known handicap to sleep, with one survey showing that ex-smokers got to sleep in 18 minutes rather than their earlier average of 52 minutes.

Section F

Apart from self-help therapy such as regular exercise, there are psychological treatments, including relaxation training and therapy aimed at getting rid of pre-sleep worries and anxieties. There is also sleep reduction therapy, where the aim is to improve sleep quality by strictly regulating the time people go to bed and when they get up. Medication is regarded by many as a last resort and often takes the form of sleeping pills, normally benzodiazepines, which are minor tranquillisers.

Section G

Professor Regelson advocates the use of melatonin for treating sleep disorders. Melatonin is a naturally secreted hormone, located in the pineal gland deep inside the brain. The main function of the hormone is to control the body's biological clock, so we know when to sleep and when to wake. The gland detects light reaching it through the eye; when there is no light, it secretes the melatonin into the bloodstream, lowering the body temperature and helping to induce sleep. Melatonin pills contain a synthetic version of the hormone and are commonly used for jet lag as well as for sleep disturbance. John Nicholls, sales manager of one of America's largest health food shops, claims that sales of the pill have increased dramatically. He explains that it is sold in capsules, tablets, lozenges and mixed with herbs. It is not effective for all insomniacs, but many users have weaned themselves off sleeping tablets as a result of its application.

Questions 1 - 8

The passage has seven sections labelled A-G. Which section contains the following information?
Write the correct letter A-G next to the question no.

NB You may use any letter more than once.

1. The different amounts of sleep that people require
2. An investigation into the results of sleep deprivation
3. Some reasons why people may suffer from sleep disorders
4. Lifestyle changes which can help overcome sleep-related problems
5. A process by which sleep helps us to remain mentally and physically healthy
6. Claims about a commercialised man-made product for sleeplessness
7. The role of physical changes in sleeping habits
8. The processes involved during sleep

Questions 9 - 13

Do the following statements agree with the information given in the passage.

T if the statement agrees with the information

F if the statement contradicts the information

NG if there is no information on this

9. Sleep can cure some illnesses.
10. The various stages of sleep occur more than once a night.
11. Dreaming and sleep-walking occur at similar stages of sleep.
12. Sleepers move around a lot during the REM stage of sleep.
13. The body temperature rises relatively early in elderly people.

General Training Reading Sample 19

WESTLEY BUSINESS SCHOOL

Preparation Courses for Students

80% of the students who take our courses are mature students who have not done any formal study for several years. Many of the courses at the Westley Business School require a good knowledge of various skills. If you feel you need some extra preparation before your course, look below and see if any of our preparation courses suit your needs. All courses take place in August and for enrolled students, all the courses listed below are free.

Course 1: STATISTICS

A grounding in statistics is a must for any prospective business student. This is a one week course (Mon - Fri) consisting of 1 lecture every night. The tutor will ensure that by the end of the course, you will have had a thorough introduction to all the statistical skills that you will need to start your course at Westley Business School. Each lecture runs from 6pm to 9pm.

Course 2: ESSAY WRITING

This is a self-study pack containing guidance, practice and tests. At the end of the course (it should take about 10 hours of self-study) you will receive a 1 hour tutorial with the essay writing tutor who will go over your work with you.

Course 3: BASIC MATHS

This is a one-off lecture of 3 hours aimed at reviewing all the basic maths that you will vaguely remember from school! This course is run on a “first come, first served” basis and there are only 20 places (every Monday in August from 5.45pm - 8.45pm) so don't be late.

Course 4: COMPUTING

This 2 week course (Mon - Fri 6.30pm - 8.30pm) will give students all the basic computer skills that they will need for their courses at Westley Business School. There are 2 courses running concurrently with only 10 PLACES in each so book early!

NB unless otherwise stated, you must book in advance for these courses at the westley business school reception.

Questions 1 - 5

Read the Information Notice concerning Preparation Courses for students at the Westley Business School. Using **NO MORE THAN THREE WORDS**, answer the following questions.

1. Which course is mostly without a teacher?
2. On which course can you **NOT** pre-book a place?
3. How many hours does Course 1 take?
4. How many places are there every week for students who want to study computers?
5. Which course takes place only on one day in a specified week?

Questions 6 - 8

Do the following statements agree with the views of the writer of the Information Notice concerning Preparation Courses for students at the Westley Business School?

YES if the statement agrees with the writer

NO if the statement doesn't agree with the writer

NOT GIVEN if it is impossible to say what the writer thinks about this

1. Students registered at Westley Business College don't have to pay for the preparation course.
2. Most students at Westley Business School are older than the average student.
3. All courses are held in the Westley Business School main building.

General Training Reading Sample 20

LONG-HAUL FLIGHTS GET LONGER

Long-haul flights have just got longer, with a non-stop flight from Singapore to New York now in operation. But 18 hours in the air creates its own challenges. A lot of preparation goes into the ultra long haul flight. The aircraft is specifically designed for the journey with more space and extensive entertainment services. The flight crew are also specially trained.

The seasoned traveller is also more aware of the health risks associated with a flight that covers as much as 16,600-kilometers (10,310-miles) in distance. Exposure to lower oxygen levels for up to 18, maybe 20, hours is abnormal for the human body. With deep vein thrombosis (DVT) the problem really starts occurring after 12 hours (in-flight). This could lead to an increase in heart attacks.

Doctors believe prevention is better than cure when it comes to in-flight health. Passengers on ultra long range flights need to be provided with flight socks and, if necessary, tablets for thinning the blood. It is not just the health and vitality of the passenger that is at stake on a flight of this length, but also that of the flight crew. "They give us training on fatigue management and how to adjust to the local time in New York and to exercise, as well as take care our diet and eat lightly in-flight," says Linda Wu, a stewardess on Singapore Airlines.

However, passengers are trading in health concerns for convenience. An extra- long flight means passengers do not need to break up their journey and change planes. "They like to board once, de-plane once. It is saving time," says James Williams from Singapore Airlines.

"From Los Angeles to Singapore, passengers are saving two and a half hours. And to New York passengers are saving up to four hours in flying time." Thai Airways is also launching a non-stop service to New York from Bangkok next June to compete with Singapore Airlines. It is planning a similar service to Chicago. Cathay Pacific, Continental, Qantas and Emirates Airlines also offer flights that are more than 14 hours in duration. However, there is still a question of whether longer non-stop flights will become popular. "They will certainly have a role in the future of aviation, there is no doubt about it. People will prefer to fly non-stop if it is available," says Chris Johnson, an airline analyst. "But we are reaching the limits. These markets are at the very margin of aviation. Most airlines still fly in the eight to 12-hour sector. This is still where the biggest volume in traffic is." Avery believes that geography will determine the demand for the ultra long-haul flight and that worldwide appeal for this type of flight is unlikely. "Asia is where the demand is for the ultra long-haul flight. They are connecting Asian cities to the U.S. East Coast, which is the big market," he explains. "The routes that connect most places that European business travellers go do not need a capacity and endurance to fly 18-hours -- this is the same for U.S. carriers."

Questions 1 – 5

Read the question and choose the correct option A, B or C.

1. Why are longer flights potentially harmful to passengers and crew?
 - a) Because there isn't as much oxygen in the air.
 - b) People will get bored
 - c) Long periods of inactivity will damage their bones

2. What are flight socks?
 - a) special socks to keep the plane free of harmful bacteria
 - b) one of the preventive measures planned by airlines
 - c) socks that stop your blood getting too thin

3. Which of the following methods of countering the health problems caused by long flights is NOT mentioned?
 - a) how best to cope with jet lag
 - b) advice on food consumption during a flight
 - c) advice on drinking alcohol

4. What are the advantages of longer flights?
 - a) There are less problems with jet lag
 - b) passengers save time
 - c) passengers get a good break between flights

5. Where is the market for longer flights expected to develop?
 - a) between Europe and America
 - b) between Asia and America
 - c) between Asia and Europe

General Training Reading Sample 21

WIND POWER IN THE US

Prompted by the oil crises of the 1970s, a wind-power industry flourished briefly in the United States. But then world oil prices dropped, and funding for research into renewable energy was cut. By the mid 1980s US interest in wind energy as a large-scale source of energy had almost disappeared. The development of wind power at this time suffered not only from badly designed equipment, but also from poor long-term planning, economic projections that were too optimistic and the difficulty of finding suitable locations for the wind turbines.

Only now are technological advances beginning to offer hope that wind power will come to be accepted as a reliable and important source of electricity. There have been significant successes in California, in particular, where wind farms now have a capacity of 1500 megawatts, comparable to a large nuclear or fossil-fuelled power station, and produce 1.5 per cent of the state's electricity.

Nevertheless, in the US, the image of wind power is still distorted by early failures. One of the most persistent criticisms is that wind power is not a significant energy resource. Researchers at the Battelle Northwest Laboratory, however, estimate that today wind turbine technology could supply 20 per cent of the electrical power the country needs. As a local resource, wind power has even greater potential. Minnesota's energy commission calculates that a wind farm on one of the state's south western ridges could supply almost all that state's electricity. North Dakota alone has enough sites suitable for wind farms to supply more than a third of all electricity consumed in the continental US.

The prevailing notion that wind power is too costly results largely from early research which focused on turbines with huge blades that stood hundreds of metres tall. These machines were not designed for ease of production or maintenance, and they were enormously expensive. Because the major factors influencing the overall cost of wind power are the cost of the turbine and its supporting systems, including land, as well as operating and maintenance costs, it is hardly surprising that it was thought at the time that wind energy could not be supplied at a commercially competitive price. More recent developments such as those seen on California wind farms have dramatically changed the economic picture for wind energy. These systems, like installations in Hawaii and several European countries, have benefited from the economies of scale that come through standardised manufacturing and purchasing. The result has been a dramatic drop in capital costs: the installed cost of new wind turbines stood at \$1000 per kilowatt in 1993, down from about \$4000 per kilowatt in 1980, and continues to fall. Design improvements and more efficient maintenance programs for large numbers of turbines have reduced operating costs as well. The cost of electricity delivered by wind farm turbines has decreased from about 30 cents per kilowatt-hour to between 7 and 9 cents, which is generally less than the cost of electricity from conventional power stations. Reliability has also improved dramatically. The latest turbines run more than 95 per cent of the time, compared with around 60 per cent in the early 1980s. Another misconception is that improved designs are needed to make wind power feasible. Out of the numerous wind turbine designs proposed or built by inventors or developers, the propeller-

blade type, which is based on detailed analytical models as well as extensive experimental data, has emerged as predominant among the more than 20,000 machines now in commercial operation world-wide.

Like the gas-driven turbines that power jet aircraft, these are sophisticated pieces of rotating machinery. They are already highly efficient, and there is no reason to believe that other configurations will produce major benefits. Like other ways of generating electricity, wind power does not leave the environment entirely unharmed. There are many potential problems, ranging from interference with telecommunications to impact on wildlife and natural habitats. But these effects must be balanced against those associated with other forms of electricity generation. Conventional power stations impose hidden costs on society, such as the control of air pollution, the management of nuclear waste and global warming. As wind power has been ignored in the US over the past few years, expertise and commercial exploitation in the field have shifted to Europe. The European Union spends 10 times as much as the US government on research and development of wind energy. It estimates that at least 10 per cent of Europe's electrical power could be supplied by land-based wind-turbines using current technology. Indeed, according to the American Wind Energy Association, an independent organisation based in Washington, Denmark, Britain, Spain and the Netherlands will each surpass the US in the generating capacity of wind turbines installed during the rest of the decade.

Questions 1 - 4

Read the question and choose the correct option A, B or C.

1. Which one of the statements is true?
 - a) Cost was a big factor in preventing the development of wind power
 - b) Wind power has developed steadily since the 1970s.
 - c) Wind power can provide enough electricity for the United States
 - d) Some US states are powered solely by wind
2. What is the general view of wind energy in the United States?
 - a) very positive
 - b) it can only provide small amounts of energy
 - c) it will reduce global warming
 - d) very negative
3. Which of these factors has not contributed to the reduced cost of wind energy?
 - a) state subsidies
 - b) economies of scale
 - c) standardisation of design
 - d) more efficient maintenance
4. Wind turbine designs ...
 - a) are already very good
 - b) are expected to improve in the future
 - c) will be much more efficient in the future
 - d) are good for the environment

General Training Reading Sample 22

Read the following passage and then answer the questions below.

THE SHOCK OF THE TRUTH

A Throughout history, there have been instances in which people have been unwilling to accept new theories, despite startling evidence. This was certainly the case when Copernicus published his theory - that the earth was not the centre of the universe.

B Until the early 16th century, western thinkers believed the theory put forward by Ptolemy, an Egyptian living in Alexandria in about 150 A.D. His theory, which was formulated by gathering and organizing the thoughts of the earlier thinkers, proposed that the universe was a closed space bounded by a spherical envelope beyond which there was nothing. The earth, according to Ptolemy, was a fixed and immobile mass, located at the centre of the universe. The sun and the stars, revolved around it.

C The theory appealed to human nature. Someone making casual observations as they looked into the sky might come to a similar conclusion. It also fed the human ego. Humans could believe that they were at the centre of God's universe, and the sun and stars were created for their benefit.

D Ptolemy's theory, was of course, incorrect, but at the time nobody contested it. European astronomers were more inclined to save face. Instead of proposing new ideas, they attempted to patch up and refine Ptolemy's flawed model. Students were taught using a book called The Sphere which had been written two hundred years previously. In short, astronomy failed to advance.

E In 1530, however, MikolajKopernik, more commonly known as Copernicus, made an assertion which shook the world. He proposed that the earth turned on its axis once per day, and travelled around the sun once per year. Even when he made his discovery, he was reluctant to make it public, knowing how much his shocking revelations would disturb the church. However, George Rheticus, a German mathematics professor who had become Copernicus's student, convinced Copernicus to publish his ideas, even though Copernicus, a perfectionist, was never satisfied that his observations were complete.

F Copernicus's ideas went against all the political and religious beliefs of the time. Humans, it was believed, were made in God's image, and were superior to all creatures. The natural world had been created for humans to exploit. Copernicus's theories contradicted the ideas of all the powerful churchmen of the time. Even the famous playwright William Shakespeare feared the new theory, pronouncing that it would destroy social order and bring chaos to the world. However, Copernicus never had to suffer at the hands of those who disagreed with his theories. He died just after the work was published in 1543.

G However, the scientists who followed in Copernicus's footsteps bore the brunt of the church's anger. Two other Italian scientists of the time, Galileo and Bruno, agreed wholeheartedly with the Copernican theory. Bruno even dared to say that space was endless and contained many other suns, each with its own planets. For this, Bruno was sentenced to death by burning in 1600. Galileo, famous for his construction of the telescope, was forced to deny his belief in the Copernican theories. He escaped capital punishment, but was imprisoned for the rest of his life.

H In time however, Copernicus's work became more accepted. Subsequent scientists and mathematicians such as Brahe, Kepler and Newton took Copernicus's work as a starting point and used it to glean further truths about the laws of celestial mechanics.

I The most important aspect of Copernicus' work is that it forever changed the place of man in the cosmos. With Copernicus' work, man could no longer take that premier position which the theologians had immodestly assigned him. This was the first, but certainly not the last time in which man would have to accept his position as a mere part of the universe, not at the centre of it.

Questions 1 - 7

The text has nine paragraphs, A-I. Which paragraph contains the following information?

1. The public's reaction to the new theory
2. An ancient belief about the position of the earth
3. Copernicus's legacy to the future of science
4. How academics built on Copernican ideas
5. An idea which is attractive to humans
6. Out-dated teaching and defective research
7. Scientists suffer for their beliefs

Questions 8 - 13

Look at the following statements and the list of people below. Match each statement with the correct person.

List of People

Ptolemy
George Rheticus
William Shakespeare
Galileo
Bruno
Newton

8. He, among others, used Copernicus's theories to advance scientific knowledge.
9. He proposed an inaccurate theory based on the work of early philosophers.
10. His attitude to the new theory was similar to that of the Church.
11. He was killed because of his belief in the new theory.
12. He was responsible for Copernicus's ideas being made public.
13. He had to go to jail because he believed in the new theory.

General Training Reading Sample 23

BORDER REGULATIONS AND VISA APPLICATIONS

If you wish to come to the United Kingdom, either as a visitor or a student, you may need to apply for a visa. Visas vary according to your age, the length of your stay and your level of English study.

The following visa types are available:

- A. Child Student
- B. Child Visitor
- C. Adult Student
- D. Student Visitor
- E. Prospective Student

The UK operates a points-based system which will decide whether or not you can apply for a visa. You need 40 points in order to apply for a visa. You will obtain 30 points if you have confirmation from the college, university or school that you have been accepted on a course. Your chosen place of studies must be registered on the UK Border Agency list of sponsors. You can obtain a list by clicking on the link below.

You will need to earn a further 10 by demonstrating that you cover the cost of your study fees and living costs. In doing so, you can rest assured that you will avoid financial difficulties while you are studying.

If you wish to extend your study experience in the UK, you will need to pass a further points-based assessment to ensure that you have been accepted on another course and that you can afford to pay the fees and living costs.

To make your UK study experience even richer, you may be eligible for a work and study visa. Getting a job while you are studying can improve your language skills and enhance your CV by showing that you are flexible, team-oriented and well-organised. You will also be able to get a reference from your employer which will help you gain employment in the future. Before accepting a job, you must find out whether your visa allows you to work in the UK, and the maximum number of hours you can work each week from the UK Border Agency. Most UK places of study have a career service which will help you to access job listings, write a CV or application form and prepare for a job interview.

To work in the UK you will need a National Insurance number. This number is used to deduct money from your earnings to fund benefits for the unemployed, incapacitated and retired. To obtain a national insurance number, you will need to attend an interview. You can make an appointment for an interview by calling 0845 600 0643 during usual office hours. You will need to take proof of identity, proof of your right to work in the UK and written proof of your job offer.

You may start work before your number is issued as long as your employer deducts the appropriate national insurance contributions from your pay.

Question 1- 5

Each of the short paragraphs below gives information about the five types of visa A-E. Read each paragraph and choose which of the five links would contain this information. There is one paragraph that you do not need.

1. Child Student
2. Child Visitor
3. Adult Student
4. Student Visitor
5. Prospective Student

Paragraph i. If you have already completed a course of study in the UK and do not intend to study further, you can apply for this visa to extend your stay. This visa allows you to work in the UK for a further 6 months.

Paragraph ii. If you are under the age of 17 and wish to study for less than six months, you can apply for this visa. If you wish to extend your course of study, you may not swap to a student visa while you are in the UK. You must return to your home country and do so there.

Paragraph iii. Students in post-16 education can apply for this visa. This visa is suitable for students attending courses for over six months. Holders of this visa may be eligible to work in the UK.

Paragraph iv. Students over the age of 18 who wish to study for up to six months can apply for this visa. This visa does not allow students to work in the UK. Students may only extend their visa or switch to a student visa by returning to their home country.

Paragraph v. You can apply for this visa if you are between the ages of 4 and 15 and intend to attend a full-time, fee-paying independent school for a period of over six months or more. 16 and 17 year olds may attend part-time, fee-paying establishments.

Paragraph vi. If you want to come to the UK before choosing your course of study, you can apply for this visa. You will need to start your course within 6 months of arrival. You may switch to an adult or child student visa while in the UK without returning to your home country.

Question 6- 11

Choose the correct answer a, b, or c .

6. You can obtain 30 points towards your visa if...
 - a) You have already paid your school or college fees.
 - b) You have been accepted onto a course of study..
 - c) You have proof that you can cover your study fees...

7. If you want to extend your study visa...
 - a) You only need to obtain 30 points
 - b) You do not need to repeat the point-assessment
 - c) You will need to do the process again

8. You can work in the UK if...
 - a) You are legally eligible
 - b) You are studying full time..
 - c) You have 40 points

9. For advice on finding a job, the writer suggests that you contact...
 - a) The UK Border Agency
 - b) A Career Service
 - c) The National Insurance Agency

10. Your national insurance number will ensure that...
 - a) You receive all the money you earn
 - b) You receive money if you lose your job
 - c) Some money is taken from your earnings

11. You can start work...
 - a) After applying for a National Insurance Number
 - b) Once you have received your National Insurance Number
 - c) If your employer pays your contribution instead of you

General Training Reading Sample 24

ADVICE FOR EMPLOYEES

Safe computer use

Most people suffer no ill-effects from using VDUs (Visual Display Units) as they don't give out harmful levels of radiation and rarely cause any kind of skin complaint. If you do suffer ill-effects, it may be because of the way you're using the computer and this can be avoided by well-designed workstations. When working at a VDU, make sure you keep a good posture and that your eyes are level with the screen.

Under health and safety regulations your employer should look at VDU workstations, and reduce any risks by supplying any equipment considered necessary (e.g. a wrist rest). They should also provide health and safety training. This also applies if you're working at home as an employee and using a VDU for a long period of time. There is no legal limit to how long you should work at a VDU, but under health and safety regulations you have the right to breaks from work using a VDU. This doesn't have to be a rest break, just a different type of work. Guidance from the Health and Safety Executive (HSE) suggests it's better to take frequent short breaks but if your job means spending long periods at a VDU, for example as in the case of data input, then longer breaks from your workstation should be introduced.

If you're disabled, your employer's duty to make reasonable adjustments for you may mean that they will provide you with special computer equipment. You can also get advice and maybe help with paying for equipment from the local job centre.

Studies haven't shown a link between VDU use and damage to eyesight, but if you feel that using a VDU screen is making your eyes tired, tell your employee safety representative. You have the right to a free eyesight test if you use a VDU a lot during work hours. If you're prescribed glasses your company must pay for them, provided they're required in your job.

If you have any health problems you think may be caused by your VDU, contact your line manager. He/she has a duty to consult you on health and safety issues that affect you, and should welcome early reporting of any issue.

Questions 15 – 20

Complete the sentences below. Choose **NO MORE THAN THREE WORDS** from the text for each answer.

1. It is unusual to get a as a result of using computers.
2. Employers may be required to provide you with items such as a to use while at work.
3. If your job involves tasks such as , the advice from the HSE may not apply.
4. Financial assistance in the case of special requirements may be available from the
5. The company is obliged to cover the cost of if you need them while working.
6. Any concerns about the effect of using a VDU on your general well-being should be reported to

General Training Reading Sample 25

CAREERS WITH KIWI AIR

Flight Attendants – Recruitment and Training Process

Recruitment

The position of Flight Attendant is one of prestige and immense responsibility. Recruitment is conducted according to operational demands and there can be periods of up to 12 months where no new intake is required. However, applications are always welcomed.

After you submit your initial application online, the Kiwi Air HR Services Team review the details you have provided. Candidates whose details closely match the requirements of the position are then contacted via email advising that their application has progressed to the next stage of the recruitment process. Potential candidates are then asked to attend a Walk-In Day. This could occur several weeks or months after the original application has been submitted depending on current needs.

The Walk-In Day consists of a brief presentation about the role and a short interview. Candidates who are successful on the Walk-In Day are notified within 10 days and invited to attend an Assessment Centre. Please note that candidates are required to pass a swimming test before attending the Assessment Centre. At the Assessment Centre, candidates attend an interview as well as participating in a number of assessments. Verbal references are then requested, and candidates attend a medical check.

At times, there may not be a need to recruit for Flight Attendant positions. However, the company continuously maintains a 'recruitment pool' of those who have completed the Assessment Centre stage. These candidates are contacted when a need for Flight Attendants is established, and attend a full interview before a decision is made on whether to extend an offer of employment.

Due to the volume of applications received, Kiwi Air is not able to offer verbal feedback to candidates at any stage of the recruitment process. Unsuccessful candidates may reapply at any time after 12 months from the date at which their applications are declined.

Training

Upon being offered a role as a trainee Flight Attendant, a 5-week training course is undertaken at our Inflight Services Training Centre in Auckland. This covers emergency procedures, customer care and service delivery, and equipment knowledge. To successfully complete the course, high standards must be attained and maintained in all subjects.

Questions 21 – 27

Complete the flow-chart below. Choose NO MORE THAN TWO WORDS from the text for each answer.

Flight Attendants Of Kiwi Air – Recruitment And Training Process

General Training Reading Sample 26

Questions 1 - 3, which are based on Reading Passage 26.

Which THREE possible reasons for American dominance of the film industry are given in the text?

- A. Plenty of capital to purchase what it didn't have
- B. Making films dealing with serious issues
- C. Being first to produce a feature film
- D. Well-written narratives
- E. The effect of the First World War
- F. Excellent special effects.

THE HISTORY OF CINEMA

Although French, German, American and British pioneers have all been credited with the invention of cinema, the British and the Germans played a relatively small role in its world-wide exploitation. It was above all the French, followed closely by the Americans, who were the most passionate exporters of the new invention, helping to start cinema in China, Japan, Latin America and Russia. In terms of artistic development it was again the French and the Americans who took the lead, though in the years before the First World War, Italy, Denmark and Russia also played a part.

In the end it was the United States that was to become, and remain, the largest single market for films. By protecting their own market and pursuing a vigorous export policy, the Americans achieved a dominant position on the world market by the start of the First World War. The centre of film-making had moved westwards, to Hollywood, and it was films from these new Hollywood studios that flooded onto the world's film markets in the years after the First World War, and have done so ever since. Faced with total Hollywood domination, few film industries proved competitive. The Italian industry, which had pioneered the feature film with spectacular films like *Quovadis?* (1913) and *Cabiria* (1914), almost collapsed. In Scandinavia, the Swedish cinema had a brief period of glory, notably with powerful epic films and comedies. Even the French cinema found itself in a difficult position. In Europe, only Germany proved industrially capable, while in the new Soviet Union and in Japan, the development of the cinema took place in conditions of commercial isolation.

Hollywood took the lead artistically as well as industrially. Hollywood films appealed because they had better-constructed narratives, their special effects were more impressive, and the star system added a new dimension to screen acting. If Hollywood did not have enough of its own resources, it had a great deal of money to buy up artists and technical innovations from Europe to ensure its continued dominance over present or future competition.

From early cinema, it was only American slapstick comedy that successfully developed in both short and feature format. However, during this 'Silent Film' era, animation, comedy, serials and

dramatic features continued to thrive, along with factual films or documentaries, which acquired an increasing distinctiveness as the period progressed. It was also at this time that the avant-garde film first achieved commercial success, this time thanks almost exclusively to the French and the occasional German film.

Of the countries which developed and maintained distinctive national cinemas in the silent period, the most important were France, Germany and the Soviet Union. Of these, the French displayed the most continuity, in spite of the war and post-war economic uncertainties. The German cinema, relatively insignificant in the pre-war years, exploded on to the world scene after 1919. Yet even they were both overshadowed by the Soviets after the 1917 Revolution. They turned their back on the past, leaving the style of the pre-war Russian cinema to the emigres who fled westwards to escape the Revolution.

The other countries whose cinemas changed dramatically are: Britain, which had an interesting but undistinguished history in the silent period; Italy, which had a brief moment of international fame just before the war; the Scandinavian countries, particularly Denmark, which played a role in the development of silent cinema quite out of proportion to their small population; and Japan, where a cinema developed based primarily on traditional theatrical and, to a lesser extent, other art forms and only gradually adapted to western influence.

Questions 4 - 6

Answer the questions below using **NO MORE THAN THREE WORDS** from the passage for each answer.

4. Which **TWO** types of film were not generally made in major studios?
5. Which type of film did America develop in both short and feature films?
6. Which type of film started to become profitable in the 'silent' period?

Questions 7 - 13

Look at the following statements and the list of countries below. Match each statement with the correct country.

NB You may use any letter more than once.

7. It helped other countries develop their own film industry.
8. It was the biggest producer of films.
9. It was first to develop the 'feature' film.
10. It was responsible for creating stars.
11. It made the most money from 'avant-garde' films.
12. It made movies based more on its own culture than outside influences.
13. It had a great influence on silent movies, despite its size.

List of Countries

A	France	F	Japan
B	Germany	G	Soviet Union
C	USA	H	Italy
D	Denmark	I	Britain
E	Sweden	J	China

General Training Reading Sample 27

BUSINESS SCHOOL ONLINE

Our courses can be started anytime from anywhere in the world and completed at your own pace. A certificate is issued on successful completion of the course.

ADVERTISING AND PROMOTION COURSE

Duration: 100 Hours

Course Materials: Upon enrolment, you will receive all of the materials that are essential to complete the course. Course materials include subject guides, printed notes, textbooks, videos and practical equipment. In certain circumstances you may be required to do extra research – in which case your tutor is able to advise you where necessary.

Course Outline: There are ten lessons in this course, each requiring about 10-12 hours work by the student. This course is designed as a program to help you understand the marketing world, then, to assist you in making decisions and developing skills in marketing. Emphasis is placed on profitability and efficiency!

EXAMPLES OF THE TYPE OF ASSIGNMENTS YOU MIGHT BE ASKED TO UNDERTAKE

A) Go shopping (your routine weekly shopping if you like). Take notice of how different sales staff communicate with you. Note the techniques they use (verbal and non verbal), and how effective they are. Note the type of impression they seem to be creating. When you come home, write down notes on your observations.

B) Look through newspapers or magazines at advertisements or articles which discuss products offered for sale and find what you consider to be good examples of each of the following types of communication:

- a. Verbal communication
- b. Non verbal communication
- c. Combination of verbal and non-verbal communication

Explain why you think these are good examples?

C) Select a product or service for which you would like to improve the marketing. This might be something you are dealing with in your own business or a business you work for; or it might be something you think has potential — an idea you would like to develop into a business OR something another business is dealing with, but not handling as well as you think they could.

Questions 1- 4

Do the following statements agree with the "**Business School Online**" reading text?

TRUE if the statement agrees with the text

FALSE if the statement contradicts the text

NOT GIVEN if it is not given in the reading text

1. Someone from any part of the world can take this course.
2. If you take this course you will have to do extra research.
3. The course is designed to develop a student's skills in marketing.
4. A student has to complete three assignments to complete this course.

General Training Reading Sample 28

AUSTRALIA

Domestic travel

Have you ever travelled to another part of your country and stayed for a few days? Travel within one's own country is popular throughout the world. And, according to a survey carried out in Australia in 2002, travellers are tending to spend more and more money on their holidays.

The Domestic Tourism Expenditure Survey showed that domestic travellers – those travelling within the country – injected \$23 billion into the Australian economy in 2002. As a result, domestic tourism became the mainstay of the industry, accounting for 75 per cent of total tourism expenditure in Australia. International tourism, on the other hand, added \$7 billion to the economy. Overall, in present dollar terms, Australians spent \$7 billion more on domestic tourism in 2002 than they did when the first survey of tourist spending was completed in 1991.

Thus, tourism has become one of Australia's largest industries. The combined tourist industry now accounts for about 5 per cent of the nation's gross domestic product, compared with agriculture at 4.3 per cent and manufacturing at 8 per cent. Tourism is therefore an important earner for both companies and individuals in a wide range of industries. For example, the transport industry benefits from the extra money poured into it. Hotels spring up in resort areas to provide accommodation, and the catering industry gains as tourists spend money in restaurants. The retail sector benefits as well, as many tourists use their holidays to shop for clothes, accessories and souvenirs.

In most countries, the land is divided into different political areas. Australia is divided into six states and two territories. Since people travel for different reasons, there are significant differences in the length of time people stay in different locations and in the amount they spend while there.

In 2002, Australian residents spent \$8.4 billion on day trips and almost twice that amount on trips involving at least one night away from home. In that year, a total of 45 million overnight trips were made in Australia. Of these, 14.9 million were spent in New South Wales, 10.3 million were spent in Queensland, and 9.2 million were spent in Victoria. Fewer nights were spent in the other states, with 3.7 million in South Australia, 1.5 million in Tasmania and 5 million in Western Australia. Despite the popularity of destinations such as Ayers Rock and Kakadu National Park, only 0.4 million overnight stays were recorded in the Northern Territory.

New South Wales, Queensland and Victoria attracted the greatest tourism revenue, with \$5.2 billion, \$5.1 billion and \$3.3 billion spent there respectively. The average expenditure for trips was \$395 per person, with accommodation the biggest expenditure, followed by meals and fuel. The survey also showed that costs were higher for inter-state travellers, who each spent an average of \$812 per trip compared with \$255 for those who travelled within one state. Trips to the Northern Territory were the most expensive, followed by Queensland, with South Australia and Victoria the least.

Comparing the costs of trips for different purposes, the survey found that business trips were the most expensive because they were more likely to involve stays in commercial accommodation. Trips taken for educational reasons – to visit universities, museums etc. – were also expensive, especially as they usually required inter-state plane tickets. Family holidays lay in the medium range, with transport and fares contributing to the cost, but adventure parks the major expense. But while visits to friends and relatives were the least expensive – due to lower accommodation, food and transport costs – these travellers spent most on shopping.

The survey also estimates that Australians made 253 million day trips in 2002, visiting parks, beaches and city attractions. The largest expenses were petrol costs (averaging \$10 per day trip), followed by meals, souvenirs and entry fees. Day trips tended to cost the most in the Northern Territory, while South Australia was the cheapest. Overall, the survey found that men travelling alone spent more than any tourist group. In particular, men spent more on transport and meals. Women travelling alone spent the most on clothes, while souvenirs were bought more often by families than by other tourists.

The challenge for the tourism industry now is to encourage Australians to continue spending money on travel and, if possible, to increase the amount they spend.

Questions 1-3

Complete the table below. Choose NO MORE THAN THREE WORDS from the text for each answer.

Industries that benefit from tourism.

Transport

1.
2.
3.

Questions 4-7

Complete the sentences below. Choose NO MORE THAN THREE WORDS from the text for each answer.

4. The state or territory in which the highest number of overnight trips was made was
5. The state or territory in which the lowest number of overnight trips was made was
6. People travelling from state to state spent more than those travelling
7. The TWO cheapest states or territories to travel to were and

Questions 8-11

Complete the table below. Choose NO MORE THAN THREE WORDS from the text for each answer.

Major Expenses for different trips

Purpose of trip	Major expense
Business	accommodation
Education	8.....
family holiday	9.....
visiting relatives	10.....
day trips	11.....

Questions 12 and 13

Complete the sentences below. Choose NO MORE THAN THREE WORDS from the text for each answer.

12. The category of people who spent the most on travel in Australia in 2002 were
13. The category who spent the most on souvenirs were

General Training Reading Sample 29

PAPER RECYCLING

A Paper is different from other waste produce because it comes from a sustainable resource: trees. Unlike the minerals and oil used to make plastics and metals, trees are replaceable. Paper is also biodegradable, so it does not pose as much threat to the environment when it is discarded. While 45 out of every 100 tonnes of wood fibre used to make paper in Australia comes from waste paper, the rest comes directly from virgin fibre from forests and plantations. By world standards this is a good performance since the world-wide average is 33 per cent waste paper. Governments have encouraged waste paper collection and sorting schemes and at the same time, the paper industry has responded by developing new recycling technologies that have paved the way for even greater utilisation of used fibre. As a result, industry's use of recycled fibres is expected to increase at twice the rate of virgin fibre over the coming years.

B Already, waste paper constitutes 70% of paper used for packaging and advances in the technology required to remove ink from the paper have allowed a higher recycled content in newsprint and writing paper. To achieve the benefits of recycling, the community must also contribute. We need to accept a change in the quality of paper products; for example stationery may be less white and of a rougher texture. There also needs to be support from the community for waste paper collection programs. Not only do we need to make the paper available to collectors but it also needs to be separated into different types and sorted from contaminants such as staples, paperclips, string and other miscellaneous items.

C There are technical limitations to the amount of paper which can be recycled and some paper products cannot be collected for re-use. These include paper in the form of books and permanent records, photographic paper and paper which is badly contaminated. The four most common sources of paper for recycling are factories and retail stores which gather large amounts of packaging material in which goods are delivered, also offices which have unwanted business documents and computer output, paper converters and printers and lastly households which discard newspapers and packaging material. The paper manufacturer pays a price for the paper and may also incur the collection cost.

D Once collected, the paper has to be sorted by hand by people trained to recognise various types of paper. This is necessary because some types of paper can only be made from particular kinds of recycled fibre. The sorted paper then has to be repulped or mixed with water and broken down into its individual fibres. This mixture is called stock and may contain a wide variety of contaminating materials, particularly if it is made from mixed waste paper which has had little sorting. Various machinery is used to remove other materials from the stock. After passing through the repulping process, the fibres from printed waste paper are grey in colour because the printing ink has soaked into the individual fibres. This recycled material can only be used in products where the grey colour does not matter, such as cardboard boxes but if the grey colour is not acceptable, the fibres must be de-inked. This involves adding chemicals such as caustic soda or other alkalis, soaps and detergents, water-hardening agents such as calcium chloride, frothing

agents and bleaching agents. Before the recycled fibres can be made into paper they must be refined or treated in such a way that they bond together.

E Most paper products must contain some virgin fibre as well as recycled fibres and unlike glass, paper cannot be recycled indefinitely. Most paper is down-cycled which means that a product made from recycled paper is of an inferior quality to the original paper. Recycling paper is beneficial in that it saves some of the energy, labour and capital that goes into producing virgin pulp. However, recycling requires the use of fossil fuel, a non-renewable energy source, to collect the waste paper from the community and to process it to produce new paper. And the recycling process still creates emissions which require treatment before they can be disposed of safely. Nevertheless, paper recycling is an important economical and environmental practice but one which must be carried out in a rational and viable manner for it to be useful to both industry and the community.

Questions 1 - 7

Complete the summary below of the first two paragraphs of the Reading Passage. Choose ONE OR TWO WORDS from the Reading Passage for each answer.

SUMMARY

In that firstly it comes from a resource which is (1)and secondly it is less threatening to our environment when we throw it away because it is..... (2)..... Although Australia's record in the re-use of waste paper is good, it is still necessary to use a combination of recycled fibre and(3) to make new paper. The paper industry has contributed positively and people have also been encouraged by (4) to collect their waste on a regular basis. One major difficulty is the removal of ink from used paper but (5)..... are being made in this area. However, we need to learn to accept paper which is generally of a lower (6) than before and to sort our waste paper by removing(7) before discarding it for collection.

Questions 8 - 12

Look at paragraphs C, D, and E and, using the information in the passage, complete the flow chart below.

General Training Reading Sample 30

USE OF UNIVERSITY GROUNDS

BY VEHICULAR TRAFFIC

The University grounds are private.

The University authorities only allow authorised members of the University, visitors and drivers of vehicles servicing the University to enter the grounds.

Members of staff who have paid the requisite fee and display the appropriate permit may bring a vehicle into the grounds. A University permit does not entitle them to park in Hall car parks however, unless authorised by the Warden of the Hall concerned.

Students may not bring vehicles into the grounds during the working day unless they have been given special permission by the Security Officer and have paid for and are displaying an appropriate entry permit. Students living in Halls of Residence must obtain permission from the Warden to keep a motor vehicle at their residence.

Students are reminded that if they park a motor vehicle on University premises without a valid permit, they will be fined £20.

Questions 1-5

Look at the information on the following reading passage about the use of vehicles in the University grounds.

TRUE if the statement is true

FALSE if the statement is false

NOT GIVEN if the information is not given in the passage

1. University employees do not need to pay for their parking permits.
2. Parking in Halls of Residence is handled by the Wardens of the Halls.
3. Having a University permit does not allow staff to park at Halls.
4. Parking permits cost £20 a year.
5. Students living in Hall do not need permission to park in Hall car parks.

General Training Reading Sample 31

PATIENT INFORMATION LEAFLET

The name of your medicine is Borodine tablets.

WHAT ARE Borodine TABLETS USED FOR?

Borodine tablets are used to help relieve hay fever and conditions due to allergies, in particular skin reactions and a runny nose.

It is not recommended that Borodine tablets are given to children under 12 years of age or pregnant or breastfeeding women.

BEFORE YOU TAKE Borodine TABLETS

In some circumstances it is very important not to take Borodine tablets. If you ignore these instructions, this medicine could affect your heart rhythm.

Are you taking oral medicines for fungal infections?

Have you suffered a reaction to medicines containing Borodine before?

Do you suffer from any liver, kidney or heart disease?

If the answer to any of these questions is YES, do not take Borodine tablets before consulting your doctor.

AFTER TAKING Borodine TABLETS

Borodine tablets, like many other medicines, may cause side-effects in some people.

If you faint, stop taking Borodine tablets and tell your doctor immediately.

In addition Borodine tablets may cause problems with your vision, hair loss, depression or confusion, yellowing of your skin or your eyes.

If you have these effects whilst taking Borodine tablets tell your doctor immediately.

Other side-effects are dizziness or headaches, and indigestion or stomach ache. However, these effects are often mild and usually wear off after a few days' treatment. If they last for more than a few days, tell your doctor.

Questions 1 - 8

Look at the patient information leaflet on the following page.

Match each of the following sentences with TWO possible endings A-M from the box below.

Questions 1 and 2

Borodine tablets might be used to treat.....

Questions 3 and 4

You must ask your doctor before taking Borodine tablets if you are already being treated for

Questions 5 and 6

You do not need to consult your doctor immediately if Borodine tablets give you

Questions 7 and 8

You must consult your doctor at once if you find Borodine tablets cause.....

Possible Endings

- A. children under 12 years of age.
- B. a headache.
- C. an uncomfortable feeling in your stomach.
- D. symptoms similar to a cold.
- E. a change in your skin colour.
- F. anything treated by a prescription medicine.
- G. a kidney complaint.
- H. a whitening of the eyes.
- I. sore or broken skin.
- J. a fungal infection.
- K. a feeling of sadness.
- L. shortness of breath.
- M. a woman expecting a child.

General Training Reading Sample 32

WEST THAMES COLLEGE BACKGROUND INFORMATION FOR CANDIDATES

West Thames College (initially known as Hounslow Borough College) came into existence in 1976 following the merger of Isleworth Polytechnic with part of Chiswick Polytechnic. Both parent colleges, in various guises, enjoyed a long tradition of service to the community dating back to the 1890s.

The college is located at London Road, Isleworth, on a site occupied by the Victorian house of the Pears family, Spring Grove House. An earlier house of the same name on this site had been the home of Sir Joseph Banks, the botanist who named Botany Bay with Captain Cook in 1770. Later he founded Kew Gardens.

Situated at the heart of West London, West Thames College is ideally placed to serve the training and education needs of local industry and local people. But its influence reaches much further than the immediate locality.

Under its former name, Hounslow Borough College, it had already established a regional, national and international reputation for excellence. In fact, about eight per cent of its students come from continental Europe and further afield, whilst a further 52 per cent are from outside the immediate area. Since 1 April 1993, when it became independent of the local authority and adopted its new title, West Thames College has continued to build on that first class reputation.

These days there is no such thing as a typical student. More than half of West Thames college's 6000 students are over 19 years old. Some of these will be attending college part-time under their employers' training schemes. Others will want to learn new skills purely out of interest, or out of a desire to improve their promotion chances, or they may want a change in career.

The college is also very popular with 16-18 year olds, who see it as a practical alternative to a further two years at school. They want to study in the more adult atmosphere the college provides. They can choose from a far wider range of subjects than it would be practical for a sixth form to offer. If they want to go straight into employment they can still study at college to gain qualifications relevant to the job, either on a day-release basis or through Network or the Modern Apprenticeship Scheme.

Questions 1 - 7

Look at the introduction to West Thames College above and at the statements (Questions 1 - 7) below.

TRUE if the statement is true
FALSE if the statement is false
NOT GIVEN if the information is not given in the passage

1. Chiswick Polytechnic was closed at the same time West Thames College was opened.
2. Most of the students at the college come from outside the local area.
3. The college changed its name to West Thames College in 1993.
4. There are currently 6000 students over the age of 19 attending the college.
5. Students under the age of 16 cannot attend any of the courses offered by the college.
6. The college offers a more mature environment in which to learn than a school.
7. There are fewer subjects to study in the sixth form of a school than at the college.

General Training Reading Sample 33

WEST THAMES COLLEGE SERVICES FOR STUDENTS

A

As a full-time student at West Thames College you will have your own Personal Mentor who will see you each week to guide you through your studies, and discuss any problems which may arise. We take a cooperative approach to the assessment of your work and encourage you to contribute to discussion.

B

This service provides specialist assistance and courses for those who need help to improve their writing, oral and numeracy skills for the successful completion of their college course. Help with basic skills is also available.

C

This service is available to anyone who is undecided as to which course to follow. It is very much a service for the individual, whatever your age, helping you to select the best option to suit your circumstances. The service includes educational advice, guidance and support, including a facility for accrediting your previous experience – the Accreditation of Prior Learning (APL). The Admissions Office is open Monday to Friday 9.00 am to 5.00 pm. All interviews are confidential and conducted in a relaxed and friendly atmosphere. Evening appointments are available on request.

D

The College Bookshop stocks a wide range of books, covering aspects of all courses, together with a good selection of stationery. It also supplies stamps, phone cards, blank videos and computer disks. The shop is open at times specified in the Student Handbook in the mornings, afternoons and evenings.

E

When students are weary from study and want the chance to relax and enjoy themselves with friends, they can participate in a number of recreational activities. Depending on demand, we offer a range of sporting activities including football, badminton, basketball, table tennis, volleyball, weight training and aerobics. For the non-sporting students we offer a debating society, video club, hair and beauty sessions, as well as a range of creative activities. Suggestions for activities from students are always welcome.

F

This confidential service is available if you have practical or personal difficulties during your course of study, whether of a financial or personal nature. Our Student Advisors can help you directly or put you in touch with someone else who can give you the help you need.

G

The College Nurses are there for general medical advice and for treatment of illness or injury. All visits are confidential. First aid boxes and fully-trained First Aiders are also on hand at various locations around the college.

H

West London employers have a permanent base in the centre of college, with access to a database of more than 24,000 jobs available locally and in Central London. They will also help you with job applications and interview techniques.

Questions 1-6

Look at the West Thames College's Services for Students on the following page. Each paragraph A-H describes a different service provided by the college.

From the list below (i-xi) choose the most suitable summaries for paragraphs A, C and E-H.

NB There are more summaries than paragraphs, so you will not use them all.

- i) A shop for the books and stationery needed to study
- ii) Counseling and welfare willing to listen, offer advice or arrange a referral
- iii) An Examinations Office arranging exams and issuing certificates
- iv) A Registrar's Office handling all fee payments and related enquiries
- v) A Medical service offering on-site assistance with health-related problems
- vi) A tutorial system for regular one-to-one guidance, support and feedback
- vii) Careers Advice helping students into employment
- viii) An admissions Service providing assistance in choosing and applying for higher education courses
- ix) A Student Union representing students on college committees
- x) Clubs and societies for students' free-time
- xi) A Learning Support Service supporting students in studying, presenting information and handling numbers.

- 1. Paragraph A
- 2. Paragraph C
- 3. Paragraph E
- 4. Paragraph F
- 5. Paragraph G
- 6. Paragraph H

General Training Reading Sample 34

THE DISCOVERY OF URANUS

Someone once put forward an attractive though unlikely theory. Throughout the Earth's annual revolution around the sun there is one point of space always hidden from our eyes. This point is the opposite part of the Earth's orbit, which is always hidden by the sun. Could there be another planet there, essentially similar to our own, but always invisible?

If a space probe today sent back evidence that such a world existed it would cause not much more sensation than Sir William Herschel's discovery of a new planet, Uranus, in 1781. Herschel was an extraordinary man — no other astronomer has ever covered so vast a field of work — and his career deserves study. He was born in Hanover in Germany in 1738, left the German army in 1757, and arrived in England the same year with no money but quite exceptional music ability. He played the violin and oboe and at one time was organist in the Octagon Chapel in the city of Bath. Herschel's was an active mind, and deep inside he was conscious that music was not his destiny; he therefore read widely in science and the arts, but not until 1772 did he come across a book on astronomy. He was then 34, middle-aged by the standards of the time, but without hesitation he embarked on his new career, financing it by his professional work as a musician. He spent years mastering the art of telescope construction, and even by present-day standards his instruments are comparable with the best.

Serious observation began 1774. He set himself the astonishing task of 'reviewing the heavens', in other words, pointing his telescope to every accessible part of the sky and recording what he saw. The first review was made in 1775; the second, and most momentous, in 1780-81. It was during the latter part of this that he discovered Uranus. Afterwards, supported by the royal grant in recognition of his work, he was able to devote himself entirely to astronomy. His final achievements spread from the sun and moon to remote galaxies (of which he discovered hundreds), and papers flooded from his pen until his death in 1822. Among these there was one sent to the Royal Society in 1781, entitled *An Account of a Comet*. In his own words:

On Tuesday the 13th of March, between ten and eleven in the evening, while I was examining the small stars in the neighbourhood of H Geminorum, I perceived one that appeared visibly larger than the rest; being struck with its uncommon magnitude, I compared it to H Geminorum and the small star in the quartile between Auriga and Gemini, and finding it to be much larger than either of them, suspected it to be a comet.

Herschel's care was the hallmark of a great observer; he was not prepared to jump any conclusions. Also, to be fair, the discovery of a new planet was the last thought in anybody's mind. But further observation by other astronomers besides Herschel revealed two curious facts. For comet, it showed a remarkably sharp disc; furthermore, it was moving so slowly that it was thought to be a great distance from the sun, and comets are only normally visible in the immediate vicinity of the sun. As its orbit came to be worked out the truth dawned that it was a new planet

far beyond Saturn's realm, and that the 'reviewer of the heavens' had stumbled across an unprecedented prize. Herschel wanted to call it georgiumsidus (Star of George) in honour of his royal patron King George III of Great Britain. The planet was later for a time called Herschel in honour of its discoverer. The name Uranus, which was first proposed by the German astronomer Johann Elert Bode, was in use by the late 19th century.

Uranus is a giant in construction, but not so much in size; its diameter compares unfavourably with that of Jupiter and Saturn, though on the terrestrial scale it is still colossal. Uranus' atmosphere consists largely of hydrogen and helium, with a trace of methane. Through a telescope the planet appears as a small bluish-green disc with a faint green periphery. In 1977, while recording the occultation of a star behind the planet, the American astronomer James L. Elliot discovered the presence of five rings encircling the equator of Uranus. Four more rings were discovered in January 1986 during the exploratory flight of Voyager 2. In addition to its rings, Uranus has 15 satellites ('moons'), the last 10 discovered by Voyager 2 on the same flight; all revolve about its equator and move with the planet in an east—west direction. The two largest moons, Titania and Oberon, were discovered by Herschel in 1787. The next two, Umbriel and Ariel, were found in 1851 by the British astronomer William Lassell. Miranda, thought before 1986 to be the innermost moon, was discovered in 1948 by the American astronomer Gerard Peter Kuiper.

Glossary:

'occultation': in astronomy, when one object passes in front of another and hides the second from view, especially, for example, when the moon comes between an observer and a star or planet .

'Voyager 2' : an unmanned spacecraft sent on a voyage past Saturn, Uranus and Jupiter in 1986; during which it sent back information about these planets to scientists on earth .

Questions 1 - 5

Complete the table below. Write a date for each answer.

Event	Date
Herschel began investigating astronomy	(1).....
Discovery of the planet Uranus	(2).....
Discovery of the moons Titania and Oberon	(3).....
First discovery of Uranus' rings	(4).....
Discovery of the last 10 moons of Uranus	(5).....

Questions 6 - 10

Do the following statements reflect the claims of the writer of the Reading Passage?

YES if the statement reflects the claims of the writer
NO if the statement contradicts the writer
NOT GIVEN if it is impossible to say what the writer thinks about this

6. It is improbable that there is a planet hidden behind the sun.
7. Herschel knew immediately that he had found a new planet.
8. Herschel collaborated with other astronomers of his time.
9. Herschel's newly-discovered object was considered to be too far from the sun to be a comet.
10. Herschel's discovery was the most important find of the last three hundred years.

Questions 11 - 14

Complete each of the following statements (Questions 11 - 14) with a name from the Reading Passage.

The suggested names of the new planet started with..... (11), then..... (12), before finally settling on Uranus. The first five rings around Uranus were discovered by (13)
From 1948 until 1986, the moon (14)..... was believed to be the moon closest to the surface of Uranus.

General Training Reading Sample 35

PERSONAL COMPUTERS AVAILABLE FOR PUBLIC TO USE

- 2 personal computers are available, for a fee of \$5.00. There is also an ink jet printer attached to each terminal. The library has a number of commercially available programs for word processing and spreadsheets.
- A4 paper can be bought from the desk if you wish to print your work. Alternatively you can bring your own paper. If you wish to store information however, you will need to bring your own floppy disk.

Bookings

Because of high demand, a maximum of one hour's use per person per day is permitted. Bookings may be made up to three days in advance. Bookings may be made in person at the information desk or by phoning 8673 8901 during normal office hours. If for some reason you cannot keep your appointment, please telephone. If the library is not notified and you are 15 minutes late, your time can be given to someone else. Please sign in the visitors' book at the information desk when you first arrive to use the computer.

Please note that staff are not available to train people or give a lot of detailed instruction on how to use the programs. Prior knowledge is, therefore, necessary. However, tutorial groups are available for some of the programs and classes are offered on a regular basis. Please see the loans desk for more information about our computer courses.

Questions 1-7

Read the passage about personal computers below and look at the statements below (Questions 14-20).

TRUE if the statement is true
FALSE if the statement is false
NOT GIVEN if the information is not given in the passage

1. There are two computers and two printers available for public use at the library.
2. You can buy floppy disks at the information desk.
3. The information desk is closed at weekends.
4. It is essential to reserve a computer three days in advance if you want to use one.
5. If you are more than a quarter of an hour late, you could lose your reservation for the computer.
6. Library employees do not have detailed knowledge of computers.
7. The library runs courses for people who want to learn about computers.

General Training Reading Sample 36

GOOD REASONS FOR CHOOSING ATLAS ENGLISH LANGUAGE COLLEGE

On an English course with Atlas English Language College, you improve your language skills and make friends from all over the world!

A Because Atlas courses start every Monday of the year, there's bound to be one that fits in with your academic, personal or professional commitments. Whatever your level of language ability, from beginner to advanced, you can choose to study for any length of time, from two weeks to a full year. Courses match a range of individual requirements, from intensive examination preparation to short summer programmes. Most courses commence at 9 am and run till 3 pm.

B If you take an intensive full-time course, we will help you to select the Special Interest Options which best suit your goals. From then on, our teacher will discuss your work with you on a weekly basis. This means that you should develop the language skills you need - and that you are helped to study at your own pace.

C The popularity and success of any language school depend greatly on the quality of the teachers and the methods they employ. All Atlas teachers have specialist qualifications in the teaching of English to foreign students and are all native speakers. We employ only experienced professionals with a proven record of success in the classroom.

D Atlas's teaching methodology is constantly revised as more is discovered about the process of learning a new language. Our teachers have access to an extensive range of materials, including the very latest in language teaching technology.

E On your first day at school, you will take a test which enables our Director of Studies to place you at the appropriate study level. Your progress will be continuously assessed and, once you have achieved specific linguistic goals, you will move up to a higher level of study.

F Every Atlas course fee includes accommodation in carefully selected homestay families. Breakfast and dinner each day are also included, so you need have no concerns about having to look for somewhere to live once you get to the school.

G On completion of any Intensive, Examination or Summer course, you will receive the Atlas Course Certificate of Attendance. On completion of a four-week course or longer you will also receive the Atlas Academic Record that reflects your ability in every aspect of the language from conversation to writing. Such a record will allow you to present your linguistic credentials to academic institutions or potential employers around the world.

Questions 21-26

The text on Atlas English Language College on the following page has seven paragraphs (A-G). Choose the most suitable headings for paragraphs B-G from the list of headings below.

Write the appropriate numbers (i-ix) in boxes 21-26 on your answer sheet.

NB There are more headings than paragraphs, so you will not use all of them.

List of Headings

- I Recognition of your achievements
- II Courses start every week
- III Other services/Pastoral care/Personal arrangements
- IV A personal approach
- V Two meals every day
- VI First-class staff
- VII Up-to-date classroom practice
- VIII Discovering a new language
- IX Monitored achievement

- 1. Paragraph B
- 2. Paragraph C
- 3. Paragraph D
- 4. Paragraph E
- 5. Paragraph F
- 6. Paragraph G

Questions 1 – 8

Look at the five advertisements, A-E. Write the correct letter, A-E , next to the question.

- International Language Centre
- Global Language Learning Centre
- Tafe International
- Club Francais
- University of Canberra

Which advertisement mentions

- Up-to-date teaching systems?
- That the institution has been established for a significant time?
- Examination classes?

4. That arrangements can be made for activities outside class?
5. The availability of courses for school students?
6. Language teaching for special purposes?

Which TWO advertisement mentions

7. A wide variety of language choices?
8. Evening classes?

MAIN STREET, GATTON RE-DEVELOPMENT

**ROAD WIDENING TO AFFECT WEEKEND TRAFFIC AND BUS
SERVICES TO THE UNIVERSITY CAMPUS**

The next stage in the re-development of the roads in the town of Gatton will mean that Main Street will be closed between Little and Denning Streets from 6am on Saturday, 12 August to 6pm on Sunday, 13 August. The intersections of these streets with Main Street will not be affected.

We expect that the work will be completed at this time without further disruption to traffic.

Motorists should note that Main Street will be closed over the weekend during the hours indicated.

No university bus services will operate through the area between Little and Denning Streets. However, alternative services will operate on bus routes 566 and 45 between Gatton Road, the town centre and the university.

The Transport and Roads Department apologises for any inconvenience caused while improvements are in progress.

Questions 9-13

Read the notice about road works below. Do the following statement agree to the information provided in the passage above.

TRUE if the statement is true
FALSE if the statement is false
NOT GIVEN if the information is not given in the notice

9. The road will be closed for two days and not re-opened until Monday.
10. The road will be open as far as Little Street.
11. Work on the road will continue each weekend for the next month.
12. Temporary traffic lights will operate at intersections with Main Street.
13. There will be bus services to the university throughout the weekend.

General Training Reading Sample 38

ASHWOOD

COLLEGE

How to enrol if you are abroad . . .

Please complete the Application Form and send this with the correct Non-Returnable Deposit (see below) to: The Overseas Registrar, Ashwood College, 20 Glossop Street, Midhaven.

Tel: 01423-968075; Fax: 01423-968076.

How to enrol if you are in Midhaven . . .

We invite you to visit us and see the school. After an assessment you will be able to reserve a place on the next available course. We have two centres in Midhaven.

Deposits/payment

1. Your enrolment form must be accompanied by the course deposit of £100 or, if you are booking accommodation through the school, your course and accommodation deposit of £200.
2. Any balance of course and accommodation fees must be paid in full by the first day of your course.
3. All bank charges incurred in sending money to Ashwood College must be paid by the student.
4. Deposits and payments are non-refundable and non-transferable.
5. A charge of £20 will be made for any changes made to bookings.

Conditions

Timetable

Each hour consists of 50 minutes' tuition and a 10-minute break.

Public and School Holidays

There is no reduction in the fee where a course includes a Public Holiday, except for two weeks at Christmas.

Age

The above centres of Ashwood College do not accept students under 16 years of age.

Attendance

Students are expected to attend regularly and on time. Students forfeit tuition if they arrive late, are absent or leave before the course ends.

Student Holidays

Students on long courses except examination preparation courses may take a holiday of one week every 12 weeks without losing their course fee for this period.

Location and Time of Courses

Ashwood College has two all-year centres and a summer centre in Midhaven. Before entry to the school, students must take an entry test to determine the level of class they enter. We cannot guarantee the time or location of a student's course although every attempt is made to place students in the centre and at the time of their choice.

Questions 1- 6

Read the enrolment details for Ashwood College on the following page and look at the statements above.

TRUE if the statement is true

FALSE if the statement is false

NOT GIVEN if the information is not given in the passage

1. Overseas students must pay a deposit when they apply for a course at the college.
2. Outstanding fees are payable by the end of the first week of the course.
3. Classes are organised according to ability level.
4. There is a break between each lesson.
5. Students may change courses at any time during the term.
6. Any student is permitted to take a week's holiday during a 12-week course.

General Training Reading Sample 39

A Coal is expected to continue to account for almost 27 per cent of the world's energy needs. However, with growing international awareness of pressures on the environment and the need to achieve sustainable development of energy resources, the way in which the resource is extracted, transported and used is critical.

A wide range of pollution control devices and practices is in place at most modern mines and significant resources are spent on rehabilitating mined land. In addition, major research and development programmes are being devoted to lifting efficiencies and reducing emissions of greenhouse gases during coal consumption. Such measures are helping coal to maintain its status as a major supplier of the world's energy needs.

B The coal industry has been targeted by its critics as a significant contributor to the greenhouse effect. However, the greenhouse effect is a natural phenomenon involving the increase in global surface temperature due to the presence of greenhouse gases - water vapour, carbon dioxide, tropospheric ozone, methane and nitrous oxide - in the atmosphere. Without the greenhouse effect, the earth's average surface temperature would be 33-35 degrees C lower, or -15 degrees C. Life on earth, as we know it today, would not be possible.

There is concern that this natural phenomenon is being altered by a greater build-up of gases from human activity, perhaps giving rise to additional warming and changes in the earth's climate. This additional build-up and its forecast outcome has been called the enhanced greenhouse effect. Considerable uncertainty exists, however, about the enhanced greenhouse effect, particularly in relation to the extent and timing of any future increases in global temperature.

Greenhouse gases arise from a wide range of sources and their increasing concentration is largely related to the compound effects of increased population, improved living standards and changes in lifestyle. From a current base of 5 billion, the United Nations predicts that the global population may stabilise in the twenty-first century between 8 and 14 billion, with more than 90 per cent of the projected increase taking place in the world's developing nations. The associated activities to support that growth, particularly to produce the required energy and food, will cause further increases in greenhouse gas emissions. The challenge, therefore, is to attain a sustainable balance between population, economic growth and the environment.

The major greenhouse gas emissions from human activities are carbon dioxide (CO₂), methane and nitrous oxide. Chlorofluorocarbons (CFCs) are the only major contributor to the greenhouse effect that does not occur naturally, coming from such sources as refrigeration, plastics and manufacture. Coal's total contribution to greenhouse gas emissions is thought to be about 18 per cent, with about half of this coming from electricity generation.

C The world-wide coal industry allocates extensive resources to researching and developing new technologies and ways of capturing greenhouse gases. Efficiencies are likely to be improved

dramatically, and hence CO₂ emissions reduced, through combustion and gasification techniques which are now at pilot and demonstration stages.

Clean coal is another avenue for improving fuel conversion efficiency. Investigations are under way into superclean coal (3-5 per cent ash) and ultraclean coal (less than 1 per cent ash). Superclean coal has the potential to enhance the combustion efficiency of conventional pulverised fuel power plants. Ultraclean coal will enable coal to be used in advanced power systems such as coal-fired gas turbines which, when operated in combined cycle, have the potential to achieve much greater efficiencies.

D Defendants of mining point out that, environmentally, coal mining has two important factors in its favour. It makes only temporary use of the land and produces no toxic chemical wastes. By carefully pre-planning projects, implementing pollution control measures, monitoring the effects of mining and rehabilitating mined areas, the coal industry minimises the impact on the neighbouring community, the immediate environment and long-term land capability.

Dust levels are controlled by spraying roads and stockpiles, and water pollution is controlled by carefully separating clean water runoff from runoff which contains sediments or salt from mine workings. The latter is treated and re-used for dust suppression. Noise is controlled by modifying equipment and by using insulation and sound enclosures around machinery.

Since mining activities represent only a temporary use of the land, extensive rehabilitation measures are adopted to ensure that land capability after mining meets agreed and appropriate standards which, in some cases, are superior to the land's pre-mining condition. Where the mining is underground, the surface area can be simultaneously used for forests, cattle grazing and crop raising, or even reservoirs and urban development, with little or no disruption to the existing land use. In all cases, mining is subject to stringent controls and approvals processes.

In open-cut operations, however, the land is used exclusively for mining but land rehabilitation measures generally progress with the mine's development. As core samples are extracted to assess the quality and quantity of coal at a site, they are also analysed to assess the ability of the soil or subsoil material to support vegetation. Topsoils are stripped and stockpiled prior to mining for subsequent dispersal over rehabilitated areas. As mining ceases in one section of the open-cut, the disturbed area is reshaped. Drainage within and off the site is carefully designed to make the new land surface as stable as the local environment allows: often dams are built to protect the area from soil erosion and to serve as permanent sources of water. Based on the soil requirements, the land is suitably fertilised and revegetated.

Questions 27- 40

Read the passage and answer the questions from 27-40.

Question 1

From the list below choose the most suitable title for the whole of the Reading Passage. Tick the most appropriate letter A-D.

- A. Pollution control in coal mining
- B. The greenhouse effect
- C. The coal industry and the environment
- D. Sustainable population growth

Questions 2 - 5

The Reading Passage has four sections A-D. Choose the most suitable heading for each section from the list of headings below.

Write the appropriate numbers i-viii next to the question no.

List of Headings

- i Global warming
 - ii The dangers of the coal industry
 - iii Superclean coal
 - iv Environment protection measures
 - v Coal as an energy source
 - vi Coal and the enhanced greenhouse effect
 - vii Research and development
 - viii Mining site drainage
-
- 2. Section A
 - 3. Section B
 - 4. Section C
 - 5. Section D

Questions 6 - 10

Choose the appropriate letters A-D and for the questions 6 - 10.

6)The global increase in greenhouse gases has been attributed to

- A. Industrial pollution in developing countries.
- B. Coal mining and electricity generation.
- C. Reduced rainfall in many parts of the world.
- D. Trends in population and lifestyle.

7)The proportion of all greenhouse gases created by coal is approximately

- A. 14 per cent.
- B. 18 per cent.
- C. 27 per cent.
- D. 90 per cent.

8)Current research aims to increase the energy-producing efficiency of coal by

- A. Burning it at a lower temperature.
- B. Developing new gasification techniques.
- C. Extracting co2 from it.
- D. Recycling greenhouse gases.

9)Compared with ordinary coal, new, ‘clean’ coals may generate power

- A. More cleanly and more efficiently.
- B. More cleanly but less efficiently.
- C. More cleanly but at higher cost.
- D. More cleanly but much more slowly.

10)To control dust at mine sites, mining companies often use

- A. Chemicals which may be toxic.
- B. Topsoil taken from the site before mining.
- C. Fresh water from nearby dams.
- D. Runoff water containing sediments.

Questions 11 - 14

Do the following statements reflect the opinions of the writer in the Reading Passage?

- YES if the statement reflects the opinion of the writer
NO if the statement contradicts the writer
NOT GIVEN if it is impossible to say what the writer thinks about this

11)The coal industry should be abandoned in favour of alternative energy sources because of the environmental damage it causes.

12)The greatest threats to the environment are the gases produced by industries which support the high standard of living of a growing world population.

13)World population in the twenty-first century will probably exceed 8 billion.

14)CFC emissions have been substantially reduced in recent years.

General Training Reading Sample 40

WALK FOR CHARITY

Dear Friend,

Please join us for our annual Walk for Charity. Starting in Welldown, you and your friends can choose a delightful 10, 20 or 30 kilometre route.

The money raised will provide support to help people all over the world. Start collecting your sponsors now and then simply come along on the day. Please read the instructions below carefully, especially if you require transport to and from Welldown.

See you on Sunday 14 May,
V Jessop

Walk Co-ordinator

P S. Well done to last year's walkers for helping to raise a grand total of £21,000. The money has already been used to build a children's playground.

START TIMES:

30 km: 8-10 am 20 km: 8 - 10.30 am

10 km: 8 - 11.30 am

The organisers reserve the right to refuse late-comers.

CLOTHING should be suitable for the weather. If rain is forecast, bring some protection and be prepared for all eventualities. It is better to wear shoes that have been worn in, rather than ones that are new.

ROUTE MAPS will be available from the registration point. The route will be sign-posted and marshalled. Where the route runs along the road, walkers should keep to one side in single file, facing oncoming traffic at all times. If you need help along the route, please inform one of the marshals.

Free car parking available in car parks and on streets in Welldown.

BUSES For the 10 and 20 km routes, a bus will be waiting at Fenton to take walkers back to Welldown; The bus will leave every half-hour starting at midday. The service is free and there is no need to book.

Questions 1-7

Look at the information on the given page about a walk for charity.

Answer the questions below using NO MORE THAN THREE WORDS AND/OR A NUMBER from the text for each answer.

- 1 What is the starting point for the 30 km walk?
- 2 What is the latest start time for the 20 km walk?
- 3 Regarding footwear, what are you warned against wearing?
- 4 What are the officials who help participants on the route called?
- 5 Where does the 20 km walk finish?
- 6 What is the frequency of the Fenton to Weldown bus?
- 7 Which walk does not pass through Lower Brene?

THE WEEK'S BEST

A

Wild Rose (Tuesday 19.00)

This TV drama is about a young private detective employed by a team of New York businessmen who send her to Brazil to look into a series of hotel robberies. When she gets there, she discovers that the hotels, which are owned by the businessmen, have been empty for the last two years and the local authorities have no record of any robberies.

B

Animal Planet (Wednesday 23.00)

This is a classic black-and-white film from the forties in which astronaut Charlie Huston crash-lands on a planet ruled entirely by animals. It is a first-class suspense adventure which also looks at the human condition, although this is not always a successful part of the film.

C

Strange Encounter (Saturday 21.00)

Suspense is skilfully built up in this clever, small-scale supernatural story. A young couple view a deserted old house that they are interested in buying. They meet a strange old lady who tells them of the mystical powers of the house and how previous owners have been able to travel back through the centuries to meet their ancestors.

D

The Longest Walk (Tuesday 21.30)

Ffiona Campbell is nearly there.

All she has to do now is walk the length of France and Britain and she has succeeded in walking around the world. Tonight she drinks coffee in a tent and tells her story to Janet Street-Porter before she sets off for the Pyrenees mountains.

E

Rubicon 5 (Thursday 20.30)

This is a TV film being used to launch a new science fiction series. It has impressive special effects and a strong, believable cast of characters who travel to the twenty-third century. The action takes place in underground cities where the environment is controlled by computers.

F

New Science (Friday 19.30)

This popular half-hour science magazine continues into its twenty-ninth year, proving itself to be a hardy survivor in the television world. Tonight it is presented by Carol Vorderman who introduces five reports, which include computer-driven cars and in-flight ten-pin bowling.

G

There and Back Again (Sunday 22.00)

Paul Theroux's account of his recent journey from London to Japan and back makes ideal material for this evening's travel slot.

Based on his own novel, the progress of his journey on the railways of Europe and Asia (Victoria station, Paris, Istanbul...) acts as a fascinating travelogue as the inhabitants gradually shift from the West to the East.

Questions 8-14

Look at the seven television programmes A-G on the given page and answer Questions 8-14.
For which programme are the following statements true?

NB You may use any letter more than once.

- 8) This programme is in the form of a personal interview.
- 9) This programme is a documentary about technological developments.
- 10) These TWO programmes are about time travel.
- 11) This programme is taken from a book.
- 12) This film is the introduction to a set of programmes.
- 13) These TWO programmes are about present-day travellers.
- 14) This programme is about investigating a possible crime.

General Training Reading Sample 41

BINGHAM REGIONAL COLLEGE AND STUDENTS ACCOMODATION

International Students' Orientation Programme

What is it?

It is a course which will introduce you to the College and to Bingham. It takes place in the week before term starts, from 24th - 28th September inclusive, but you should plan to arrive in Bingham on the 22nd or 23rd September.

Why do we think it is important?

We want you to have the best possible start to your studies and you need to find out about all the opportunities that college life offers. This programme aims to help you do just that. It will enable you to get to know the College, its facilities and services. You will also have the chance to meet staff and students.

How much will it cost?

International students (non-European Union students)

For those students who do not come from European Union (EU) countries, and who are not used to European culture and customs, the programme is very important and you are strongly advised to attend. Because of this, the cost of the programme, exclusive of accommodation, is built into your tuition fees.

EU students

EU students are welcome to take part in this programme for a fee of £ 195, exclusive of accommodation. Fees are not refundable.

Accommodation costs (international and EU students)

If you have booked accommodation for the year ahead (41 weeks) through the College in one of the College residences (Cambourne House, Hanley House, the Student Village or a College shared house), you do not have to pay extra for accommodation during the Orientation programme. If you have not booked accommodation in the College residences, you can ask us to pre-book accommodation for you for one week only (Orientation Programme week) in a hotel with other international students. The cost of accommodation for one week is approximately £ 165.

Alternatively, you can arrange your own accommodation for that week in a flat, with friends or a local family.

What is included during the programme?

Meals: lunch and an evening meal are provided as part of the programme, beginning with supper on Sunday 23rd September and finishing with lunch at midday on Friday 28th September. Please note that breakfast is not available.

Information sessions: including such topics as accommodation, health, religious matters, welfare, immigration, study skills, careers and other 'essential information'.

Social activities: including a welcome buffet and a half-day excursion round Bingham.

Transport: between your accommodation and the main College campus, where activities will take place.

Questions 1- 6

Do the following statements agree with the information given in this page.

TRUE if the statement agrees with the information

FALSE if the statement contradicts the information

NOT GIVEN if there is no information on this

1. Participants are advised to arrive one or two days early.
2. The cost of the programme for European Union students, excluding accommodation, is £195.
3. The number of places available is strictly limited.
4. Some students are not charged extra for accommodation during the programme.
5. The College will arrange accommodation with local families.
6. You can obtain breakfast at the College for an extra charge.

STUDENT ACCOMMODATION

The College offers five basic accommodation options. Here is some information to help you make your choice.

A CAMBOURNE HOUSE - self-catering, student residence, located in the town centre about 2 miles from the main College campus. Up to 499 students live in 6, 7 and 8 bedroom flats, all with en-suite shower rooms. Rent is £64 per week, including bills (not telephone). Broadband Internet connections and telephones, with communal kitchen/dining and lounge areas. Parking space is available, with permits costing £60 per term.

B STUDENT VILLAGE - features 3, 4, 5 and 7 bedroom, self-catering shared houses for 250 students close to the main College campus. Rent is £60 per week inclusive of bills (except telephone). Parking is available with permits costing £90 for the academic year.

C HANLEY HOUSE - a second, modern, self-catering residence in the town centre for 152 students. Eighteen rooms per floor with communal kitchens, lounges, bathrooms and toilets. Rent is £53 per week including bills (not telephone). There is no space for parking nearby.

D GLENCARRICK HOUSE - a privately-owned and managed student residence in the town centre above a multi-storey car park, close to a major nightclub and housing 120 students. Rooms are allocated by the College Accommodation Service. Rents range from £58.50 to £68.50 for a single en-suite room or larger en-suite room respectively. A small extra charge is made for electricity.

E HOUSE SHARES - this recent initiative is a range of shared houses for 140 students, conforming to standards set by us to meet all legal safety requirements. A room in a shared house costs between £45 and £55 per week, exclusive of bills, and will be within a 4-mile radius of both campuses. As with halls of residence, the rent is payable termly.

Questions 7 - 13

Look at the accommodation options A-E on the given page. For which options are the following statements true?

NB You may use any letter more than once.

7. This is possibly inconvenient for car owners.
8. This is best if you like surfing the Web.
9. Of the College residences, this has the fewest students.
10. This is a new option offered by the College.
11. You have to organise parking a year at a time.
12. This accommodation does not belong to the College.
13. Here you definitely do not have your own bathroom.

General Training Reading Sample 42

GLOW – WORMS

A

The glow-worm belongs to a family of beetles known as the lampyridae or fireflies. The fireflies are a huge group containing over 2000 species, with new ones being discovered all the time. The feature which makes fireflies and glow-worms so appealing is their ability to produce an often dazzling display of light. The light is used by the adult fireflies as a signal to attract a mate, and each species must develop its own 'call-sign' to avoid being confused with other species glowing nearby. So within any one area each species will differ from its neighbours in some way, for example in the colour or pattern of its light, how long the pulses of light last, the interval between pulses and whether it displays in flight or from the ground.

B

The fireflies' almost magical light has attracted human attention for generations. It is described in an ancient Chinese encyclopedia written over 2000 years ago by a pupil of Confucius. Fireflies often featured in Japanese and Arabian folk medicine. All over the world they have been the inspiration for countless poems, paintings and stories. In Britain, for example, there are plenty of anecdotes describing how glow-worms have been used to read by or used as emergency bicycle lamps when a cyclist's batteries have failed without warning. Early travellers in the New World came back with similar stories, of how the native people of Central America would collect a type of click beetle and release them indoors to light up their huts. Girls threaded them around their feet to illuminate the forest paths at night.

Fireflies very similar to those we see today have been found fossilised in rocks which were formed about 30 million years ago, and their ancestors were probably glowing long before then. It is impossible to be sure exactly when and where the first firefly appeared. The highest concentrations of firefly species today are to be found in the tropics of South America, which may mean either that this is where they first evolved, or simply that they prefer the conditions there. Wherever they first arose, fireflies have since spread to almost every part of the globe. Today members of the firefly family can be found almost anywhere outside the Arctic and Antarctic circles.

C

As with many insects, the glow-worm's life is divided into four distinct stages: the egg, the larva (equivalent to the caterpillar of a butterfly), the pupa (or chrysalis) and the adult. The glow-worm begins its life in the autumn as a pale yellow egg. The freshly laid egg is extremely fragile but within a day its surface has hardened into a shell. The egg usually takes about 35 days to hatch, but the exact time varies according to the temperature, from about 27 days in hot weather to more than 45 days in cold weather. By the time it is due to hatch, the glow-worm's light organ is fully developed, and its glow signals that the egg will soon hatch.

After it has left the egg, the larva slowly grows from a few millimetres into the size and shape of a matchstick. The larval stage is the only time the insect can feed. The larva devotes much of its life to feeding and building up its food reserves so that as an adult it will be free to concentrate all its

efforts on the task of finding a mate and reproducing. Throughout its time as a larva, approximately 15 months, the glow-worm emits a bright light. The larva's light is much fainter than the adult female's but it can still be seen more than five metres away.

In the final stage of a glow-worm's life, the larva encases itself in a pupa) skin while it changes from the simple larva to the more complex adult fly. When the adult fly emerges from the pupa the male seeks a female with whom it can mate. After mating, the female lays about 120 eggs. The adult flies have no mouth parts, cannot eat and therefore only live a few days. When people talk of seeing a glow-worm they normally mean the brightly glowing adult female.

D

In some countries the numbers of glow-worms have been falling. Evidence suggests that there has been a steady decrease in the British glow-worm population since the 1950s and possibly before that. Possible causes for the decline include habitat destruction, pollution and changes in climate. Thousands of acres of grassland have been built upon and glow-worm sites have become increasingly isolated from each other. The widespread use of pesticides and fertilisers may also have endangered the glow-worm. Being at the top of a food chain it is likely to absorb any pollutants eaten by the snails on which it feeds. The effect of global warming on rainfall and other weather patterns may also be playing a part in the disappearance of glow-worms. A lot more research will be needed, however, before the causes of the glow-worm's gradual decline are clear.

E

Although glow-worms are found wherever conditions are damp, food is in good supply and there is an over-hanging wall, they are most spectacular in caves. For more than 100 years the glow-worm caves in New Zealand have attracted millions of people from all over the world. The caves were first explored in 1887 by a local Maori chief, TaneTinorau, and an English surveyor, Fred Mace. They built a raft and, with candles as their only light, they floated into the cave where the stream goes underground. As their eyes adjusted to the darkness they saw myriad lights reflecting off the water. Looking up they discovered that the ceiling was dotted with the lights of thousands of glow-worms. They returned many times to explore further, and on an independent trip Tane discovered the upper level of the cave and an easier access. The authorities were advised and government surveyors mapped the caves. By 1888 TaneTinorau had opened the cave to tourists.

Questions 1 - 6

The passage has five sections labelled A-E. Which section contains the following information?

NB You may use any letter more than once.

1. Threats to the glow-worm
2. Ways in which glow-worms have been used
3. Variations in type of glow-worm
4. Glow-worm distribution
5. Glow-worms becoming an attraction
6. The life-cycle of a glow-worm

Questions 7 - 13

Do the following statements agree with the information given in the passage.

TRUE if the statement agrees with the information
FALSE if the statement contradicts the information
NOT GIVEN if there is no information on this

7. Scientists have only recently been able to list the exact number of glow-worm species.
8. The first fireflies appeared 30 million years ago.
9. Glow-worm populations are decreasing faster in some countries than in others.
10. Heat affects the production of glow-worm larvae.
11. Adulthood is the longest stage of a glow-worm's life.
12. The exact reason why glow-worm numbers are decreasing is unknown.
13. Glow-worms are usually found in wet areas.

General Training Reading Sample 43

CAUSTON HEALTH CENTRE

PATIENT INFORMATION LEAFLET

A Appointments

Please telephone 826969 (8.30am - 5.00pm: Mon - Fri). We suggest that you try to see the same doctor whenever possible because it is helpful for both you and your doctor to know each other well. We try hard to keep our appointments running to time, and ask you to be punctual to help us achieve this; if you cannot keep an appointment, please phone in and let us know as soon as possible so that it can be used for someone else. Please try to avoid evening appointments if possible. Each appointment is for one person only. Please ask for a longer appointment if you need more time.

B Weekends and Nights

Please telephone 823307 and a recorded message will give you the number of the doctor from the Centre on duty. Please remember this is in addition to our normal working day. Urgent calls only please. A Saturday morning emergency surgery is available between 9.30am and 10.00am. Please telephone for home visits before 10.00am at weekends.

C Centre Nurses

Liz Stuart, Martina Scott and Helen Stranger are available daily by appointment to help you with dressings, ear syringing, children's immunisations, removal of stitches and blood tests. They will also advise on foreign travel, and can administer various injections and blood pressure checks. For any over 75s unable to attend the clinic, Helen Stranger will make a home visit. All three Centre Nurses are available during normal working hours to carry out health checks on patients who have been on doctors' lists for 3 years.

D New Patients

Within 3 months of registering with the Centre, new patients on regular medication are invited to attend a health check with their doctor. Other patients can arrange to be seen by one of the Centre Nurses.

E Services Not Covered

Some services are not covered by the Centre e.g. private certificates, insurance, driving and sports medicals, passport signatures, school medicals and prescriptions for foreign travel. There are recommended fees for these set by the National Medical Association. Please ask at reception.

F Receptionists

Our receptionists provide your primary point of contact-they are all very experienced and have a lot of basic information at their fingertips. They will be able to answer many of your initial queries and also act as a link with the rest of the team. They may request brief details of your symptoms or illness - this enables the doctors to assess the degree of urgency.

G Change of Address

Please remember to let us know if you decide to relocate. It is also useful for us to have a record of your telephone number.

Questions 1-4

Reading Passage 42 has seven sections, A-G. Which paragraph contains the following information?

1. what to do if you need help outside normal working hours
2. who to speak to first for general information
3. what happens when you register with the Centre
4. what to do if you need to cancel a doctor's appointment

Questions 5-9

Do the following statements agree with the information given in Reading Passage 42?

TRUE if the statement agrees with the information
 FALSE if the statement contradicts the information
 NOT GIVEN if there is no information on this

5. You must always see the same doctor if you visit the Centre.
6. If you want a repeat prescription you must make an appointment.
7. Helen Stranger is the Head Nurse.
8. It is possible that receptionists will ask you to explain your problem.
9. You should give the Health Centre your new contact details if you move house.

BENTLEY HOSPITAL CATERING SERVICE

TO ALL PERMANENT AND TEMPORARY MEMBERS OF STAFF

IMPORTANT INFORMATION

Meal Breaks

(minimum company guidelines)

HOURS WORKED	BREAK TO BE TAKEN
0-4 hrs	nil
4-6 hrs	15 mins
6-8 hrs	30 mins
8-12 hrs	60 mins (taken as 2 x 30 mins)
12-24 hrs	75 mins (taken as 2 x 30 mins + 1 x 15 mins)

Your section staffing board will show the times when these breaks are to be taken.

Please note

It is your responsibility to check that the total break time shown on the staffing sheets accurately reflects the breaks that you take. Any discrepancies should be raised with your Staff Co-ordinator immediately.

SPECIAL REQUIREMENTS - FOOD HANDLERS

Food handlers are those concerned with preparing and serving unwrapped food. Food handlers should report any instance of sickness, diarrhoea and/or stomach upset experienced either while at work or during a holiday to a member of the Personnel Management team. Any infections of ear, nose, throat, mouth, chest or skin should also be reported to a member of the Personnel Management team. Food handlers need to have an annual dental examination by the company dentist. Alternatively, a current certificate of dental fitness may be produced from their own dentist. This applies to all permanent staff who handle food.

Questions 10-14

Complete each sentence with the correct ending, A-J, below.

10. Temporary employees only working 3 hours should
11. Employees who work 11 hours should
12. To find out when to have their breaks, employees should
13. Employees working with food must
14. Food handlers who have been ill should

- A. Talk to a staff co-ordinator.
- B. Have two thirty-minute breaks.
- C. Not take any breaks for meals.
- D. Pay for any meals they have.
- E. Get a single one-hour break.
- F. Look at the section staffing board.
- G. Lose pay for their break times.
- H. Tell a member of the Personnel Management team.
- I. Have an annual dental examination.
- J. consult their doctor

General Training Reading Sample 44

BRAMLEY COLLEGE INTERNATIONAL SCHOLARSHIPS

There are seven types of scholarship offered by Bramley College to enrolled international students to assist with the costs of their courses. With the exception of applications for scholarship category E, all newly-enrolled international students are automatically considered for these scholarships. The scholarship is awarded in the student's first year as a credit to second semester course fees. In all subsequent years, the scholarship is awarded as a credit to first semester course fees. The scholarships are awarded once per year unless otherwise stated.

The scholarship categories are:

A One scholarship of A\$2000 for the most outstanding students entering the Foundation Studies Program from each of the following countries: Singapore, Malaysia and Thailand. An additional six scholarships are available for students from other countries. These scholarships are offered on two dates, to students in the March and June intakes of the program. Scholarships are awarded on the basis of first semester results.

B Three scholarships providing 25% of course fees for the duration of the course to the three most outstanding State Certificate of Education (SCE) students entering a Diploma or Certificate program. Scholarships are awarded on the basis of the previous year's SCE results.

C Seventeen scholarships providing 25% of course fees for the duration of the course to outstanding Diploma or Certificate students entering each Bramley College School: three each in the Schools of Business and Engineering; two in the School of Applied Science; two in the School of Environmental Design and Construction; two in the School of Art and Design; two in the School of Social Sciences and Communications; one in the School of Biomedical and Health Science; one in the School of Education and one in the School of Nursing. Scholarships are awarded on the basis of first semester results.

D One scholarship of A\$4000 per annum for the duration of the course to the most outstanding student entering the Diploma in Communication. Scholarships are awarded on the basis of first semester results.

E Nine scholarships of A\$3000 per annum for the duration of the course to the most outstanding students commencing any Advanced Certificate course. Scholarships are awarded on the basis of Basic Certificate results (not SCE results). Note that applicants need to apply for this scholarship on the Bramley College International Scholarship Application Form.

F One full-fee scholarship to the most outstanding student commencing a Diploma in Art and Design (Photography) course. This scholarship is offered every second year, and is awarded on the basis of results obtained in the Certificate in Design course.

G Four half-fee scholarships to outstanding students of Bramley College's Singapore campus for the final year of the two-year Certificate in Business Studies to be completed in Melbourne, Australia. Scholarships are awarded on the basis of first year results.

USING THE INTERNET AND CD-ROM DATABASES IN THE LIBRARY

Bramley College now has full electronic information resources in the College Library to help you in your studies. On CD-ROM in the library we have about fifty databases, including many statistical sources. Want to know the average rainfall in Tokyo or the biggest export earner of Vanuatu? It's easy to find out. Whether you are in the School of Business or the School of Art & Design, it's all here for you.

You can conduct your own CD-ROM search for no charge, and you can print out your results on the library printers using your library photocopying card. Alternatively, you can download your results to disk, again for no charge, but bring your own formatted floppy disk or CD-ROM. If you are not sure how to conduct a search for yourself, library staff can do it for you, but we charge \$20 for this service, no matter how long or how short a time it takes.

All library workstations have broadband access to the Internet, so you can find the web-based information you need quickly and easily. If you are unfamiliar with using the Internet, help is available in several ways. You can start with the online tutorial Netstart; just click on the Netstart Icon on the Main Menu. The tutorial will take you through the basic steps to using the Internet, at any time convenient to you. If you prefer, ask one of the librarians for internet advice (best at quiet times between 9.00am and 11.30am weekdays) or attend one of the introductory group sessions that are held in the first two weeks of each term. Sign your name on the list on the Library Bulletin Board to guarantee a place, as they are very popular.

A word of warning: demand for access to library workstations is very high, so you are strongly advised to book a workstation, and we have to limit your use to a maximum of one hour at any one time. Make your booking (for which you will receive a receipt) at the information Desk or at the enquiry desks in the Media Services Area (Level 1). Also, use of the computers is limited to Bramley students only, so you may be asked to produce your Student Identification Card to make a booking, or while using the workstations.

Questions 1 – 7

Reading Passage 44 has six sections, A-G. Which paragraph contains the following information?

NB You may use any letter more than once

1. It is awarded on results obtained in the SCE exam.
2. It is only available to students from the College's overseas branch.
3. It is not offered every year.
4. Students need to apply for it.
5. It is offered twice each year.

6. It pays 100% of the student's tuition fees.

13. At any one time, students may use a library workstation for.
 - A. Half an hour.
 - B. One hour.
 - C. Two hours.
 - D. An unlimited time.

General Training Reading Sample 44

STUDENT LIFE AT CANTERBURY COLLEGE

Most of the courses at Canterbury College only take up four days of the week, leaving one day free for independent study. The atmosphere at the College is that of an adult environment where a relationship of mutual respect is encouraged between students and tutors. Canterbury is a student city with several institutes of Further and Higher Education. The city centre is just a five-minute walk from the College, easily accessible in lunch or study breaks. Canterbury College has developed strong international links over the years and, as a result, many students have the opportunity of visiting and working in a European country in the course of their studies.

Students' Union and SRC

All students are automatically members of the Canterbury College Students' Union (CCSU) and can attend meetings. The Union is very active and is run by an Executive Committee elected by students in the Autumn Term. The President is elected every Summer Term to provide continuity for the next academic year. Representatives from each area of study form the Student Representative Council (SRC) which allows every student a say in Union affairs. In addition to representing students internally in the College on the Academic Board and with a subcommittee of the College Corporation, the CCSU also belongs to the National Union of Students which represents the interests of students nationally. The Union also arranges and supports entertainments, sporting activities and trips.

Student Facilities

Learning Resources Centre (LRC)

The Corey Learning Resources Centre provides easy access to a wide range of printed and audiovisual learning materials which can help students with coursework. There is ample space for quiet independent study and there are also areas for group work. Resources provided include books, journals, audio and video cassettes and CD-ROMs. Inter-library loans are available locally and nationally via the British Library. All students are encouraged to use the Open Access Information Technology Centre situated on the first floor. This has a variety of computing, word processing and desktop publishing software.

Bookshop

A branch of Waterstone's bookshops is located on campus, where you can buy a range of stationery, drawing equipment, artists' materials and books, as well as many other useful items you may need.

Children's Centre

The College Children's Centre has places for under 5s with some subsidised places being available to students. Places are limited, so, if you are interested, apply early to reserve a place by contacting Linda Baker on the College telephone number.

Refectory

This provides refreshments between 08.30 and 19.00 with hot meals served three times a day. Healthy eating options are available.

Coffee Shop

This is open during normal College hours and serves light snacks and drinks. Proceeds from the Coffee Shop go to the Students' Union.

Crypt Restaurant

This is a training restaurant which offers good quality cuisine in pleasant surroundings. Meals are very reasonably priced and you are invited to sample the students' highly skilled dishes when the restaurant is open to the public during the week. Reservations can be made on 01227511244.

Chapel View Restaurant

This is another training restaurant and is set up as a quick-service facility which offers a selection of snacks and main courses at a modest price.

CANTERBURY COLLEGE ; LIST OF COURSES

COURSE A

This course will enable students to experience performing arts and the media at a basic level. It will give them the experience to decide if they wish to pursue an interest in this field and to develop their potential and adaptability for working in a performance company in either a performing or a technical role.

COURSE B

The aim of this course is to provide a thorough grounding in business-related skills and a comprehensive knowledge of business practice. It is for students with a business studies background who can manage a heavy workload that will contain a greater degree of academic study.

COURSE C

This course provides progression to a range of higher levels. Units will include maintaining employment standards, salon management duties, providing facial massage and skin care, instruction on makeup, lash and brow treatments, artificial nail structures and ear piercing.

COURSE D

This course is designed to develop skills used in leisure operations. It covers preparing for and conducting physical activities, maintenance of facility areas, building relationships with participants and colleagues, handling sports equipment and health and safety issues.

COURSE E

This course gives a foundation for a career in caring for children, the elderly or people with special needs. Core units are Numeracy, Communication and Information Technology. Work placements are an important part of the course.

COURSE F

This course is designed to provide a foundation in graphic and visual communication skills. Students complete units in picture composition and photographic processing alongside elements of graphic design, and gain hands-on experience of desktop publishing and presentations.

COURSE G

This course is designed to provide an introduction to the construction industry. Units covered include Heat, Light and Sound, Introduction to the Urban Environment, Communication

Processes and Techniques and Properties of Materials. All students complete vocational assignments which are integrated with work experience with reputable companies.

COURSE H

The qualifications gained and the skills developed on this course will provide a good basis for gaining employment in office work. In addition to word processing, the course also covers spreadsheets, computerised accounting, databases and desktop publishing. All students are given chances to develop their confidence, and advice and information is given on job search skills, presentation techniques and personal appearance.

Questions 1- 6

Read the passage about student life at Canterbury College.

Do the following statements agree with the information given in the passage?

TRUE if the statement agrees with the information
FALSE if the statement contradicts the information
NOT GIVEN if there is no information on this

1. Many students are allocated a job experience placement abroad.
2. The elections for the Union President and Executive Committee are held together.
3. There are staff in the LRC to help students use the facilities.
4. Nursery care is available on a first-come, first-served basis.
5. The Refectory serves fast-food options.
6. The Chapel View Restaurant is for students only.

Questions 7 - 13

Look at the List of Courses at Canterbury College A-H.

Which course would you recommend for people with the following career interests?

7. Advertising
8. Tv production
9. Architecture
10. Company management
11. Working with the disabled
12. Secretariat tasks
13. Beauty therapy

General Training Reading Sample 45

BOOK REVIEW

A

Your Chinese Horoscope 2003

Astrologer Neil Somerville suggests the Year of the Goat will be one of healing. It was a Goat year that the first human organ transplant was performed and it appears that there will be more medical breakthroughs

--- Maggie Hamilton

B

Start Me Up

For someone leaving the safety of full-time employment to face the risks and challenges of running their own business, Start Me Up by Toney Fitzgerald is not a bad learning tool.

--- Graeme Berwick

C

The Autobiography of Pat Cash

The book covers Pat Cash's tennis career from junior Davis Cup member to Wimbledon champion. Cash also frankly shares his opinion on all matters relating to professional tennis.

--- Joanne Dover

D

GARDENS BY THE SEA

Gardens by the Sea showcases gardens all over the world. Some are grand, some are humble, but each of these stunning creations bears witness to the gardener's dedication in the face of the harsh realities of seaside living.

--- Gordon Bain

E

Walking Home with Marie-Claire

This is a story about Pauline in Grade 6 at a primary school in the 70s. She meets a new friend, Marie-Claire with a very unusual family. But why won't Marie-Claire let Pauline meet her family? The book portrays the lives of families struggling to understand each other's points of view.

--- Merle Morcom

F

Splendours of an Ancient Civilisation

This book is the perfect coffee table book for lovers of Ancient Egypt. Its appeal lies in the colour photography and the illustrations. They include detailed close-ups of the most impressive and well-known objects and buildings of the time.

--- Myffanwy Bryant

G

Never Count Out the Dead

Police Officer John Sully is tricked into driving thirteen-year-old Shay Storey to an isolated spot, where her mother, Dee, is waiting to kill him. Sully miraculously survives and Dee flees to

Mexico, where she abandons her daughter. Sully is contacted by a journalist who offers to help him catch Dee and find her daughter.

--- Phillip Knowles

H

Fresh Flavours of India

This is a mouth-watering book packed with innovative ideas that reflect the author's passion for his homeland's cuisine. The author offers dishes from contemporary India with straightforward recipes that burst with flavour and aroma.

--- Gordon Bain

Questions 1-5

Look at the reviews of books (**A-H**). Match each question **1-5** with a book review (**A-H**). You may use any letter more than once.

Example: Which book deals with cooking?

Answer: H

1. Which book is detective fiction?
2. Which book handles commercial matters?
3. Which book teaches about past history?
4. Which book is written by a sporting personality?
5. Which book attempts to predict future discoveries in the field of medicine?

LEGAL INFORMATION ON CALL

What is Dial-A-Law?

Dial-A-Law is a library of pre-recorded messages to provide general information on specific topics of law. You can call this service 24 hours a day, 7 days a week and listen to any tape from our complete library of pre-recorded messages.

Dial-A-Law provides information, not legal advice. Each legal problem is different so if you have a legal problem you should talk to a solicitor. If you don't have a solicitor, the Legal Referral Service can refer you to a solicitor in your area.

While the Dial-A-Law information service is available 24 hours a day, the Legal Referral Service is open only during normal business hours.

What if I need a solicitor?

If you listen to a Dial-A-Law message after business hours, you can phone the Legal Referral Service during business hours the following day on the number given to you at the end of the message.

If you listen to a Dial-A-Law message during business hours and decide you want a referral to a solicitor, press the appropriate number when prompted and you will be automatically transferred to the Legal Referral Service.

You will be given the names of up to three solicitors in your suburb who practise in the specific area of law you require. You can simply arrange an appointment with one of these solicitors. Then you must contact the Legal Referral Service to obtain a referral letter. You must hand this to the solicitor at the beginning of your interview. He or she will give you an initial interview of up to 30 minutes free of charge.

During the interview the solicitor will tell you if you have a legal case, what is involved, approximately how long it should take to solve the problem, and how much it is likely to cost. Then, if you and the solicitor agree, you may hire the solicitor to handle your problem at his or her normal fee.

Questions 6-9

Read the Reading Passage "**Legal information on call**" about a new way to get legal information. Choose the correct letter **A-D** for questions **6-9**.

6. Dial-A-Law is

- A. a group of solicitors.
- B. a law college library.
- C. a legal telephone service.
- D. a legal Internet message bank.

7. Dial-A-Law will

- A. give legal counselling.
- B. inform listeners about particular legal subjects.
- C. suggest to clients which solicitor they should see.
- D. supply advice on difficulties concerning the law.

8. Dial-A-Law is available to customers

- A. at any time.
- B. on weekdays only.
- C. during business hours.
- D. for thirty minutes at a time.

9. The Legal Referral Service will

- A. recommend a legal consultant.
- B. nominate three solicitors in the client's vicinity.
- C. choose the best of three solicitors for the client.
- D. decide whether the client must pay for a legal problem.

Questions 6-10

Do the following statements agree with the information given in the text '*Legal information on call*'?

- | | |
|------------------|--|
| TRUE | if the statement agrees with the information |
| FALSE | if the statement contradicts the information |
| NOT GIVEN | if there is no information on this |

10. The client can be transferred to a solicitor at any time.
11. The first consultation with a solicitor is always free.
12. The client must write a letter of referral for the solicitor.
13. The solicitor will advise the client of the expense involved in a legal matter.
14. The client should take the first solicitor offered.
